assumptions about parents a vision for education in which educators work alongside parents and family members in the learning and care of children and a desire for reform She describes a curriculum of parents in the form of three graduate teacher education courses which she lived out in relationship with students Graduate students then capture their experiences immersed in this curriculum what they each took up how it shaped their knowledge attitudes and practices and how they lived it out as they returned to their classrooms schools and early learning centres This book is a storied account of their intense immersion in a curriculum of parents and the resulting impact living that curriculum has had on who they are in relation to parents and families It is an honest and vulnerable account of their shared and individual journeys They puzzle over the complexities and the successes of their work and the resulting impact This is not a book of best practice but an invitation to other educators to consider as they did what they do and how it could be different **Resources in Education**
