Creating the Second Cold War Simon Dalby, 1993-04

Creating the Second Cold War Simon Dalby, 1990

Creating the Second Cold War Simon Dalby, 2016-10-06 The Cold War is over yet many attitudes and analyses typical of the period persisted in the strategic thinking of the Great Powers In this brilliantly original study Simon Dalby uses the conceptual tools of geopolitical analysis to uncover the essence of American strategic discourse Focussing on the period of the late 1970s he shows how Washington pressure groups political organisations and in particular the Committee on the Present Danger recreated a language of confrontation that deeply influenced Western attitudes towards the Soviet Union in ways that continue to shape foreign policy

Facing Global Environmental Change Hans Günter Brauch, Navnita Chadha Behera, Patricia

Kameri-Mbote, John Grin, Úrsula Oswald Spring, Béchir Chourou, Czeslaw Mesjasz, Heinz Krummenacher, 2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth sessment Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who has done a great deal to create awareness on c mate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world

Insecure Spaces Doctor Marsha Henry, Doctor Paul

Higate, 2013-07-04 In recent times the Blue Berets have become markers of peace and security around the globe Yet the iconoclastic symbol of both the Blue Beret and the Blue Helmet continue to engage the international political imagination in

ways that downplay the inconsistent effects of peacekeeping missions on the security of local people In this book Paul Higate and Marsha Henry develop critical perspectives on UN and NATO peacekeeping arguing that these forms of international intervention are framed by the exercise of power Their analysis of peacekeeping based on fieldwork conducted in Haiti Liberia and Kosovo suggests that peacekeeping reconfigures former conflict zones in ways that shape perceptions of security This reconfiguration of space is enacted by peacekeeping personnel who perform security through their daily professional and personal practices sometimes with unanticipated effects Insecure Spaces interdisciplinary analysis sheds great light on the contradictory mix of security and insecurity that peace operations create
