Creation Compromises:

Creation Compromises Bert Thompson, 1995 Origins Larry Boohar, 2020-07-07 *Origins Speak to the Earth* is an anthology of scientific evidence supporting a creation global flood young earth worldview. It is written primarily for students as an alternative to the theory of evolution. God himself formed the earth and made it; he hath established it; he did not create it a waste place; he created it not in vain; he formed it to be inhabited. Isaiah 45:18 *Evidences for God and His Creations: Nature, the Flood, and the Bible* Dr. T. J. Tofflemire, 2011-07-21 This book provides summary apologetics from about 200 references. It is unique in that many authors with differing viewpoints are put together in brief key point summaries. Some of the books covered are 1100 pages long. The original authors' views are briefly integrated and compared. The different views of creation are also discussed and compared and given an open minded weighing. Are you concerned about the fact that 70% of our youth no longer attend church and do not have a biblical world view? The naturalistic or humanistic world view they adopt from schooling favors the following: 1. Man evolved from primates and is a biological machine with no purpose. 2. There is no source of true morals and thus morals are relative and determined by whatever a given group decides or whatever is most popular. 3. Since man is only an animal, there is no basis for individual human rights, only rights for the masses. There are some good arguments provided in the book to counter all of this and provide a biblical world view. These arguments are brief and easy to share in witnessing situations. *How Do We Know the Bible Is True Volume 2* Ken Ham, Bodie

Hodge, 2013-01-04 Unless otherwise noted, Scripture quotations are from the New King James Version of the Bible. T p verso

Darwin's Demise Nicholas Comninellis, Joe White, 2001-11-01 For people confused by the contradictory messages they hear from secular science and church teaching, evolution can be intimidating. The truth is that Darwin's ideas are based upon faulty science and that creationists have solid evidence to support their claims. Finally, a brilliant defense of Genesis and the Bible's teaching about origins is waiting for those who are soon to understand how Darwinism is fraudulent faith masquerading as science. Authors Joe White and Nicholas Comninellis have a passion for truth and for sharing it with students and their parents. In *Darwin's Demise*, they succeed in showing why real science is burning down the House of Darwin. Origins Ariel Adrean Roth, 1998 Are the worlds of science and religion irreconcilable? Has modern science with its theory of evolution disproved the biblical account of the origin of life? If one accepts the biblical account of origins, does one then have to reject science? Scientist and Christian believer Ariel A. Roth argues that taken together, science and religion give us a more complete and sensible understanding of the world around us, our place in it, and our ultimate meaning and fate. Roth examines such topics as the evidence for evolution and creation, the Flood, the strengths and limitations of the scientific method, and the reliability of Scripture. He concludes that the biblical model of a recent creation by God leaves fewer unanswered questions than either science's evolutionary model or any view between the two positions, such as progressive creation or theistic evolution.
