Of The Subgenius:

Book of the Subgenius Subgenius Foundation, 2009-11-24 Either a hilarious parody of a religious text or an informative collection of totally real stories from a definitely real church that could be the foundation stone of the promised kingdom of peace and harmony the decision is yours to make What is the Church of SubGenius Who is J R Bob Dobbs and what kind of truths does he know What is Slack and why do you need it Will aliens truly descend upon our planet and can you survive its destruction by becoming a member Does The Book of SubGenius answer any of these questions There are no straightfoward answers you just have to read it yourself *Invented Religions* Carole M. Cusack, 2016-05-06 Utilizing contemporary scholarship on secularization individualism and consumer capitalism this book explores religious movements founded in the West which are intentionally fictional Discordianism the Church of All Worlds the Church of the SubGenius and Jediism Their continued appeal and success principally in America but gaining wider audience through the 1980s and 1990s is chiefly as a result of underground publishing and the internet This book deals with immensely popular subject matter Jediism developed from George Lucas Star Wars films the Church of the Flying Spaghetti Monster founded by 26 year old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students The Church of All Worlds focus on Gaia theology and environmental issues makes it a popular focus of attention The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late post modern religious forms including the use of fiction as part of a bricolage for spirituality identity formation and personal orientation **A Paranormal History Guide** TJ Morris, 2012-09-13 paranormal spirituality and the history of our Alien ET UFO Community of those who became UFOlogists This is some of the history that TJ Morris uses on the nightly blogtalkradio com TJMorrisETradio Good reading about the past and the future while learning about the global brain ways we share in our social networking similar interest groups TJ has the Alien Contact Investigations Researchers Group and the website called AlienETUFO org *Making Sense of Marshall Ledbetter* Daniel M. Harrison, 2014-11-11 Armed with an empty whiskey bottle and wearing a tie dyed Jimi Hendrix T shirt Florida State University dropout Marshall Ledbetter broke into the Florida State Capitol early one morning in June 1991 He occupied the Sergeant of Arms suite demanding an extra large Gumby s pizza and 666 donuts for the cops waiting outside He hoped to garner media attention for his protest of poverty homelessness and cuts to higher education After an eight hour standoff Ledbetter was betrayed by the very media he had counted on to tell his story his demands were not broadcast on CNN as he had been promised but streamed into the office on closed circuit TV Although he left the building peacefully the ensuing trial his trips in and out of the state s mental health institutions over the following decade and his eventual suicide in 2003 speak to how difficult it is to untangle addiction isolation brilliance and deviance Ledbetter s invasion of the Capitol remains the biggest security breach of the building s history but Daniel Harrison s telling of the

Ledbetter saga is about more than one misguided young man's breaking and entering into the state's most secure building. Making Sense of Marshall Ledbetter thoughtfully and honestly explores the ways society manages deviant people in real world situations and whether or not our law enforcement and justice systems are adequately equipped to handle mental illness. *Pranksters* Kembrew McLeod, 2014-04-01 From Benjamin Franklin's newspaper hoax that faked the death of his rival to Abbie Hoffman's attempt to levitate the Pentagon, pranksters, hoaxers, and con artists have caused confusion, disorder, and laughter in Western society for centuries. Profiling the most notorious mischief makers from the 1600s to the present day, *Pranksters* explores how pranks are part of a long tradition of speaking truth to power and social critique. Invoking such historical and contemporary figures as P. T. Barnum, Jonathan Swift, WITCH, The Yes Men, and Stephen Colbert, Kembrew McLeod shows how staged spectacles that balance the serious and the humorous can spark important public conversations. In some instances, tricksters have incited social change and unfortunate prank blowback by manipulating various forms of media, from newspapers to YouTube. For example, in the 1960s, self-proclaimed professional hoaxer Alan Abel lampooned America's hypocritical sexual mores by using conservative rhetoric to fool the news media into covering a satirical organization that advocated clothing naked animals. In the 1990s, Sub Pop Records then receptionist Megan Jasper satirized the commodification of alternative music culture by pranking the New York Times into reporting on her fake lexicon of grunge speak. Throughout this book, McLeod shows how pranks interrupt the daily flow of approved information and news, using humor to underscore larger, pointed truths. Written in an accessible, story-driven style, *Pranksters* reveals how mischief makers have left their shocking, entertaining, and educational mark on modern political and social life. **The Book of the SubGenius** J. R. Dobbs, SubGenius Foundation, 1983 A parody of religious cults and fanaticism looks at nuclear war, world hunger, UFOs, the environment, and the future. *There Is No God and He Is Always with You* Brad Warner, 2013-05-17 Can you be an atheist and still believe in God? Can you be a true believer and still doubt? Can Zen give us a way past our constant fighting about God? Brad Warner was initially interested in Buddhism because he wanted to find God, but Buddhism is usually thought of as godless. In the three decades since Warner began studying Zen, he has grappled with paradoxical questions about God and managed to come up with some answers. In this fascinating search for a way beyond the usual arguments between fundamentalists and skeptics, Warner offers a profoundly engaging and idiosyncratic take on the ineffable power of the ground of all being. *Magic, Rhetoric, and Literacy* William A. Covino, 1994-01-01 This book presents a selective, introductory reading of key texts in the history of magic from antiquity forward in order to construct a suggestive conceptual framework for disrupting our conventional notions about rhetoric and literacy. Offering an overarching, pointed synthesis of the interpenetration of magic, rhetoric, and literacy, William A. Covino draws from theorists ranging from Plato and Cornelius Agrippa to Paulo Freire and Mary Daly and analyzes the different magics that operate in Renaissance occult philosophy and Romantic literature as well as in popular indicators of mass literacy such as *The Oprah Winfrey Show* and *The National*.

Enquirer Magic Rhetoric and Literacy distinguishes two kinds of magic rhetoric that continue to affect our psychological and cultural life today Generative magic rhetoric creates novel possibilities for action within a broad sympathetic universe of signs and symbols Arresting magic rhetoric attempts to induce automatistic behavior by inculcating rules and maxims that function like magic ritual formulas JUST SAY NO In this connection the literate individual is one who can interrogate arresting language and generate counter spells

Chasing Eris Brenton Clutterbuck, 2018-07-13 It s the most influential religion you ve never heard of Discordianism took the world by storm when it was revealed to two young hippies in 1958 or 1959 Who would have thought this goofy nuttiness would eventually turn into a worldwide caper involving the assassination of a US President Timothy Leary a rubber gorilla a ten hour play a million pounds of burnt cash the German secret service a pumpkin launching trebuchet the Electronic Frontier Foundation Charles Manson twelve arrested New Orleans Mardi Gras participants a series of murders Kermit the frog and an extremely confused Australian who wrote this very silly book Not me that s for sure WITH A FORWARD BY JOHN HIGGS WITH AN AFTERWORD BY CRAMULUS

Handbook of Hyper-real Religions , 2012-03-28 Today a new trend is clearly discernable that of hyper real religions These are innovative religions and spiritualities that mix elements of religious traditions with popular culture If we imagine a spectrum of intensity of the merging of popular culture with religion we might find at one end groups practicing Jediism appropriated from the Star Wars movies Matrixism from the Matrix trilogy and neo pagan rites based on stories from The Lord of the Rings and the Harry Potter series At the other end of the spectrum members of mainstream religions such as Christianity can be influenced or inspired by for example The Da Vinci Code Through various case studies this book studies the on and off line religious spiritual consumption of these narratives through a social scientific approach

Firesign Jeremy Braddock, 2024 A cultural clearinghouse of the American 1960s and 70s as told through the story of the period s most important forgotten comedy group This expansive book reclaims the Firesign Theatre hazily remembered as a comedy act for stoners as critically engaged artists working in the heart of the culture industry at a time of massive social and technological change Working at the intersection of popular music sound and media studies cultural history and avant garde literature Jeremy Braddock reveals how this inventive group made the lowbrow comedy album a medium for registering the contradictions and collapse of the counterculture and traces their legacies in hip hop turntablism computer hacking and participatory fan culture Focusing on Firesign s work in Los Angeles from 1967 to 1975 Braddock deploys a vast range of material sources informed by numerous interviews and writing in tune with the group s obsessive and ludic reflections on multitrack recording radio television cinema early artificial intelligence and more This ebullient act of media archaeology reveals Firesign Theatre as authors of a comic utopian pessimism that will inspire twenty first century recording arts and urge us to engage the massive technological changes of our own era

Religion, Media, and Social Change Kennet Granholm, Marcus Moberg, Sofia Sjö, 2014-09-19 In an era of heightened globalization macro level transformations in the general socioeconomic and cultural

makeup of modern societies have been studied in great depth Yet little attention has been paid to the growing influence of media and mass mediated popular culture on contemporary religious sensibilities life and practice Religion Media and Social Change explores the correlation between the study of religion media and popular culture and broader sociological theorizing on religious change Contributions devote serious attention to broadly defined media including technologies institutions and social and cultural environments as well as mass mediated popular culture such as film music television and computer games This interdisciplinary collection addresses important theoretical and methodological questions by connecting the study of media and popular culture to current perspectives approaches and discussions in the broader sociological study of religion

Transhumanism David Livingstone, 2015-09-02 Transhumanism is a recent movement that extols man's right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey Blade Runner the Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA's mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill

Humorists vs. Religion Iain Ellis, 2018-08-03 Critical humorists and religion are steeped in a long standing cultural antagonism This book recounts the dramatic skirmishes between religion its dogma and edicts political manifestations and the nature of faith and the satire parody jokes and hyperbole of popular wits The writings of Twain Vonnegut Mencken and Hitchens are included along with the films of Monty Python the cartoons of Charlie Hebdo the animated television series The Simpsons and South Park the comedy of George Carlin and Bill Maher the music of Randy Newman and Pussy Riot the performance monologue of Julia Sweeney and the magic of Penn Jillette *American Televangelism and Participatory Cultures* Denis J. Bekkering, 2018-10-12 This book examines unintended participatory cultures and media surrounding the

American televangelists Robert Tilton and Tammy Faye Bakker Messner It brings to light heavily ironic fan followings print audio and video projects public access television parodies and other comedic participatory practices associated with these controversial preachers from the 1980s onwards For Tilton s ministry some of these activities and artifacts would prove irksome and even threatening particularly an analog video remix turned online viral sensation In contrast Bakker Messner s campy fans gay men attracted to her ludicrous tragedy would provide her unexpected opportunities for career rehabilitation Denis J Bekkering challenges supply side religious economy and branding approaches suggestions of novelty in religion and new media studies and the emphasis on sincere devotion in research on religion and fandom He also highlights how everyday individuals have long participated in public negotiations of Christian authenticity through tongue in cheek play with purported religious fakes

The FIAF Moving Image Cataloguing Manual Linda Tadic, 2016-10-17 The FIAF Moving Image Cataloguing Manual is the result of many years of labor and collaboration with numerous professionals in the moving image field It addresses the changes in information technology that we ve seen over the past two decades and aligns with modern cataloguing and metadata standards and concepts such as FRBR Functional Requirements for Bibliographic Records EN 15907 and RDA Resource Description and Access The manual is designed to be compatible with a variety of data structures and provides charts decision trees examples and other tools to help experts and non experts alike in performing real world cataloguing of moving image collections

Fiction, Invention and Hyper-reality Carole M. Cusack, Pavol Kosnáč, 2016-11-18 The twentieth century was a period of rapid change for religion Secularisation resulted in a dramatic fall in church attendance in the West and the 1950s and 1960s saw the introduction of new religions including the International Society for Krishna Consciousness ISKCON the Church of Scientology and the Children of God New religions were regarded with suspicion by society in general and Religious Studies scholars alike until the 1990s when the emergence of a second generation of new new religions based on popular cultural forms including films novels computer games and comic books and highly individualistic spiritualities confirmed the utter transformation of the religio spiritual landscape Indeed Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de institutionalised eclectic parodic fun loving and experimental fiction based invented and hyper real religions In this book scholarly treatments of cutting edge religious and spiritual trends are brought into conversation with contributions by representatives of Dudeism the Church of All Worlds the Temple of the Jedi Order and Tolkien spirituality groups This book will simultaneously entertain shock challenge and delight scholars of religious studies as well as those with a wider interest in new religious movements
