Key Writers on Photography Mark Durden,2013-02-15 A clear and concise survey of some of the most significant writers on photography who have played a major part in defining and influencing our understanding of the medium It provides a succinct overview of writing on photography from a diverse range of disciplines and perspectives and examines the shifting perception of the medium over the course of its 170 year history Key writers discussed include Roland Barthes Susan Sontag Jacques Derrida Henri Cartier Bresson Geoffrey Batchen Fully cross referenced and in an A Z format this is an accessible and engaging introductory guide     **Snapshot Stories** Erika Hanna,2020 Photographers often depict Ireland with bucolic rural

landscapes but during the twentieth century men and women across Ireland picked up cameras to create and curate photographs revealing more complex and diverse images of Ireland Snapshot Stories Uses diverse photographic archives both professional and personal to explore these stories     *Photography* Stephen Bull,2009-12-16 Photography explores the photograph in the twenty first century and its importance as a media form Stephen Bull considers our media saturated society and the place of photography in everyday life introducing the theories used to analyse photographs and exploring the

impact of digital technology The text is split into short accessible chapters on the broad themes central to the study and analysis of photography and key issues are explained and applied to visual examples in each chapter Topics covered include the identity of photography the meanings of photographs photography for sale snapshots the photograph as document photography as art photographs in fashion photography and celebrity Photography is an up to date clear and comprehensive introduction to debates about photography now and is particularly useful to media photography and visual culture students

**Art and Dance in Dialogue** Sarah Whatley, Imogen Racz, Katerina Paramana, Marie-Louise Crawley, 2020-11-07 This interdisciplinary book brings together essays that consider how the body enacts social and cultural rituals in relation to objects spaces and the everyday and how these are questioned explored and problematised through and translated into dance art and performance The chapters are written by significant artists and scholars and consider practices from various locations including Central and Western Europe Mexico and the United States The authors build on dialogues between for example philosophy and museum studies and memory studies and post humanism and engage with a wide range of theory from phenomenology to relational aesthetics to New Materialism Thus this book represents a unique collection that together considers the continuum between everyday and cultural life and how rituals and memories are inscribed onto our being It will be of interest to scholars and practitioners students and teachers and particularly those who are curious about the intersections between arts disciplines

**Forget Me Not** Geoffrey Batchen, 2006-08-03 Forget Me Not explores the relationship between photography and memory and shows how ordinary people have sought to strengthen the emotional appeal of photographs primarily by embellishing them to create strange and often beautiful hybrid objects

*Mark Kimber* Jim Moss, 2013-03 This book encapsulates the photographic career to date of Mark Kimber whose track record as an artist has its origins in the early 1980s when only one year after graduating from art school six of his prints were collected by the Art Gallery of South Australia Since that time his photographs have been collected nationally and internationally and his curriculum vitae is evidence of a rich photographic legacy spanning a fascinating time in the history of the medium The essay by Jim Moss that accompanies Mark Kimber's photographs relates episodes from Mark's youth and early adulthood drawing an animated profile of a complex and motivated individual As a photographic artist Kimber is able to reap the fields of his imagination that were sown in the western suburbs of Adelaide demographic aspects of which he has recreated with an uncanny crepuscular precision Other territories and citizens come under Mark's gaze and in more recent work he displays a proclivity for the creation of fictive worlds Jim Moss's essay also sketches in a sense of the critical and technological evolution that has permeated photographic discourse and practice in the years since Mark Kimber first peered through a viewfinder Throughout this period of change a sensibility that has remained constant at the heart of Mark's repertoire is his battle of wits with what has been described as the uncontrollable intrusion of reality that is intrinsic to the photograph The age of the photograph as a discreet object unto itself has passed but in the world of art the photographic image persists as an

intriguing and often complex document This book bears witness to an ongoing fascination with photography as a medium of creative expression while simultaneously it celebrates the contribution of Mark Kimber to photographic art

**Surrealism and Photography in Czechoslovakia** Krzysztof Fijalkowski, 2017-07-05 Surrealism and Photography in Czechoslovakia On the Needles of Days sheds much needed light on the location of the greatest concentration of Surrealist photography and examines the culture and tradition within which it has taken root and flourished The volume explores a rich and important artistic output very little of which has been seen outside of its land of origin Based on extensive research at museums in Prague and Brno and many conversations with participants in and historians of the movement Krzysztof Fijalkowski Michael Richardson and Ian Walker analyse how this photographic work has developed cohesively and rigorously from the beginnings of Czech Surrealism in 1934 to the intriguing researches of the present day Czech and Slovak Surrealist group by way of mysterious veiled responses to the repressive contexts with which they were faced from the 1950s to the 1980s The main chapters ordered chronologically are intersected with shorter texts examining specific works The reader will find in this volume images that present challenges to our understanding of how photographic work has been used within surrealism pinpointing individual pictures whose dynamic charge may induce instants of compelling interrogation and disruption

**Photography Theory** James Elkins, 2013-10-18 Photography Theory presents forty of the world's most active art historians and theorists including Victor Burgin Joel Snyder Rosalind Krauss Alan Trachtenberg Geoffrey Batchen Carol Squiers Margaret Iversen and Abigail Solomon Godeau in animated debate on the nature of photography Photography has been around for nearly two centuries but we are no closer to understanding what it is For some people a photograph is an optically accurate impression of the world for others it is mainly a way of remembering people and places Some view it as a sign of bourgeois life a kind of addiction of the middle class whilst others see it as a troublesome interloper that has confused people's ideas of reality and fine art to the point that they have difficulty even defining what a photograph is For some the whole question of finding photography's nature is itself misguided from the beginning This provocative second volume in the Routledge The Art Seminar series presents not one but many answers to the question what makes a photograph a photograph

**On Perfection** Jo Longhurst, 2013-01-01 Based on a 2012 symposium on Perfection held at the Whitechapel Gallery in East London this book explores the ways in which artists engage with ideas of perfection drawing on screenings performances and discussions The symposium featured the work of an eclectic group of artists and writers who use photographic lenses of many kinds to create works that engage with or disrupt ideas of perfection Framed from an artist's perspective and spanning a diverse range of artworks that question how these ideas shape our personal identities and our social and political systems On Perfection considers the multifaceted nature of lens based practices

**What Photography Is** James Elkins, 2011-04-26 In What Photography Is James Elkins examines the strange and alluring power of photography in the same provocative and evocative manner as he explored oil painting in his best selling What

Painting Is In the course of an extended imaginary dialogue with Roland Barthes's *Camera Lucida* Elkins argues that photography is also about meaninglessness its apparently endless capacity to show us things that we do not want or need to see and also about pain because extremely powerful images can sear permanently into our consciousness Extensively illustrated with a surprising range of images the book demonstrates that what makes photography uniquely powerful is its ability to express the difficulty physical psychological emotional and aesthetic of the act of seeing

**A Companion to Photography** Stephen Bull, 2020-03-16 The study of photography has never been more important A look at today's digital world reveals that a greater number of photographs are being taken each day than at any other moment in history Countless photographs are disseminated instantly online and more and more photographic images are earning prominent positions and garnering record prices in the rarefied realm of top art galleries Reflecting this dramatic increase in all things photographic *A Companion to Photography* presents a comprehensive collection of original essays that explore a variety of key areas of current debate around the state of photography in the twenty first century Essays are grouped and organized in themed sections including photographic interpretation markets popular photography documents and fine art and provide comprehensive coverage of the subject Representing a diversity of approaches essays are written by both established and emerging photographers and scholars as well as various experts in their respective areas *A Companion to Photography* offers scholars and professional photographers alike an essential and up to date resource that brings the study of contemporary photography into clear focus

*Disillusioned* Jordan Bear, 2015-02-16 How do photographs compel belief and endow knowledge To understand the impact of photography in a given era we must study the adjacent forms of visual persuasion with which photographs compete and collaborate In photography's early days magic shows scientific demonstrations and philosophical games repeatedly put the visual credulity of the modern public to the test in ways that shaped and were shaped by the reality claims of photography These venues invited viewers to judge the reliability of their own visual experiences Photography resided at the center of a constellation of places and practices in which the task of visual discernment of telling the real from the constructed became an increasingly crucial element of one's location in cultural political and social relations In *Disillusioned* Victorian Photography and the Discerning Subject Jordan Bear tells the story of how photographic trickery in the 1850s and 1860s participated in the fashioning of the modern subject By locating specific mechanisms of photographic deception employed by the leading mid century photographers within this capacious culture of discernment *Disillusioned* integrates some of the most striking and puzzling images of the Victorian period into a new and expansive interpretive framework

**The British National Bibliography** Arthur James Wells, 2000

**City Gorged with Dreams** Ian Walker, 2002 The author analyses how the Surrealists utilised the tactics of documentary and how Surrealist ideas in turn influenced the development of documentary photography This is a study of what Louis Aragon called surrealist realism the exploration of the real life surreality of the city
