The Crash of Rhinos Ray Dearlove,2020-12-10 What will future generations think of us when they look back and rhinos are only in a picture book Dr Jane Goodall DBE The Crash of Rhinos is a play on words A crash is the collective noun for rhinos but it also describes the carnage wrought by poachers in Africa who have slaughtered more than 10 000 rhinos three a day in the past decade to feed the seemingly insatiable demand for rhino horn in some Asian countries The author spent his first forty years in South Africa and during this time developed a love of wildlife After emigrating to Australia Ray retained strong ties with African wildlife and conservation In 2014 a friend suggested that he investigate the feasibility of bringing rhinos to Australia to act as an insurance policy in the event of the possibility of the extinction of rhino species in the wild The Australian Rhino Project was born The Crash of Rhinos traces the origin of the Project to the present with the team still working to relocate rhinos to Australia It is an insightful frustrating humorous and humbling story that will make you laugh cry and tear your hair out in exasperation In Ray s own words There was extreme joy and there was acute heartache This fascinating story demonstrates what can be achieved by one person with the passion resilience and dogged persistence to meet challenges obstacles and the glacial pace of governments even in the face of a crisis The proceeds of this book will be directed to the South African all female anti poaching group The Black Mambas

The Gray Rhino Michele Wucker, 2016-04-05 The #1 English language bestseller in China, the book that is shaping China's planning and policy for the future. A gray rhino is a highly probable high impact yet all too often neglected threat, kin to both the elephant in the room and the improbable and unforeseeable black swan. Gray rhinos are not random surprises but occur after a series of warnings and visible evidence. The bursting of the housing bubble in 2008, the devastating aftermath of Hurricane Katrina, and other natural disasters, the new digital technologies that upended the media world, the fall of the Soviet Union, all were evident well in advance. Why do leaders and decision makers keep failing to address obvious dangers before they spiral out of control? Drawing on her extensive background in policy formation and crisis management, as well as in-depth interviews with leaders from around the world, Michele Wucker shows in *The Gray Rhino* how to recognize and strategically counter looming high impact threats. Filled with persuasive stories, real world examples, and practical advice, *The Gray Rhino* is essential reading for managers, investors, planners, policy makers, and anyone who wants to understand how to profit by avoiding getting trampled.
