Book of Theanna Ellias Lonsdale, Theanna Lonsdale, 1996-01-04 Before she died Theanna then Sara Lonsdale developed a means to continue communication with her husband Ellias The Book of Theanna contains Ellias daily transcriptions of her words through Death's doors In the course of these epistles she discusses the scenery of Death the denials and delusions of the recently dead and the nature of sexuality violence and power The Book of Theanna is not just another account of life after death it is not a channeled book in the sense that that is usually understood It enacts a virtually unknown and ignored method of spiritual communication Theanna's principal task is to make this process available collectively so that from this point in history people will be able to come back from the dead and recognize where we are and the we are *The Book of Theanna* Theanna Lonsdale, 2012-06 Before she died Theanna then Sara Lonsdale developed a means to continue communication with her husband Ellias The Book of Theanna contains Ellias daily transcriptions of Theanna's words through death's doors In the course of these writings she discusses the scenery of death the denials and delusions of the recently dead and the nature of sexuality violence and power as seen from the bracing perspective of the other side Theanna experienced the many forms of death including The Death Minds The Hell Realms and The Intensity of Love Across the Veil In a lucid and sober voice reminiscent of Dante's Divine Comedy she reports on each of these encounters which include Rudolf Steiner Jesus Christ and The Lord of Death whom she engages in spiritual battle Not just another account of life after death nor a channeled book in the usual sense The Book of Theanna enacts a virtually unknown and ignored method of spiritual communication Theanna's principal goal is to make her own process available collectively so that from this point on people will be able to come back from the dead and recognize where we are and that we are **Channeling** Jon Klimo, 1998-04-17 In this study of channeling earlier called spirit communication or mediumship Klimo who teaches at Rosebridge Graduate School in the San Francisco Bay Area writes with clarity about the communication of information to or through a physically embodied human being from a source on some other level or dimension of reality other than the physical as we know it He profiles recent channels and their sources goes back to preliterate societies and the advent of monotheism and identifies as channels such figures as Moses Solomon Muhammad Merlin Nostradamus Swedenborg and Edgar Cayce He discusses the sorts of people who are channels kinds of information channeled sources of information channeled and varieties of channeling like clairvoyance and automatic writing According to Klimo few people tap into their abilities to perform channeling and for those who think they can he serves as guide **Experiences with the Dying and the Dead** Claire Blatchford, 2007-05 A tumultuous situation arises in the relationship between the adolescent and the world This tumultuous situation is necessary and as teachers we need to have it in mind during the years leading up to it Overly sensitive teachers might get the idea that it would be better to spare young people this upheaval However in so doing they would make themselves the worst enemy of youth Rudolf Steiner Adolescence is the period during which we first sense as human beings

our responsibility for earthly existence and inevitably it is a time of turbulent transition and inner turmoil During the first two seven year periods of life our soul spiritual being gradually incarnates With puberty it takes hold of our whole being and turns outward to befriend the Earth and the forces of life and death Steiner calls this profound inner transformation a grand metamorphosis As parents and teachers and as individuals who still bear its fruits and wounds we all know the contours of the upheaval However educational and parenting practices too often ignore it unaware that the great changes in our children call for equally great changes in us To remedy this Dr Peter Selg proposes Use Rudolf Steiner's work to highlight the fundamental structure of the crisis of adolescence and the pedagogical challenges that emerge as a result As a psychiatrist who has worked intensively with adolescents in crisis and who carries a deep existential and thorough scholarly knowledge of Steiner's teachings Dr Selg highlights the radical nature of Steiner's approach which demands that teachers and parents change as their children change Drawing on Steiner's practical admonitions during lectures and teacher's meetings Selg reminds us that the ideal of Waldorf teachers is to educate by behaving in such a manner that through their behavior children can educate themselves This is especially true once children reach sexual maturity when teachers must not teach young people so much as welcome them as independent equal individuals able to transform the gift of sympathies and antipathies into a new moral orientation out of their own essential nature Teachers must therefore be able to speak directly and authentically about the world Abstractions and generalities have no place in the dialog young people want to know the real causes of things and want to be addressed as equals Selg also points out that teachers must be aware of the growing difference between the sexes and the way each carries a different secret life inwardly Steiner's indications provide a timeless method of meeting students in the right way The detailed spiritual scientific indications in this book help parents and teachers to become well equipped with deeper understanding for the challenge of adolescence The appendix includes speeches by a graduate of the first Waldorf school and one of the first teachers as well as a letter by Dr Ita Wegman each of which reveals an intimate reflection on the life of the Waldorf school during its earliest years and an earnest hope for the future growth of this approach to education In a way a teacher has to be a prophet dealing with what will live in the future generation not in the present Dr Selg also provides copious notes that offer practical wisdom and many avenues for readers to take up their own research This volume is a translation from German of *Eine grandiose Metamorphose Zur geisteswissenschaftlichen Anthropologie und Pädagogik des Jugendalters* **Embryogenesis** Richard Grossinger, 2000 Embryogenesis is an unusual book in that it brings together a highly illustrated practical embryology book in simple language perfect for health practitioners with a fascinating read on the history and philosophy of biological science It discusses the various stages of embryonic development meiosis fertilization blastula development and gastrulation and then the embryology of each of the human organs and organ systems in detail It puts each of them in context both in terms of its phylogeny the evolutionary trajectory of cell organized systems on Earth and its ontogeny the formation of individual

organisms in the modern world There are 24 color plates many of them commissioned uniquely for this volume and several hundred black and white illustrations The book is 950 pages hardcover 8 1 2 by 10 Chapters include The Original Earth The Materials of Life The First Beings The Cell The Genetic Code Sperm and Egg Fertilization The Blastula Gastrulation Morphogenesis Biological Fields Chaos Fractals and Deep Structure Ontogeny and Phylogeny and Biotechnology The Origin of the Nervous System The Evolution of Intelligence Neurulation and the Human Brain Organogenesis The Musculoskeletal and Hematopoietic Systems Mind The Origin of Sexuality and Gender Healing Transsexuality Intersexuality and the Cultural Basis of Gender Self and Desire Cosmogenesis and Mortality *The Book of Theanna, Updated Edition* Ellias Lonsdale, 2011-09-13 The Book of Theanna contains a collection of letters written by Ellias which he began transcribing from Theanna formerly Sara Lonsdale his wife and twin soul shortly after her death They communicate and commune through a sacred impulse that rises from the Earth and descends from the Heavens It is this very current that brings forth a path into the Age of Aquaria In the course of these writings Sara journeys to Heaven and Hell and the vast Lands in between She paints vivid pictures of her encounters in each of these realms Through the teachings she brings ways to break the crystallized shell holding us back from ultimate self love and forgiveness Waving the smelling salts through the words she discusses illness karma the dark side the Lord of Death Christ the death minds and how to awaken to Truth There is an immense need for Death's truth to fully reveal itself What this updated edition carries is a renewed and refreshed revelation death is a different death than was ever possible before It can now come forward in a redemptive fashion Not just another account of life after death not a channeled book in the usual sense The Book of Theanna comes to break death's spell with the power and intensity of Love from across the veil now returned to Earth **Cosmic Weather Report** Mark Borax, Ellias Lonsdale, 2010-12-07 On a planet facing environmental and geopolitical catastrophes on every continent the idea that human beings need to evolve or die is gaining currency on an almost daily basis Cosmic Weather Report tackles the personal and collective obstacles to world transformation head on inspiring readers to rethink the whole purpose of humankind and change their lives and the course of the planet's future from within In this book eminent astrologers Mark Borax and Ellias Lonsdale pool their talents to explore what we are emerging from the age we need to leave behind and what we are approaching the age we're on the verge of creating Readers are encouraged to see how the greatest difficulties can be seized for optimal growth While Cosmic Weather Report is not an astrology book per se it uses astrological concepts which can also be read as metaphors to convey the universal scale of the transformations taking place Preserving the lecture format and question and answer dialogue of Lonsdale and Borax's famed mystery school the authors usher readers into an exciting classroom of evolution in which students get to quiz the teachers **2012** Mark Borax, 2010-05-18 2012 Crossing the Bridge to the Future is an engaging personal narrative through the author's apprenticeship with master astrologer William Lonsdale who teaches him how to access a source of great power and creativity buried within the human soul The book begins in

August 1987 on the slopes of Mount Shasta in Northern California as Borax witnesses the Harmonic Convergence a spiritual and astrological event sparking a 26 year countdown to 2012 the year that marks the end of history in the Mayan calendar Signs indicate that a major energy shift is occurring a turning point in Earth s collective karma powerful enough to change the global perspective of humankind Borax s mountaintop experiences compel him to seek solutions to his personal turmoil He meets Lonsdale and together they launch a mystery school to study how the twenty five year period between 1987 and 2012 can be used for a cosmic purging of negativity to release humanity s core forces and restore universal balance En route Borax and his fellow students discover truths about life after death karma reincarnation past lives human evolution and the purpose of our existence on earth In the tradition of The Teachings of Don Juan Carlos Castaneda s tales of his shamanic master 2012 Crossing the Bridge to the Future is a gripping sorcerer s apprentice story driven by mystical forces encouraging readers to expand their everyday awareness and challenge their fundamental beliefs about their place in the universe

The Dead Land Girl John Johnson,2024-10-28 The Dead Land Girl reveals the struggle of a young woman as she joins the Land Army in 1940s Britain She finds herself at odds with those who lead the Army and becomes increasingly concerned that the apparent death of another Land Girl is actually a murder and begins her own investigation in search for the truth

Bottoming Out the Universe Richard Grossinger,2020-04-07 An exploration into consciousness the universe and the nature of reality Draws on transdimensional physics and biology reincarnation and past life memories animal consciousness multiple identities thoughtforms soul pictures and paranormal phenomena like crop circles and poltergeists Explores the riddle of personal identity and how it differs from consciousness Reveals that consciousness is more than encompassing all that exists it also speaks to what has yet to manifest Scientific orthodoxy views the universe as conceived of matter protons neutrons electrons down to the smallest particle quarks But when you keep digging what is beneath quarks The scientific worldview does not take into account consciousness or life itself How did consciousness become part of the material universe Is it a by product of brain chemistry or a constituent of reality Or to dig deeper which is more fundamental the existence of an objective physical universe or our subjective experience of it In this investigation into consciousness the universe and the nature of reality Richard Grossinger offers a wide ranging foundation for reimagining the universe as based in consciousness rather than matter He presents in depth analysis of the standard scientific description of the universe revealing the holes in its theories Exploring the interpenetration of matter and all reality by consciousness the author looks at reincarnation and past life memories examining famous and lesser known but verifiable accounts He then explores the nature and origin of consciousness with accompanying explorations of animal consciousness the brain as a computer multiple identities thoughtforms soul pictures and paranormal phenomena like UFOs faeries and poltergeists He also examines concepts from physics that combine elements of both consciousness and matter such as collapsing waveforms and the uncertainty principle of quantum mechanics Examining nonlocal and transpersonal modes of consciousness Grossinger looks

at the difference between consciousness and personal identity He expands this discussion with reflections on Sethian cosmology using Seth's own words and Jane Roberts's and John Friedlander's interpretations He reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all why there is something rather than nothing Skewering the materialist paradigm and placing consciousness alongside mass gravity and heat as an essential component of the universe Grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency

Pluto Richard Grossinger, 2015-03-24 Encompassing astronomy mythology psychology and astrology Pluto offers a wealth of knowledge about our most famous dwarf planet First observed in 1930 and once defined as the ninth and final planet in our solar system Pluto and its discovery and reclassification throw a unique light on how we generate meaning in science and culture This anthology timed to appear in concordance with NASA's New Horizons's approach to Pluto in July 2015 shows that while the astronomical Pluto may be little more than an ordinary escaped moon or tiny Kuiper Belt object it is a powerful hyperobject for its mythological and cultural effigies on Earth incubate deep unconscious seeds of the human psyche Certain astronomical features pertain to Pluto in terms of its distance from the Sun coldness and barrenness These also inform its mythology and astrology as befitting a planet named after the God of the Underworld Among the issues central to this collection are the meanings of darkness loss grief inner transformation rebirth reincarnation and karmic revelation all of which are associated with the astrology of Pluto Pluto also embodies the meaning of true wealth as being nonmaterial essence instead of property conventional accolades ego identity achievement It is the marker of negative capability
