The Gender Imperative Betty A. Reardon, Asha Hans, 2012-12-06 The book asserts that human security derives from the experience and expectation of human well being which depends on four essential conditions a life sustaining environment the meeting of essential physical needs respect for the identity and dignity of persons and groups protection from avoidable harm and expectations of remedy from them The book demonstrates their integral relationship to human security Patriarchy being the germinal paradigm from which most major human institutions such as the state the economy organised religions and social relations have evolved the book argues that fundamental inequalities must be challenged for the sake of equality and security The fundamental point raised is that expectation of human well being is a continuing cause of armed conflict which constitutes a threat to peace and survival of all humanity and human security cannot exist within a militarised security system The editors of the book bring together 14 essays which critically examine militarised security in order to find human security pathways show ways in which to refute the dominant paradigm indicate a clear gender analysis that challenges the current system and suggests alternatives to militarised security With a mix of female and male feminist scholar activists as contributors the book makes an important contribution to a new discourse on human security

P. Wong,2008 In this new volume death is treated both as a threat to meaning and as an opportunity to create meaning Feminist Mysticism and Images of God Jennie S Knight,2011-02-28 Feminist theologians often claim that women s experience is their starting point However most feminist theology is remarkably void of analysis of particular women s experiences of imaging God In this book Knight provides practical recommendations to help people transform images in the context of religious practices What difference does it make whether we picture God as an elderly white grandfather a nurturing African American

mother or a stranger on the bus Jennie Knight says our image of God affects how we see ourselves how we worship how we treat one another how or whether we work for justice and a host of other life practices But after years of knowing intellectually that God transcends a specific human type Knight still struggles to make an emotional connection with God in different forms She suspects that that struggle is why many seminarians who wrote papers about thea theology abandon nontraditional God images once they hit parish ministry perpetuating the practice of seeing God as a European male on a throne and all the accompanying problems that such imagery creates Knight believes that personal and critical reflection in the context of a supportive learning community combined with experiences of diverse images for the divine in worship can lead to profound changes in self image relationship with the divine and agency in the world This book aims to demonstrate why and how this transformation is both possible and necessary The popularity of *The Shack* *The Secret Life of Bees* *Joan of Arcadia* and other works with nontraditional God figures reveals a culture ready to embrace God in many forms Knight examines how the church can do the same
