The Power of Glamour Virginia Postrel, 2013-11-05 An exploration of glamour a potent cultural force that influences where people choose to live which careers to pursue where to invest and how to vote offers empowerment to be smarter about engaging with the world

Auto Mania Tom McCarthy, 2007-01-01 The twentieth century American experience with the automobile has much to tell us about the relationship between consumer capitalism and the environment Tom McCarthy contends In Auto Mania he presents the first environmental history of the automobile that shows how consumer desire and manufacturer decisions created impacts across the product lifecycle from raw material extraction to manufacturing to consumer use to disposal From the provocative public antics of young millionaires who owned the first cars early in the twentieth century to the SUV craze of the 1990s Auto Mania explores developments that touched the environment Along the way McCarthy examines how Henry Ford s fetish for waste reduction tempered the environmental impacts of Model T mass production how Elvis Presley s widely shared postwar desire for Cadillacs made matters worse how the 1970s energy crisis hurt small cars and why baby boomers ignored worries about global warming McCarthy shows that problems were recognized early The difficulty was addressing them a matter less of doing scientific research and educating the public than implementing solutions through America s market economy and democratic government Consumer and producer interests have rarely aligned in helpful ways and automakers and consumers have made powerful opponents of regulation The result has been a mixed record of environmental reform with troubling prospects for the future Faster, Smarter, Greener

Venkat Sumantran, Charles Fine, David Gonsalvez, 2018-09-11 A call to redefine mobility so that it is connected heterogeneous intelligent and personalized as well as sustainable adaptable and city friendly The twentieth century was the century of the automobile the twenty first will see mobility dramatically re envisioned Automobiles altered cityscapes boosted economies and made personal mobility efficient and convenient for many We had a century long love affair with the car But today people are more attached to their smartphones than their cars Cars are not always the quickest mode of travel in cities and emissions from the rapidly growing number of cars threaten the planet This book by three experts from industry and academia envisions a new world of mobility that is connected heterogeneous intelligent and personalized the CHIP architecture The authors describe the changes that are coming City administrators are shifting from designing cities for cars to designing cities for people Nations and cities will increasingly employ targeted user fees and offer subsidies to nudge consumers toward more sustainable modes The sharing economy is coaxing many consumers to shift from being owners of assets to being users of services The auto industry is responding with connected cars that double as virtual travel assistants and by introducing autonomous driving The CHIP architecture embodies an integrated multimode mobility

system that builds on ubiquitous connectivity electrified and autonomous vehicles and a marketplace open to innovation and entrepreneurship Consumers will exercise choice on the basis of user experience and efficiency aided by intelligent advisors accessible through their mobile devices An innovative mobility architecture reconfigured for this century is a social and economic necessity this book charts a course for achieving it

Glamour Stephen Gundle, 2009-07-16 Glamour is one of the most tantalizing and bewitching aspects of contemporary culture but also one of the most elusive The aura of celebrity the style of the fashion world the vanity of the rich and beautiful and the publicity driven rites of café society are all imbued with its irresistible magnetism But what exactly is glamour Where does it come from How old is it And can anyone quite capture its magic Stephen Gundle answers all these questions and more in this first ever history of the phenomenon from Paris in the tumultuous final decades of the eighteenth century through to Hollywood New York and Monte Carlo in the twentieth and twenty first centuries from Napoleon to Marlene Dietrich and Marilyn Monroe from Beau Brummell to Gianni Versace Throughout the book captures the excitement and sex appeal of glamour while exposing its mechanisms and exploring its sleazy and sometimes tragic underside As Gundle shows while glamour is exciting and magnetic its promise is ultimately an illusion that can only ever be partially fulfilled
