Creating Your Own Ip Networks:

Designing and Developing Scalable IP Networks Guy Davies, 2004-11-19 *Designing and Developing Scalable IP Networks* takes a real world approach to the issues that it covers. The discussions within this book are rooted in actual designs and real development not theory or pure engineering papers. It recognises and demonstrates the importance of taking a multi vendor approach as existing network infrastructure is rarely homogenous and its focus is upon developing existing IP networks rather than creating them from scratch. This global book based on the author's many years experience of designing real scalable systems is an essential reference tool that demonstrates how to build a scalable network what pitfalls to avoid and what mechanisms are the most successful in real life for engineers building and operating IP networks. It will be ideal for network designers and architects network engineers and managers as well as project managers and will be of particular relevance to those studying for both JNCIE and CCIE exams. *Windows NT TCP/IP Network Administration* Craig Hunt, Robert Bruce Thompson, 1998 *Windows NT TCP IP Network Administration* is a complete guide to setting up and running a TCP IP network on Windows NT. Windows NT and TCP IP have long had a close association and this is the first book to focus exclusively on NT networking with TCP IP. It starts with the fundamentals what the protocols do and how they work how addresses and routing move data through the network and how to set up your network connection. Beyond that all the important networking services provided as part of Windows NT including IIS RRAS DNS WINS and DHCP are presented in detail. This book is the NT administrator's indispensable guide. Contents include Overview Delivering the data Network services Getting started Installing and configuring NT TCP IP Using Dynamic Host Configuration Protocol Using Windows Internet Name Service Using Domain Name Service Configuring Email Service Using Microsoft routing Using Remote Access Service Troubleshooting TCP IP Network Security Internet Information Server Appendixes on the TCP IP commands PPP script language reference and DNS resource records. ***Alcatel-Lucent Scalable IP Networks Self-Study Guide*** Kent Hundley, 2018-04-03 By offering the new Service Routing Certification Program Alcatel Lucent is extending their reach and knowledge to networking professionals with a comprehensive demonstration of how to build smart scalable networks.
