Creation New Creation The Past Present And Future Of Gods Creative Activity:

New Creation in Paul's Letters and Thought Moyer V. Hubbard, 2002-07-11 As a biblical motif new creation resonates throughout the pages of the Jewish and Christian scriptures and occupies a central place in the apostle Paul's vision of the Christian life Yet the biblical and extra biblical occurrences of this theme vary widely in meaning referring to either a new cosmos a new community or a new individual Beginning with the Old Testament and working through the important texts of Second Temple Judaism Moyer V Hubbard focuses on how the motif functions in the argument strategy and literary structure of these documents highlighting its role as the solution to the perceived plight He then explores in detail which senses of the term Paul intends in Galatians 6:15 and 2 Corinthians 5:17 concluding that new creation in Paul's letters describes the Spirit wrought newness of the person in Christ and is fundamentally anthropological in orientation

The Travail of Nature H. Paul Santmire,1985-01-01 The Travail of Nature shows that the theological tradition in the West is neither ecologically bankrupt as some of its popular and scholarly critics have maintained nor replete with immediately accessible albeit long forgotten ecological riches hidden everywhere in its deeper vaults as some contemporary Christians who are profoundly troubled by the environmental crisis and other related concerns might wistfully hope to find This is why it is appropriate to speak of the ambiguous ecological promises of Christian theology

Torrance,2009-09-11 The Oxford Handbook of Systematic Theology brings together a set of original and authoritative accounts of all the major areas of current research in Christian systematic theology offering a thorough survey of the state of the discipline and of its prospects for those undertaking research and teaching in the field The Handbook engages in a comprehensive examination of themes and approaches guiding the reader through current debates and literatures in the context of the historical development of systematic theological reflection Organized thematically it treats in detail the full array of topics in systematic theology as well as questions of its sources and norms its relation to other theological and non theological fields of enquiry and some major trends in current work Each chapter provides an analysis of research and debate on its topic The focus is on doctrinal rather than historical questions and on major rather than ephemeral debates The aim is to stimulate readers to reach theological judgements on the basis of consideration of the range of opinion Drawn from Europe the UK and North America the authors are all leading practitioners of the discipline Readers will find expert guidance as well as creative suggestions about the future direction of the study of Christian doctrine Reflections on Grace Thomas A. Langford,2007-06-23 For about the last fifteen years of his life Thomas A Langford pondered how grace is central to Christian theology This book records his reflections and provides numerous gems of mature Christian insight From beginning to end the book is christologically focused Grace is not something that God gives us rather it is the way God gives us himself Grace is a person God present to human beings Grace is not a gift but rather a giver Grace is Jesus Christ The central contribution of this work is its personalization of grace its sharp focus on God present in Jesus Christ Because its focus on grace gives the reader such a clear and thematically developed entry point this work is a great introduction to theology and the life of the church the kind that pastors and parishioners would certainly benefit from confronting *Children of God in the World* Paul O'Callaghan,2016-10-14 Children of God in the World is a textbook of theological anthropology structured in four parts The first attempts to clarify the relationship between theology philosophy and science in their respective approaches to anthropology and establishes the fundamental principle of the text stated in Vatican II s Gaudium et spes n 22 Christ manifests man to man The second part provides a historical overview of the doctrine of grace in Scripture especially the teaching of the book of Genesis on humans made in the image of God as well as Paul and John among the Fathers in particular the oriental doctrine of divinization and Augustine during the Middle Ages especially Thomas Aquinas and the Reformation period centered particularly on Luther and the Council of Trent right up to modern times The third part of the text the central one provides a systematic understanding of Christian grace in terms of the God s life present in human believers by which they become children of God disciples friends and brothers of Christ temples of the Holy Spirit This section also provides a reflection on the theological virtues faith hope and charity on the relationship between grace and human freedom on the role of the Church and Christian apostolate in the communication of grace and on the need humans have for divine grace After considering the relationship between the natural and the supernatural order the fourth and last

part deals with different philosophical aspects of the human condition in the light of Christian faith the union between body and soul humans as free historical social sexual and working beings The last chapter concludes with a consideration of the human person Christianity's greatest and most enduring contribution to human thought

The Spirit, New Creation, and Christian Identity Grant Buchanan, 2024-12-26 This volume explores the significance of Christian identity in Galatians through a pneumatological lens illustrating how Paul built on his Judaic tradition to demonstrate the transformative Spirit and new creation through Christ

Biblical Theology of the Old and New Testaments Brevard S. Childs, 1993 This monumental work is the first comprehensive biblical theology to appear in many years and is the culmination of Brevard Child's lifelong commitment to constructing a biblical theology that surmounts objections to the discipline raised over the past generation Childs rejects any approaches that overstress either the continuity or discontinuity between the Old and New Testaments He refuses to follow the common pattern in Christian thought of identifying biblical theology with the New Testament's interest in the Old Rather Childs maps out an approach that reflects on the whole Christian Bible with its two very different voices each of which retains continuing integrity and is heard on its own terms

Vulnerable Communion Thomas E. Reynolds, 2008-04-01 As parents of a son with disabilities Thomas E Reynolds and his wife know what it's like to be misunderstood by a church community In *Vulnerable Communion* Reynolds draws upon that personal experience and a diverse body of literature to empower churches and individuals to foster deeper hospitality toward persons with disabilities Reynolds argues that the Christian story is one of strength coming from weakness of wholeness emerging from brokenness and of power in vulnerability He offers valuable biblical theological and pastoral tools to understand and welcome those with disabilities *Vulnerable Communion* will be a useful resource for any student theologian church leader or lay person seeking to discover the power of God revealed through weakness

A Christian Approach to Interdisciplinary Studies William Dennison, 2007-05-01 In an academic world that has rejected a Christian ontology metaphysic and epistemology as well as the secular foundationalism of modernity one is hard pressed to find any secular academician in the field of interdisciplinary studies IDS advocating a definitive starting point and methodology for IDS In *A Christian Approach to Interdisciplinary Studies* William D Dennison asks is such a study truly integrative that does not have an ontological integrative starting point and the constitutive component of method To put the question another way without the God of the Bible as the author of integration within creation can there truly be IDS Indeed Dennison calls for the integration of approach and method integration provided and modeled by the triune God of Scripture Adapted from the Preface
