Bones Of Contention A Creationist Assessment Of The Human Fossils:

Bones of Contention Marvin L. Lubenow, 2004-10-01 Seeking to disprove the theory of human evolution the author examines the fossils of the so called ape men *Bones of Contention* Marvin L. Lubenow, 1992 **Bones of Contention** Marvin L. Lubenow, 2004-10 While evolutionists point to every new discovery of humanlike fossils as further evidence to support the theory that people evolved from apelike creatures Marvin L Lubenow contends that the fossils do more to disprove evolutionary theory than otherwise In *Bones of Contention* Lubenow offers readers of all backgrounds a readable argument for the creationist view of the origins of humankind that addresses all angles of the issue In this new edition Lubenow has thoroughly updated and revised his original material to reflect a dozen years of evolutionist theory and modern paleoanthropology Scholars and laypeople alike will find solid answers grounded in research to all of their tough questions

EVOLUTION: A Grand Monument to Human Stupidity Daniel Jappah, 2007-09-01 The theory of evolution has changed so much claiming that humans are closely related genetically to chimps mice donkeys and even fish that the theory is now a blurred mess masquerading as a scientific fact It s a theory built on countless speculations scientific fraud and multiple conflicting theories Garnering the evidence from biology chemistry genetics geology history paleontology and physics evolution is exposed as a racist philosophy and a false science that provided the scientific justification for the Holocaust and other genocides including the plot to silently exterminate American minorities through abortion and birth control The evidence for evolution is examined in the light of genuine science You may not like what you read but you can t argue with the facts **Evolution** Christopher H. K. Persaud, 2007-12 Darwinian evolution is taught unreservedly to students of science around the world as incontrovertible truth even though many aspects of the theory have been thoroughly discredited while others are woefully lacking in corroboration from a standpoint of proper scientific precept and practice Practical and honest scientists increasingly are acknowledging that evolutionism is biologically and mathematically impossible The outlandish premise is at odds with the laws of physics and manifestly incompatible with genuine geological and paleontological criteria for aging and classifying rocks strata and fossils Evolutionary theory s ostracism of God as a supreme designer and creator of the universe and of life has emboldened many of history s most ruthless dictators who have embraced its disturbing message to commit crimes of unspeakable evil Many millions of people have lost their lives as demagogues fueled by evolutionist inclinations have sought to legitimize sinister proclivities such as racism bigotry eugenics and ethnic cleansing among other perpetrations of antipathy and wickedness It is not unreasonable to assume that many of today s social and behavioral thinkers as well as misguided scientists who support evolutionary theory also nurture predilections that are far removed from wholesome deportment and espouse leanings that show scant respect for the sanctity of human life Evolutionary thought falls outside the precincts of essential moral contemplation and is beyond the realm of real science **The Mysterious Origins of Hybrid Man** Susan B. Martinez, 2013-11-02 A provocative challenge to Darwin

s theory of evolution Shows there is no missing link because the human race since day one is the result of outright interbreeding among highly diverse types Reveals multiple Gardens of Eden and how each continent has its own independent hominid lineages Explains Homo sapiens mental powers the Great Leap Forward and how we acquired the blood of the gods which endowed us with a soul Did we evolve from apes or are we all descendants of Adam and Eve Why is the missing link still missing Is the dumb luck of natural selection valid Piecing together the protohistory of humanity through anthropology genetics paleolinguistics and indigenous traditions Susan B Martinez offers an entirely original alternative to Darwin s evolution Modern humanity did not evolve but is a mosaic of mixed ancestry the result of eons of cross breeding and retro breeding among different groups including Cro Magnon Neanderthal hobbits giants and Africa s Lucy and Zinj Martinez shows that there were multiple Gardens of Eden and how each continent had its own blend of races prior to the Great Flood which caused the diaspora that brought a renaissance of culture to every division of the Earth Martinez explains Homo sapiens mental powers the Great Leap Forward in cosmological terms how we are the product of both heaven and earth She identifies the Sons of Heaven and the angel engendered races explaining how Homo sapiens acquired the blood of the gods which endowed us with a soul Providing the ultimate resolution to the Evolution versus Creationism debate this landmark study of hybrid man justifies his unexpectedly sudden appearance in the fossil record the curious parallels between oral histories of the world s people and why anatomically modern features are found in the earliest paleontological evidence

Yeshua, the Crucified Serpent Rowland Stenrud, 2012-11 It was the atheist Jean Paul Sartre who once said that Hell is other people Rowland Stenrud s Yeshua the Crucified Serpent is about how mankind s savior Jesus of Nazareth has saved men and women from this hell by making it possible and indeed inevitable for human beings to love one another and their Creator Father Yahweh God This book is about the concept and practice of human and divine love The words of Paul in 1 Corinthians 13 1 13 the Bible as a whole and the reader s life experience will help in defining this The author reviews what he knows about the concept and its related precepts and brings them to bear in this book God himself is love which should tell us how mysterious a thing love is To acquire this ability to love one must suffer in union with the suffering Christ Salvation pure and simple is God delivering each one from the inability to love other human beings and the Creator Himself The obstacle to this perfect love is the serpent of human wisdom and pride that existed even in Jesus In his loving obedience to the Father Jesus nailed this serpent to the cross Yeshua the Crucified Serpent attempts to show that the question of evil and suffering in the world is answered by Yahweh s eventual success in saving all of mankind The majority of Christians believe in a number of key doctrines that the biblical authors do not unequivocally teach A few verses may support these unbiblical doctrines but a greater number of verses whose meaning is clearer contradict the standard interpretation of these few verses Other doctrines that Christians mistakenly believe in find support in this or that section of the Bible but are denied by the general thrust of the Bible as a whole These unbiblical doctrines followed by the correct biblical teaching are 1

Sometime in the distant past a large number of God's angels rebelled against Him becoming what are called devils or demons whose leader is known as Satan or Lucifer The Bible teaches that the only agent of evil in the universe is man's heart 2 Adam and Eve possessed the perfection of Jesus Christ before they sinned If they had not sinned they would not have needed to be healed of any weakness The Bible teaches that Adam and Eve could not have had eternal life even before they sinned without the work of Jesus of Nazareth 3 Faith is an act of the free will of man The Bible teaches that faith does involve man putting his trust in God's promises and revelation but it is primarily a power given to man by God in order to enable him to see spiritual truth the natural man cannot see Without this gift of the Holy Spirit no human being can know God and be saved 4 Ultimately speaking we are saved by our faith On the contrary it is through Jesus's faith in and love for the Father that is the instrument of our salvation 5 Jesus saved us by paying the penalty due our sins and therefore saving us from the just wrath of God This is false No one had to pay any penalty for God to forgive the sins of the human race God relates to sinners on the basis of mercy and mercy is not mercy if the penalty for sin is paid By going to the cross Jesus healed our brokenness which forgiveness alone could not accomplish 6 Satan and the sins of men are ultimately responsible for human suffering False God is ultimately responsible for human suffering as it is a necessary part of God's work of saving human beings God Himself shares in all of our suffering physical emotional and spiritual even though He does not have a body or nervous system 7 Salvation is about our eternal destiny This is not correct Salvation is about being saved from the idolatries addictions corruption hatreds evil deeds that afflict the unsav

Science and Christianity in Pulpit and Pew Ronald L. Numbers, 2007-09-10 As past president of both the History of Science Society and the American Society of

Church History Ronald L Numbers is uniquely qualified to assess the historical relations between science and Christianity In this collection of his most recent essays he moves beyond the clichés of conflict and harmony to explore the tangled web of historical interactions involving scientific and religious beliefs In his lead essay he offers an unprecedented overview of the history of science and Christianity from the perspective of the ordinary people who filled the pews of churches or loitered around outside Unlike the elite scientists and theologians on whom most historians have focused these vulgar Christians cared little about the discoveries of Copernicus Newton and Einstein Instead they worried about the causes of the diseases and disasters that directly affected their lives and about scientists preposterous attempts to trace human ancestry back to apes Far from dismissing opinion makers in the pulpit Numbers closely looks at two the most influential Protestant theologians in nineteenth century America Charles Hodge and William Henry Green Hodge after decades of struggling to harmonize God's two revelations in nature and in the Bible in the end famously described Darwinism as atheism Green on the basis of his careful biblical studies concluded that Ussher's chronology was unreliable thus opening the door for Christian anthropologists to accommodate the subsequent discovery of human antiquity In *Science without God* Numbers traces the millennia long history of so called methodological naturalism the commitment to explaining the natural world without appeals to the supernatural By the early nineteenth century this practice was becoming the defining characteristic of science in the late twentieth century it became the central point of attack in the audacious attempt of intelligent designers to redefine science Numbers ends his reassessment by arguing that although science has markedly changed the world we live in it has contributed less to secularizing it than many have claimed Taken together these accessible and authoritative essays form a perfect introduction to Christian attitudes towards science since the 17th century

CONTENDING FOR THE FAITH

Christopher H.K. Persaud, 2013-05-21 Doubt and disbelief in God's existence and his plan of redemption for lost humankind is becoming increasingly evident in today's hedonistic self directed world Many Christian believers even choose to listen to and to acknowledge a feel good now Gospel notwithstanding its deviation from Biblical truth and its possible damning implications Conversely many people are wont to deny the existence of a devil and the reality of a place of unceasing torment and or destruction called hell A good God cannot be so cruel they opine Jesus commissioned his followers to take his Gospel to the far reaches of the Earth and the Holy Scriptures encourage Christians in Jude 1-3 to earnestly contend for the faith More than at any other time in history believers must defend the Christian Gospel and advocate its timeless truths everywhere so that all of humankind may hear about Christ's offer of eternal life in a place named Paradise The miscellany of contemplative inquiries and arguments presented in *CONTENDING FOR THE FAITH* purposes to do just that endorse and advance the Gospel of Christ and help establish Biblical truth Much too much is at stake for not spreading or not listening to Christ's entreaty

spiritual discipline required for watching movies **Has God Spoken?** Hank Hanegraaff, 2011-08-29 Are Christians Guilty of Blind Faith or Is The Bible Really God's Inspired Word Can You Ever Know For Sure Join best selling author Hank Hanegraaff for a stirring defense of the Bible as the Word of God and your only reliable foundation for life In answering the riveting question Has God spoken Hanegraaff uses manuscript evidence archeology predictive prophecy and much more to memorably demonstrate that the Bible is divine rather than merely human in origin Hanegraaff demolishes modern objections to Scripture such as There are more mistakes in manuscript copies of the Bible than there are words in the New Testament The biblical account of King David is no more factual than tales of King Arthur there simply is no evidence in archeology or history for Israel's quintessential king Contemporary prophets are proven 100 percent wrong 100 percent of the time and biblical prophets are just as unreliable Has God Spoken joins its predecessors The Face That Demonstrates the Farce of Evolution and Resurrection as Hanegraaff's final book in a trilogy that provides complete and compelling answers to the most critical issues facing Christians today **Origins** Ariel Adrean Roth, 1998 Are the worlds of science and religion irreconcilable Has modern science with its theory of evolution disproved the biblical account of the origin of life If one accepts the biblical account of origins does one then have to reject science Scientist and Christian believer Ariel A Roth argues that taken together science and religion give us a more complete and sensible understanding of the world around us our place in it and our ultimate meaning and fate Roth examines such topics as the evidence for evolution and creation the Flood the strengths and limitations of the scientific method and the reliability of Scripture He concludes that the biblical model of a recent creation by God leaves fewer unanswered questions than either science's evolutionary model or any view between the two positions such as progressive creation or theistic evolution Back cover *The Stranger on the Road to Emmaus* John R. Cross, Here is a book that explains the greatest of Bible themes clearly and logically **Monkey to Man** Gowan Dawson, 2024-02-27 The first book to examine the iconic depiction of evolution the march of progress and its role in shaping our understanding of how humans evolved We are all familiar with the march of progress the representation of evolution that depicts a series of apelike creatures becoming progressively taller and more erect before finally reaching the upright human form Its emphasis on linear progress has had a decisive impact on public understanding of evolution yet the image contradicts modern scientific conceptions of evolution as complex and branching This book is the first to examine the origins and history of this ubiquitous and hugely consequential illustration In a story spanning more than a century from Victorian Britain to America in the Space Age Gowan Dawson traces the interconnected histories of the two most important versions of the image the frontispiece to Thomas Henry Huxley's *Evidence as to Man's Place in Nature* 1863 and *The Road to Homo Sapiens* a fold out illustration in the best selling book *Early Man* 1965 Dawson explores how the recurring appearances of this image pointed to shifting scientific and public perspectives on human evolution as well as indicated novel artistic approaches and advancements in technology **na** , Creation of Universe God or Big Bang Keerthi Kumar

Cross,2014-04-18 The Prophets have spoken It is wise to know what they said It s a fascinating story a story you really must know for yourself History is strewn with wars and scrapping over religion With the advent of the global village people of different beliefs are being pressed up against each other and the potential for major conflict is enormous It behooves us to know what our neighbours believe and why they believe it Though we may never agree with them when we know what people believe at the very least we can intelligently disagree without being disagreeable All that the Prophets have Spoken is about the most widely distributed and most vehemently disputed book in history the Bible If you are one of those who seriously wants to understand the message of the Prophets then this book is for you **Creation Rediscovered** Gerard J. Keane,1998-10 The author covers the basic question the two basic Evolution theories the concept of Special Creation the discoveries of science the fossil record genetics entropy the age of the universe pointers to a Creator and a number of other questions Not enough can be said for the importance of this book to get the fundamentals right regarding our Origins in order that the rest of our thought and all our actions are based upon the truth
