A Guide to Sky Monsters T. S. Mart,Mel Cabre,2021-05-25 When a dark shadow passes overhead do you stop Or do you run Infamous sky monsters have haunted our imaginations for centuries The Thunderbird steeped in Native American folklore supposedly controls evil by throwing lightning The Jersey Devil is said to roam the Pine Barrens of South Jersey terrorizing anyone who crosses its path And the cryptic warnings of Mothman have worried residents of Point Pleasant West Virginia since the 1960s In A Guide to Sky Monsters Thunderbirds the Jersey Devil Mothman and Other Flying Cryptids authors T S Mart and Mel Cabre introduce 20 flying cryptids with legends that span the United States With 70 hand drawn illustrations A Guide to Sky Monsters details our fascination with these creatures and describes both historical evidence found in the fossil record and the specifics of modern day sightings By studying the fact fiction and pop culture surrounding these notorious beasts Mart and Cabre help us lean into the question What if A Guide to Sky Monsters perfect for the believer and skeptic alike addresses the wider truths about flying cryptids and leaves us all to wonder whether that breeze was the wind or a wing

Women and the Historical Enterprise in America: Gender, Race and the Politics of Memory Julie Des Jardins,2004-07-21 In Women and the Historical Enterprise in America Julie Des Jardins explores American women s participation in the practice of history from the late nineteenth century through the end of World War II a period in which history became professionalized as an increasingly masculine field of scientific inquiry Des Jardins shows how women nevertheless transformed the profession during these years in their roles as writers preservationists educators archivists government workers and social activists Des Jardins explores the work of a wide variety of women historians both professional and amateur popular and scholarly conservative and radical white and nonwhite Although their ability to earn professional credentials and gain research access to official documents was limited by their gender and often by their race these historians addressed important new questions and represented social groups traditionally omitted from the historical record such as workers African Americans Native Americans and religious minorities Assessing the historical contributions of Mary Beard Zora Neale Hurston Angie Debo Mari Sandoz Lucy Salmon Mary McLeod Bethune Dorothy Porter Nellie Neilson and many others Des Jardins argues that women working within the broadest confines of the historical enterprise collectively brought the new perspectives of social and cultural history to the study of a multifaceted American past In the process they not only developed the field of women s history but also influenced the creation of our national memory in the twentieth century

The Hero in History Sidney Hook, The interaction of the individual in history and politics has posed major theoretical questions of historical analysis for the past two centuries is social destiny shaped by forces beyond the power of the individual or can the future be mastered by collective effort under the outstanding leadership of heroic men and women In this classic study a major philosopher and social theorist of the twentieth century offers a searching examination of the

conditions under which individuals make choices that significantly alter the course of historical events and presents a scathing critique of various forms of social determinism that deny the individual freedom of action or a decisive role in history. The myth of the hero as the savior of the tribe or nation as Hook notes is older than written history. Until the nineteenth century the hero functioned not merely as a cult figure but as a principle of historical explanation, a key to the rise and fall of countries and even of cultures. The exaggerations and omissions of this point of view produced an equally simplistic reaction with the formulation of determinist historiographies in which physical, racial, social and economic forces replaced individuals as the dynamic factors in the development of events. Hook singles out orthodox Marxism as the most all-encompassing determinist system and subjects the historical thinking of Engels, Plekhanov and Trotsky to sharp and meticulous scrutiny. Using the Russian Revolution as a test case, Hook observes that while the February 1917 Revolution was an inevitable development, the October revolution was according to the best historical evidence contingent upon the personality and actions of Lenin. In his 1978 reconsideration of the subject of heroism appearing new to this edition, Hook defines a middle ground between the extremes of voluntarism and determinism that explains why the presence of strong personalities are decisive under certain conditions while under others key actors would appear to be almost interchangeable. He points us toward an understanding of a fascinating problem in history and raises essential questions about the role of great men and women in a democracy. *The Hero in History* will be of interest to intellectual historians, philosophers, political scientists and sociologists. The SAR Magazine Sons of the American Revolution, 1998 The Individual in African History, 2020-03-31. This volume investigates the development of biographical study in African history and historiography. Consisting of 10 case studies, it is preceded by an introductory prologue which deals with the relationship between historiography and different forms of biographical study in the context of Western history writing but especially African historical and anthropological studies. The first three case studies deal with the methodological insights of biographical studies for African history. This is followed by three case studies dealing with personas living through fundamental societal transitions and four case studies focusing on the discursive dimensions of biographical subjects including religion, cosmology and ideology. Countries or regions discussed include South Africa, Zambia, Gold Coast, Cameroon, Tanganyika, Congo, Kinshasa and the Central African Republic in colonial times. Contributors are Lindie Koorts, Elena Moore, Iva Pe, a Paul Glen Grant, Jacqueline de Vries, Duncan Money, Morgan Robinson, Eve Wong, Klaas van Walraven, Erik Kennes. **Our Church Life**, 1897.

The First Hindu Mission to America Sunrit Mullick, 2010 This book positions Brahmo Samaj leader Protap Chunder Mozoomdar as the originator of the Hindu mission movement to the United States of America in the late 19th century It is known that Protap Mozoomdar together with Swami Vivekananda represented Hinduism at the Parliament of Religions at Chicago in 1893 But what has missed the focus of scholars is that Mozoomdar visited the United States ten years earlier in 1883 making him the pioneer of the Hindu mission movement to the United States The book is the first detailed study of Protap Chunder Mozoomdar in America It is written through primary research on American newspapers periodicals manuscripts diaries and archival material available in American libraries and material

in possession of the author On the whole the book presents new information of interest to both the general reader and the scholarly community *The Hall of Fame for Great Americans* Sheila Gerami, 2024-06-14 The Hall of Fame for Great Americans provides a window into the cultural changes taking place in the United States from the turn of the twentieth century into the twenty first This book is the first examination of the institutional and social history of America s first hall of fame from its dynamic opening in 1901 through its protracted decline in the late twentieth century and its brief return to relevancy in the early twenty first century It also examines in depth what is arguably the least studied project of Stanford White one of the most distinguished architects of the Gilded Age Originally designed for New York University s new campus in the Bronx the Hall of Fame once housed ninety eight bronze busts of men and women deemed great Americans within its elegant colonnade including the likes of George Washington Nathaniel Hawthorne Booker T Washington Susan B Anthony and Robert E Lee The Hall was conceived when the Great Man theory dominated American thought However as times changed challenges to ideas concerning greatness and heroism grew and heroes once celebrated were scrutinized for their flaws The monument is now a shell of its former glory and largely forgotten and the NYU campus that once housed the colonnade was eventually sold to Bronx Community College In 2017 following the violent demonstrations in Charlottesville Virginia by white supremacists attempting to prevent the removal of a monument to General Lee Andrew Cuomo then governor of New York thrust the Hall of Fame back into the limelight by ordering the busts of Lee and Stonewall Jackson to be removed This action joined a national trend to remove monuments deemed offensive Gerami argues that the rise and fall of this institution mirrors the nation s changing conception of what comprises a hero This biography of a public art memorial answers questions about the importance of art history and the cultural evolution of what it means to be great in America
