Americans in the early 1970s were smoking upwards of 35 000 pounds of marijuana per day By the time the decade drew to a close Time magazine reported that reefer had become the most widely accepted illegal indulgence since drinking during Prohibition You can thank Jimmy Moree for helping to feed America's insatiable pot habit Nicknamed Jimmy Divine for his teetotaling ways he would become one of the most successful marijuana traffickers of the 1970s smuggling high grade South American weed across the tempestuous seas into North American ports of call He was born and grew up poor in the Bahamas That life was forever changed on a morning jog when Jimmy literally stumbled onto several million dollars worth of prime Colombian grass He disposed of the weed with a little help from a law enforcement friend and was surprised to earn over three hundred thousand dollars for his trouble It was the first deal of many The money was easy and the perks fantastic Jimmy went on to make and give away a fortune And now award winning journalist John McCaslin is telling Jimmy's story Several of the characters are identified by their actual names or by nicknames Identities of others have been changed to

protect the guilty Rest assured you're in for a white knuckle ride on the open seas where adventure enterprise and entire fortunes go up in smoke McCaslin brings his exceptional reportorial talent to bear in a fascinating exposé of the drug trade GORDON LIDDY Told in a breezy witty style McCaslin's book captures moments in relatively recent Caribbean history when it was possible to make a fortune by the ability to steer a boat stealthily through dangerous seas MARK BOWDEN

Endorsements I'm delighted to see that John McCaslin has climbed out of his political trench in Washington long enough to set sail on this astonishing journey through the precarious Caribbean reefs and beyond Somehow in typical McCaslin fashion he manages to bring his readers back to the nation's capital in a chapter that will certainly have official tongues wagging in Washington Katie Couric anchor and managing editor of the CBS Evening News and former co-host of NBC's Today This story is so compelling John McCaslin has put it all together in a way that simply made me want to just keep on reading Wow Wolf Blitzer anchor and host of the CNN newscast The Situation Room For years everybody in Washington has turned to John McCaslin's Inside The Beltway column for the inside skinny on what is going on in our nation's capital Now in Weed Man The Remarkable Journey of Jimmy Divine McCaslin brings his exceptional reportorial talent to bear in a fascinating expose of the drug trade G Gordon Liddy Watergate figure and nationally syndicated radio host **Medicine at the Margins** Christopher Prener, 2022-12-06 Presents a unique view of social problems and conflicts over urban space from the cab of an ambulance While we imagine ambulances as a site for critical care the reality is far more complicated Social problems like homelessness substance abuse and the health consequences of poverty are encountered every day by Emergency Medical Services EMS workers Written from the lens of a sociologist who speaks with the fluency of a former Emergency Medical Technician EMT Medicine at the Margins delves deeply into the world of EMTs and paramedics in American cities an understudied element of our health care system Like the public hospital the EMS system is a key but misunderstood part of our system of last resort Medicine at the Margins presents a unique prism through which urban social problems the health care system and the struggling social safety net refract and intersect in largely unseen ways Author Christopher Prener examines the forms of marginality that capture the reality of urban EMS work and showcases the unique view EMS providers have of American urban life The rise of neighborhood stigma and the consequences it holds for patients who are assumed by providers to be malingering is critical for understanding not just the phenomenon of non or sub acute patient calls but also why they matter for all patients This sense of marginality is a defining feature of the experience of EMS work and is a statement about the patient population whom urban EMS providers care for daily Prener argues that the pre-hospital health care system needs to embrace its role in the social safety net and how EMS's future is in community practice of paramedicine a part of a broader mandate of pre-hospital health care By leaning into this work EMS providers are uniquely positioned to deliver on the promise of community medicine At a time when we are considering how to rely less on policing the EMS system is already tasked with treating many of the social problems we think would benefit from less involvement with law involvement

Medicine at the Margins underscores why the EMS system is so necessary and the ways in which it can be expanded
