Huhndorf,2024-08-13 *Native Lands* analyzes the role of visual and literary culture in contemporary Indigenous campaigns for territorial rights In the post 1960s era Indigenous artists and writers have created works that align with the goals and strategies of new Native land based movements These works represent Native histories and epistemologies in ways that complement activist endeavors while also probing the limits of these political projects especially with regard to gender The social marginalization of Native women was integral to dispossession And yet its enduring consequences have remained largely neglected even in Native organizing as a pressing concern associated with the status of Indigenous people in settler nation states The cultural works discussed in this book provide an urgent Indigenous feminist rethinking of Native politics that exposes the innate gendered dimensions of ongoing settler colonialism They insist that Indigenous campaigns for territorial rights must entail gender justice for Native women **The Publishers' Trade List Annual** ,1989 **Just in Time Teaching** Scott Simkins,Mark Maier,2023-07-03 *Just in Time Teaching* JiTT is a pedagogical approach that requires students to answer questions related to an upcoming class a few hours beforehand using an online course management system While the phrase just in time may evoke shades of slap dash work and cut corners JiTT pedagogy is just the opposite It helps students to view learning as a process that takes time introspection and persistence Students who experience JiTT come to class better prepared and report that it helps to focus and organize their out of class studying Their responses to JiTT questions make gaps in their learning visible to the teacher prior to class enabling him or her to address learning gaps while the material is

still fresh in students minds hence the label just in time JiTT questions differ from traditional homework problems in being designed not only to build cognitive skills but also to help students confront misconceptions make connections to previous knowledge and develop metacognitive thinking practices Students consequently spend more time on course concepts and ideas but also read their textbooks in ways that result in more effective and deeper learning Starting the class with students work also dramatically changes the classroom learning environment creating greater student engagement This book demonstrates that JiTT has broad appeal across the academy Part I provides a broad overview of JiTT introducing the pedagogy and exploring various dimensions of its use without regard to discipline Part II of the book demonstrates JiTT s remarkable cross disciplinary impact with examples of applications in physics biology the geosciences economics history and the humanities Just in Time Teaching article from The Hispanic Outlook in Higher Education Reprinted with permission from Hispanic Outlook in Higher Education Magazine www.hispanicoutlook.com
