Isaiah's Servant Poems According to the Septuagint Eugene Robert Ekblad, 1999 This study analyzes the Septuagint version of Isaiah's Servant Poems Isaiah 42 1 8 49 1 9 50 4 11 52 13 53 12 as a translation and unique interpretation of the Hebrew text The Septuagint version of the Servant Poems is of interest not only because it represents one of the earliest if not the first interpretations of the Hebrew text and thus an important stage in the history of exegesis of these poems but also because this translation operates a transition from Hebrew modes of thinking and expression into a

Greek language and context The Septuagint version of the Servant Poems was cited by New Testament writers read and commented on as Sacred Scripture by the early Church Fathers and continues to be used by the Eastern Church This study is a helpful resource to Old Testament New Testament and Patristic scholars and theologians alike The introduction offers a methodology for classifying Septuagint differences to determine the specific exegesis and underlying theology of a given Septuagint text Differences with the Hebrew text are categorized according to linguistic explanations style the translator s difficulty determining Greek semantic equivalents for obscure Hebrew vocabulary errors or omissions etc Hebrew Vorlagen non linguistic explanations like contextual and intertextual exegesis and combinations of linguistic and non linguistic factors The author identifies over 270 differences with the Masoretic Text in a presentation of the Septuagint text of each poem side by side with the Masoretic Text Qumran variants are compared with the Masoretic Text and Septuagint to help classify Septuagint differences to determine which may be signs of the Septuagint s unique exegesis and theology The Septuagint s numerous differences are bold faced in the English translation of each poem before the author presents a detailed verse by verse literary analysis of the Septuagint in the wider context of Isaiah 1 66 and the Greek Pentateuch The author argues that the vast majority of Septuagint differences with the Masoretic Text in Isaiah s Servant Poems reflect contextual and intertextual exegesis The Septuagint version expresses theological perspectives that are at times similar and often distinct from the Masoretic Text In a final chapter the author draws on the exegesis of each poem in preceding chapters to present the theology visible in the Septuagint version of Isaiah s Servant Poems concluding with an appendix that catalogues textual differences between the Septuagint and the Masoretic Text and a biblical index

Lexical Dependence and Intertextual Allusion in the Septuagint of the Twelve Prophets Myrto Theodorou, 2012-05-24 This book explores various aspects of intertextuality in the LXX Twelve Prophets with a special emphasis on Hosea Amos and Micah Divided into five parts the first introduces the topic of intertextuality discusses issues relating to the Twelve Prophets and their translator and concludes with various methodological considerations Chapter two deals initially with the lexical sourcing of the prophets in their Hellenistic milieu and tests proposed theories of influence from the Pentateuch The rest of the book examines specific cases from the books of Hosea Amos and Micah The third chapter deals with standard expressions used by the translator even in places where the Hebrew does not correspond The fourth chapter investigates the use of catchwords that the Greek translator identified in his Hebrew Vorlage and that function for him as links between two or more texts Finally the fifth chapter examines cases where the translator understands the text to be alluding to specific biblical stories events and characters of particular interest in Hellenistic Judaism

A Kingdom for a Stage Mark W. Hamilton, 2018-03-05 The political rhetoric of ancient Israel took several literary architectural and graphic forms Much of the relevant material concerns kingship but other loci of authority and submission also drew significant attention Mark W Hamilton illustrates how these texts interacted with other political rhetorics especially those of the great Mesopotamian empires By paying close attention

to the argumentation of the Israelite literature as well as their function as epideictic oratory building solidarity with hearers he reveals the complexity of Israelite intellectual activity both during and after the period of the monarchy By doing this he shows that this body of thought lies at the heart of Western political thought even today **Righteousness, Volume 2**

Jeffrey J. Niehaus,2023-10-19 The second volume of this three volume work exegetes and comments on every occurrence of the Hebrew terms for righteousness in the Old Testament It begins with a discussion of apperception and deductive method and concludes with an afterword on righteousness and ontology The ontological argument affirms that God's aseity is the foundation of righteousness in the Bible and thus of all true righteousness Righteousness is being true to God and God is always true to himself including in his self existence Other terms in the righteous word group such as righteous and justify are considered along with the important word pair righteousness and justice in semantic domain studies in the first three chapters Semantic domain studies show that terms like upright blameless and good are qualifiers of righteousness Whatever the flavor or nuance of the terms for righteousness may be in different OT contexts however study shows that the underlying sense of righteousness is conformity to God's Being and doing and the same is true of the righteousness of God ??????
