Sterling A. Brown's A Negro Looks at the South

John Edgar Tidwell, Mark A. Sanders, 2007-02-03 Using oral history and the printed word Sterling A Brown set out during the Second World War to capture the response of African Americans primarily living in the South to America's involvement in the war and how it affected them These responses brought together in extended non-fiction essays of many different types illustrate the diversity of opinions in the Black South about the war and the war period in America For nearly sixty years the excerpts that were never published languished in Brown's manuscript collection at Howard University Now for the first time all of the completed pieces of unpublished writings are combined with the few published sections into the book that Brown envisioned The legacy Brown left us is not only a superb portrait of the way in which African Americans of the mid-century talked and lived he also provided a methodology that oral and written historians will find extremely useful This is clearly a document from another time as its now outdated title reminds us but it reveals a world that still informs our sense of ourselves as a nation In fact it is an unforgettable history which Brown has cast in a bright elucidating new light Forty Million Dollar Slaves William C. Rhoden, 2010-02-10 NEW YORK TIMES BESTSELLER An explosive and absorbing discussion of race politics and the history of American sports Ebony From Jackie Robinson to Muhammad Ali and Arthur Ashe African American athletes have been at the center of modern culture their on the field heroics admired and stratospheric earnings envied But for all their money fame and achievement says New York Times columnist William C Rhoden black athletes still find themselves on the periphery of true power in the multibillion dollar industry their talent built Provocative and controversial Rhoden's 40 Million Slaves weaves a compelling narrative of black athletes in the United States from the plantation to their beginnings in nineteenth-century boxing rings to the history-making accomplishments of notable figures such as Jesse Owens Althea Gibson and Willie Mays Rhoden reveals that black athletes' evolution has merely been a journey from literal plantations where sports were introduced as diversions to quell revolutionary stirrings to today's figurative ones in the form of collegiate and professional sports programs He details the conveyor belt that brings kids from inner cities and small towns to big-time programs where they're cut off from their roots and exploited by team owners sports agents and the media He also sets his sights on athletes like Michael Jordan who he says have abdicated their responsibility to the community with an apathy that borders on treason The power black athletes have today is as limited as when masters forced their slaves to race and fight The primary difference is today's shackles are invisible Praise for Forty Million Dollar Slaves A provocative passionate important and disturbing book The New York Times Book Review Brilliant a beautifully written complex and rich narrative Washington Post Book World A powerful call for more black athletes to give back to their communities Los Angeles Times **The Oxford Companion to Twentieth-century Literature in English** Jenny Stringer, 1996 Survey of twentieth-century English language writers and writing from around the world celebrating all major genres with entries on literary movements periodicals more than 400 individual works and articles on approximately 2,400 authors **Richard Wright and Transnationalism** Mamoun Alzoubi, 2018-09-14 Richard Wright and Transnationalism
