Mad About Us Doug McKinley,2004-05 The Modern Weird Tale S.T. Joshi,2001-03-22 This is a critical study of many of the leading writers of horror and supernatural fiction since World War II The primary purpose is to establish a canon of weird literature and to distinguish the genuinely meritorious writers of the past fifty years from those who have obtained merely transient popular renown Accordingly the author regards the complex subtle work of Shirley Jackson Ramsey Campbell Robert Aickman T E D Klein and Thomas Ligotti as considerably superior to the best sellers of Stephen King Clive Barker Peter Straub and Anne Rice Other writers such as William Peter Blatty Thomas Tryon Robert Bloch and Thomas Harris are also discussed Taken as a whole the volume represents a pioneering attempt to chart the development of weird fiction over the past half century *The Radical Insufficiency of Human Life* Aileen Dever,2000-01-01 The postromantic works of the Spaniard Rosal a de Castro and the Colombian Jos Asunci n Silva are indispensable in any anthology of 19th century Spanish and Latin American poetry However they found few appreciative readers during their lifetimes even while displaying two of the most sincere voices of the day Dever s book is unique it is the first comparison of Castro s and Silva s poetry Their works have meaningful differences but share remarkable likenesses in theme tone and style though it is doubtful that either was aware of the other s existence Of interest to feminist critics is an interpretation of Castro s literary vocation within a patriarchal society Using the ideas of three 20th century Spanish thinkers Jos Ortega y Gasset Xavier Zubiri and Pedro La n Entralgo Dever applies the concept of radical insufficiency to a comparison of the poets works Radical insufficiency holds that humans lack a determined being and fixed course for life thus norms are not available to make the

world intelligible Humans experience feelings of uncertainty and emptiness which inevitably lead to anxiety Confronted by the mystery and pathos of human life Castro and Silva both describe futile attempts to overcome this insufficiency through creation and contemplation of art human relationships and religion The significance of these writers has transcended their own time when examined in the context of Spanish and Latin American authors and thinkers who succeeded them the importance of their works will continue to grow **The British National Bibliography** Arthur James Wells,2007

Weird Fiction and Science at the Fin de Siècle Emily Alder,2020-01-07 This book explores how nineteenth century science stimulated the emergence of weird tales at the fin de siècle and examines weird fiction by British writers who preceded and influenced H P Lovecraft the most famous author of weird fiction From laboratory experiments thermodynamics and Darwinian evolutionary theory to psychology Theosophy and the new physics of atoms and forces science illuminated supernatural realms with rational theories and practices Changing scientific philosophies and questioning of traditional positivism produced new ways of knowing the world fertile borderlands for fictional as well as real world scientists to explore Reading Robert Louis Stevenson s Strange Case of Dr Jekyll and Mr Hyde 1886 as an inaugural weird tale the author goes on to analyse stories by Arthur Machen Edith Nesbit H G Wells William Hope Hodgson E and H Heron and Algernon Blackwood to show how this radical fantasy mode can be scientific and how sciences themselves were often already weird *Children's Book Review Index* Gary C.
