Creation And Evolution Rethinking The Evidence From Science And The Bible:

Creation and Evolution Alan Hayward,1995 British physicist Hayward invites Christians to rethink the scientific and biblical data about creation and evolution In a unique approach he draws upon arguments only from non Christian researchers to discredit gradual evolution Bowing neither to theistic evolution nor scientific creationism Hayward writes from the perspective of a Christian scientist committed to a high view of Scripture and rigorous honesty with scientific data

Life's Ultimate Question: Does God Exist? United Church of God,2010-10-18 Why are we here What is our place in the universe What is the purpose of life The questions have been asked for centuries But they all revolve around what is perhaps the most fundamental question of all Does God exist Inside this booklet Asking the Crucial Questions Evidence All Around Us The Beginning of the Universe Our Awesome Universe How Big is Big Science and Discomfiting Discoveries Our Amazing Spaceship Earth The Importance of Life Sustaining Water The Giver of Life The Tiny Miracle That's Toppling Evolution A Deeper Look at the Evidence Scientists Thundering Silence Life's Purpose and the Consequences of Ideas Groping for Meaning and Morality Why Were You Born Man's Natural Hostility Toward God Meet God How Does God Reveal Himself A God Not Bound by Space and Time Our Window of Opportunity *Is The Truth Out There?* Darrick Dean,2008-07-19 Does truth change How can we determine fact from fiction Travel through history and science religion and the mind as we search to make sense of the world around us **Gaining the High Ground over Evolutionism** Robert J. O'Keefe,2012-10-24 The

controversy surrounding the origin of the universe earth and all living things is an ongoing debate in the public sphere In *Gaining the High Ground over Evolutionism* author Robert J OKeefe presents analysis leading to the realization that to obtain knowledge of origin is also to discover the origin of knowledge *Gaining the High Ground over Evolutionism* recognizes the ideological nature of the topic of origin It steps out of the realm of science and begins to deal with the question by reviewing the scientific revolution and its implications in Western thought studying the interpretation of Genesis 1 and describing relevant aspects of the history of geology biology and astronomy OKeefe summarizes science as a means of gaining knowledge and discusses the scientific method as it is applied to natural history He examines how the court system has dealt with the controversy draws points from C S Lewiss argument against naturalism and then confronts the ideology behind evolutionary science the philosophy of naturalism presenting what he sees are the best arguments against it Finally he summons back the grounds for the authority of the Bible and discusses the partnership of reason and faith Expanding the scope of inquiry beyond the confines of science OKeefe shows that the idea of a creator needs to be attended with more seriousness than post Enlightenment science and philosophy have ever thought necessary

CONTENDING FOR THE FAITH Christopher H.K. Persaud,2013-05-21 Doubt and disbelief in God s existence and his plan of redemption for lost humankind is becoming increasingly evident in today s hedonistic self directed world Many Christian believers even choose to listen to and to acknowledge a feel good now Gospel notwithstanding its deviation from Biblical truth and its possible damning implications Conversely many people are wont to deny the existence of a devil and the reality of a place of unceasing torment and or destruction called hell A good God cannot be so cruel they opine Jesus commissioned his followers to take his Gospel to the far reaches of the Earth and the Holy Scriptures encourage Christians in Jude 1 3 to earnestly contend for the faith More than at any other time in history believers must defend the Christian Gospel and advocate its timeless truths everywhere so that all of humankind may hear about Christ s offer of eternal life in a place named Paradise The miscellany of contemplative inquiries and arguments presented in *CONTENDING FOR THE FAITH* purposes to do just that endorse and advance the Gospel of Christ and help establish Biblical truth Much too much is at stake for not spreading or not listening to Christ s entreaty

Satan Vs. God

Herman Saini,2008-07 Did Noah s Flood really occur or is it a MYTH Yes God did really drown that world except for Noah and a PART of his family But why did God submerge that entire world How really WICKED had that society become Who were the main characters that led it to its doom What kind of EVILS were they practicing Gleaning information from ancient sources Herman Saini provides detailed answers to these questions He explains why pre Flood history seemed lost and restores much of that history He tells the gripping yet sobering history of the universe and man from the creation of Adam and Eve and how their son Cain sold himself to work EVIL His descendents followed in his footsteps and led the world to its doom He draws vital lessons from that experience to enable men to avoid the same fate in a fast approaching great tribulation HERMAN SAINI has been an accountant and business consultant for over 16 years He has developed a model of economic development and international trade that nations can use as a guide to develop plans for economic growth He holds a chemical engineering degree a MBA and has been a Ph D candidate in marketing having completed three years of work towards the degree He is also licensed as a Certified Public Accountant He maintains two blogs the purpose of which is to preach the gospel of the soon coming kingdom of God in fulfillment of the prophecy in Matthew 24 14 You can read his articles at www.thetruereligionreport.com and his weekly messages at www.thetruereligionreport.com/blog1 He currently lives in Holiday Florida

Evolution Christopher H. K. Persaud,2007-12 Darwinian evolution is taught unreservedly to students of science around the world as incontrovertible truth even though many aspects of the theory have been thoroughly discredited while others are woefully lacking in corroboration from a standpoint of proper scientific precept and practice Practical and honest scientists increasingly are acknowledging that evolutionism is biologically and mathematically impossible The outlandish premise is at odds with the laws of physics and manifestly incompatible with genuine geological and paleontological criteria for aging and classifying rocks strata and fossils Evolutionary theory s ostracism of God as a supreme designer and creator of the universe and of life has emboldened many of history s most ruthless dictators who have embraced its disturbing message to commit crimes of unspeakable evil Many millions of people have lost their lives as demagogues fueled by evolutionist inclinations have sought to legitimize sinister proclivities such as racism bigotry eugenics and ethnic cleansing among other perpetrations of antipathy and wickedness It is not unreasonable to assume that many of today s social and behavioral thinkers as well as misguided scientists who support evolutionary theory also nurture predilections that are far removed from wholesome deportment and espouse leanings that show scant respect for the sanctity of human life Evolutionary thought falls outside the precincts of essential moral contemplation and is beyond the realm of real science

Why I Became an Atheist John W. Loftus, 2012-10-10 For about two decades John W Loftus was a devout evangelical Christian an ordained minister of the Church of Christ and an ardent apologist for Christianity With three degrees in philosophy theology and philosophy of religion he was adept at using rational argumentation to defend the faith But over the years doubts about the credibility of key Christian tenets began to creep into his thinking By the late 1990s he experienced a full blown crisis of faith In this honest appraisal of his journey from believer to atheist the author carefully explains the experiences and the reasoning process that led him to reject religious belief The original edition of this book was published in 2006 and reissued in 2008 Since that time Loftus has received a good deal of critical feedback from Christians and skeptics alike In this revised and expanded edition the author addresses criticisms of the original adds new argumentation and references and refines his presentation For every issue he succinctly summarizes the various points of view and provides references for further reading In conclusion he describes the implications of life without belief in God some liberating some sobering This frank critique of

Christian belief from a former insider will interest freethinkers as well as anyone with doubts about the claims of religion

Blessings, Miracles & Supernatural Experiences Christopher H.K. Persaud,2015-03-06 Many people today are reluctant to believe in blessings ensuing from a supernatural source and they are hesitant to lend credence to the possibility of miracles and supernatural experiences as well Numerous Christians too although they profess allegiance to the God of the Holy Bible tread delicately on a path that would otherwise bridge a chasm between the temporal or tangible and the miraculous or preternatural The result is a departure from Biblical Christianity and the embracing of a kind of pseudo religiosity far removed from the Gospel of Jesus Christ In Blessings Miracles Supernatural Experiences A Biblical Perspective A Christians Story the author presents an explicative discussion about blessings miracles and supernatural experiences from a Biblical standpoint He purposes to explain the supernaturalness of God while acknowledging present day humankind's falling away from Biblical Christianity and its pronouncements about an omniscient omnipotent and omnipresent Creator and Designer of life and of the universe The author devotes three full length chapters to the recollection of blessings miracles and supernatural experiences in his life the lives of family members including his siblings and their families and his parents There are stories about healings miracles supernatural experiences and even demon possession and exorcism all of which actually took place The penultimate and final chapters of Blessings Miracles Supernatural Experiences A Biblical Perspective A Christians Story examine the greatest miracle in history the Resurrection of Jesus Christ and analyze what religious scholars refer to as End time events and the ushering in of eternity a period of everlastingness in either of two locations heaven or hell

Do Straw Men Evolve from Red Herrings Vincent M Cassone,2025-09-26 This book explores the biodiversity on Earth and describes the journey of humanity across the globe It provides a vision of the multiple expansions of the human form in multiple waves of archaic and then anatomically modern humans from Africa to every continent on the planet It discusses the many ways by which humans and human societies have sought to explain how they and the diverse living world came to be The ultimate goal of this book is to refute creationist strategies for their pseudo scientific and logical perspectives It also intends to spur argument among creationist purveyors and provide armor for scientists seeking to argue with them

Two Beasts Rising C.H. Ren,2011-04-07 THE END TIMES SERIES A set of two books designed to warn and prepare Christians for the dangerous days ahead BOOK 2 Two Beasts Rising Two Beasts Rising combines biblical insight with academic research methods to help Christians understand the emergence of global political scientific ideological economic and social systems Unless opposed by Christians these five systems will come under the influence of dark forces to become the first beast of Revelation and give power to the second beast of Revelation If the End Times are not delayed Christians can still triumph under persecution by learning how the beasts will gain power There is much to do before the return of our Lord

Science and Faith? C. John Collins,2003-10-15 Many believers worry that science undermines the Christian faith Instead of fearing scientific discovery Jack Collins believes that Christians should delight in the natural world and study it

God's truth will stand against any challenge and will enrich the very scientific studies that we fear Collins first defines faith and science shows their relation and explains what claims each has concerning truth Then he applies the biblical teaching on creation to the topics of conflict between faith and science including the age of the earth evolution and miracles He considers what it means to live in a created world This book is for anyone looking for a Christian engagement with science without technical jargon *Perspectives on Science and Christian Faith* ,2007
