Creation Evolution Controversy An Annotated Bibliography:

The Creation/Evolution Controversy James L. Hayward,1998-04-30 This collection of 447 annotated references provides an overview of the literature addressing the creation evolution controversy for students teachers lawyers writers historians scientists sociologists clerics and other interested persons Fifty four annotations in the chapter on historical references highlight influential volumes published between 1543 and 1980 classic works that inform the views of later writers These historical works are listed chronologically in order of publication The remaining 393 entries feature books published from 1981 the year of the Scopes II trial in Arkansas to 1996 and include works that address historical sociological philosophical religious cosmological geological biological and anthropological issues surrounding the creation evolution controversy The annotations are written in an informative impartial style Except for references in the chapter containing historical sources and in the chapter featuring works on the history of the creation evolution controversy references are grouped under theistic and non theistic headings An introductory essay describes the history of evolutionary theory and creationism and defines the distinguishing features of each thought system An annotated list of periodicals featuring articles on creationism and evolutionism is also provided With author title and subject indexes **The Creation/Evolution Controversy** Kary D. Smout,1998-10-28 This rhetorical study of the various language strategies and competing worldviews involved in the 140 year argument between Biblical creationists and Darwinian evolutionists focuses on the 1860 Huxley Wilberforce debate the 1925 Scopes Monkey Trial and the 1981 Arkansas Creation Science Trial When Darwin published his *Origins of Species* in 1859 he initiated a debate about the origin of human life and the role of God in human affairs scarcely equalled in world history Smout traces the response of Biblical creationists to Darwinian evolutionists Looking carefully at the stories told and the tactics used by both sides he analyzes all available accounts of the original debate culminating in the 1860 Huxley Wilberforce debate the 1925 Scopes Monkey Trial and the 1981 Arkansas Creation Science Trial Professor Smout argues that both sides in the controversy use various language strategies to persuade the culture as a whole to see the world that they see and to enact their position as public policy As Smout illustrates the problem is that both sides rely on an inadequate conception of language as a namer of timeless realities rather than as an instrument used by human communities to achieve their goals He attempts to articulate a better view of language and to show how it might help solve intractable arguments such as this He argues that we should see language as a tool that shapes what we see and definitions of terms as political acts rather than statements of fact made by disciplinary experts An important analysis for students and scholars in rhetoric history religion and sociology *21st Century Anthropology: A Reference Handbook* H. James Birx,2010-06-10 Highlighting the most important topics issues questions and debates these two volumes offer full coverage of major subthemes and subfields within the discipline of anthropology [Evolution Vs. of view and offers insight to the evolution creationism controversy

The Scientific Case Against Scientific

Creationism Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles Encyclopedia of Fundamentalism: Volume 3 of Religion & Society

Brenda Brasher, 2001-10-19 The Encyclopedia of Fundamentalism is the third volume of the acclaimed Religion Society series The Encyclopedia of Fundamentalism follows a broad definition of fundamentalism and covers fundamentalism across time and place although the emphasis remains on its primary manifestation Protestant fundamentalism in the United States It draws upon the work of historians sociologists religious scholars anthropologists political scientists and others **Evolution**

, *Chronology of the Evolution-Creationism Controversy* Randy Moore, Mark Decker, Sehoya H. Cotner, 2009-11-25 A unique chronology with entries describing the key events in the 3 000 year conflict between religion and science over the explanation and definition of life on Earth Exhaustively researched and authoritative Chronology of the Evolution Creationism Controversy does what no other work does it examines the conflict between the religious and scientific views of life on Earth in its full 3 000 year historical context showing readers how this roiling debate has played out over the centuries With hundreds of entries Chronology of the Evolution Creationism Controversy describes specific cultural religious and scientific events relevant to the evolution creationism controversy from the first notions of creationism in ancient Egypt to the present Within this historical approach it identifies a number of recurring themes that have shaped the debate through the ages including famous court cases the recurrence of the intelligent design argument disagreements over the age of the Earth and the impact of technological advances on both the scientific and faith based viewpoints While approaching the subject globally throughout the book s second half focuses on tensions between science and religious thought in the United States since the early 1900s **Creation/evolution** , 1987 **The Pseudoscience Wars** Michael D. Gordin, 2024-05-31 Properly analyzed

the collective mythological and religious writings of humanity reveal that around 1500 BC a comet swept perilously close to Earth triggering widespread natural disasters and threatening the destruction of all life before settling into solar orbit as Venus our nearest planetary neighbor Sound implausible Well from 1950 until the late 1970s a huge number of people begged to differ as they devoured Immanuel Velikovsky s major best seller Worlds in Collision insisting that perhaps this polymathic thinker held the key to a new science and a new history Scientists on the other hand assaulted Velikovsky s book

his followers and his press mercilessly from the get go In *The Pseudoscience Wars* Michael D Gordin resurrects the largely forgotten figure of Velikovsky and uses his strange career and surprisingly influential writings to explore the changing definitions of the line that separates legitimate scientific inquiry from what is deemed bunk and to show how vital this question remains to us today Drawing on a wealth of previously unpublished material from Velikovsky's personal archives Gordin presents a behind the scenes history of the writer's career from his initial burst of success through his growing influence on the counterculture heated public battles with such luminaries as Carl Sagan and eventual eclipse Along the way he offers fascinating glimpses into the histories and effects of other fringe doctrines including creationism Lysenkoism parapsychology and more all of which have surprising connections to Velikovsky's theories Science today is hardly universally secure and scientists seem themselves beset by critics denialists and those they label pseudoscientists as seen all too clearly in battles over evolution and climate change *The Pseudoscience Wars* simultaneously reveals the surprising Cold War roots of our contemporary dilemma and points readers to a different approach to drawing the line between knowledge and nonsense

The Natural History of Creation Michael Anthony Corey, 1995 The Natural History of Creation is the third and final installment in M A Corey's natural theology series This remarkable trilogy has worked in tandem with the findings of modern science to help spearhead the rebirth of the once dead natural theology movement In this detailed yet easy to read work the author focuses on the religious account of creation found in Genesis One and comes to the astonishing conclusion that there is indeed much scientific truth to be found in this ancient work Many other writers have also noticed the breathtaking parallels that exist between modern evolutionism and the creation account given in the Bible but nowhere will the reader find a more thorough description of them than in *The Natural History of Creation* Back cover

El sábado en las Escrituras Alberto R. Timm, 2012-03-01 Este libro presenta y comenta las evidencias bíblicas más relevantes en relación con el debate por el verdadero día de reposo cristiano Los asuntos de la perpetuidad de la discontinuidad o de la sustitución del sábado como día de reposo cristiano dependen de la perspectiva desde la cual la persona estudie las Sagradas Escrituras La observancia del sábado estimula una apreciación más profunda del amoroso carácter de Dios y de la naturaleza reafirma nuestro origen y fortalece la estabilidad emocional que deriva de la relación con Él como Creador y Redentor Al romper la rutina competitiva y mercantilista de la vida moderna el sábado promueve la salud física y refuerza el amor y el servicio altruista El sábado fue observado desde la creación del mundo y prosigue rumbo a los cielos nuevos y a la nueva tierra es el magnífico santuario de Dios en el tiempo a disposición de todos los seres humanos en todos

los tiempos y lugares **Imagining the Impossible** Karl S. Rosengren, Carl N. Johnson, Paul L. Harris, 2000-05-29 This volume first published in 2000 is about the development of human thinking that stretches beyond the ordinary boundaries of reality Various research initiatives emerged in the decade prior to publication exploring such matters as children's thinking about imaginary beings magic and the supernatural The purpose of this book is to capture something of the larger spirit of these efforts In many ways this new work offers a counterpoint to research on the development of children's domain specific knowledge about the ordinary nature of things that has suggested that children become increasingly scientific and rational over the course of development In acquiring an intuitive understanding of the physical biological or psychological domains even young children recognize that there are constraints on what can happen However once such constraints are acknowledged children are in a position to think about the violation of those very same constraints to contemplate the impossible **Resources in Education** ,1999-10 **The Other Side of the Scopes Monkey Trial** Jerry

Bergman, 2023-10-26 The enormous amount of literature on the Scopes Trial focuses on the religious elements of the trial It almost totally ignored the importance of racism as taught in the text that Scopes used to teach biology Bryan was not concerned about evolution in general but specifically human evolution He believed that Darwin's theory as applied to humans encouraged the oppression of certain oppressed groups Taking evolution's philosophy to its logical conclusion meant justifying survival of the fittest in social matters This philosophy he learned from his extensive reading about WWI was a major factor influencing the Germans to fight in the first World War Furthermore Bryan believed the citizens of Tennessee had a right to determine what their children were taught in the public schools Another fact that is rarely mentioned is the main fossil evidence cited in the trial documents and the press in support of human evolution has been discredited by evolutionists including Neanderthal man Piltdown man Java man and Nebraska man Scopes was not a biology teacher but rather taught math His college degree was not in biology but law He was not put on the stand to testify in his trial probably because he never taught evolution and could not honestly answer questions about teaching it This book covers the so called trial of the century telling the real story of a sham brought on by the ACLU to further their political and anti Christian goals
