Cracks In The Empire State Politics In The Vietnam War:

Cracks in the Empire Paul Joseph, 1981 A Companion to the Vietnam War Marilyn B. Young, Robert Buzzanco, 2008-04-15 A Companion to the Vietnam War contains twenty four definitive essays on America s longest and most divisive foreign conflict It represents the best current scholarship on this controversial and influential episode in modern American history Highlights issues of nationalism culture gender and race Covers the breadth of Vietnam War history including American war policies the Vietnamese perspective the antiwar movement and the American home front Surveys and evaluates the best scholarship on every important era and topic Includes a select bibliography to guide further research

The British and the Vietnam War Nicholas Tarling, 2017-01-20 During the presidency of Lyndon Johnson the British government sought to avoid escalation of the war in Vietnam and to help bring about peace The thinking that lay behind these endeavours was often insightful and it is hard to argue that the attempt was not worth making but the British government was able to exert little if any influence on a power with which it believed it had and needed a special relationship Drawing on little used papers in the British archives Nicholas Tarling describes the making of Britain s Vietnam policy during a period when any compromise proposed by London was likely to be seen in Washington as suggestive of defeat and attempts to involve Moscow in the process over estimated the USSR s influence on a Hanoi determined on reunification A

Companion to Post-1945 America Jean-Christophe Agnew, Roy Rosenzweig, 2008-04-15 A Companion to Post 1945 America is an original collection of 34 essays by key scholars on the history and historiography of Post 1945 America Covers society and culture people and movements politics and foreign policy Surveys and evaluates the best scholarship on every important era and topic Includes book review section on essential readings *Perversions of Justice* Ward Churchill, 2003 Examines the

faulty reasoning employed to legislate colonial control over North America s indigenous peoples and their lands **War and Empire** Paul L. Atwood, 2010-01-11 American history is not often truthfully told Dispelling the myths that have bolstered national myth making Paul Atwood attempts to show Americans that their history is one of constant wars of aggression and imperial expansion From the declaration of Independence to present day War and Empire takes a panoramic view of US military history explaining US actions in every major war from early combat with aboriginal nations imperialist conflicts with Spain to the war on terror The book shows that far from being dragged reluctantly into foreign entanglements America s leaders have always picked its battles in order to increase their influence and power with little regard for the American soldiers and enemy civilians killed or made to suffer in the process This book is an eye opening introduction to the American way of life for undergraduate students of American history politics and international relations Peace Politics Paul Joseph, 1993 The end of the Cold War promises a new era of global peace in which domestic reform could be achieved Yet armed conflict persists throughout the world Economic inequality declining public services environmental degradation and other forms of domestic decay threaten the quality of life in the U S In Peace Politics Paul Joseph develops a systematic

comparison of the old and new world orders that links foreign and domestic affairs By examining the issues that are central to any realignment of American politics he offers a sweeping account of the possibilities and obstacles for progressive change over the 1990s Acknowledging that all nations and people have a right to security he argues for a global attack against a broad range of shared threats including human rights violations nuclear devastation poverty and despair politically repressive governments and environmental threats Joseph also addresses the links between the militarism in the U S and deforestation of the Amazon the uncertain victory of the Gulf War the effect of public opinion on security issues the impact of peace movements nuclear weapons policy and the need for a peace dividend Linking war and peace issues with environmental renewal stronger democracy economic justice and citizen activism Peace Politics is a rallying cry for rationality genuine security and mutual survival Author note Paul Joseph is Associate Professor of Sociology and Chair of the Anthropology Sociology Department and Peace and Justice Studies Program at Tufts University

The Road to 9/11 Peter Dale Scott, 2007-09-04 Scott's brilliantly perceptive account of the underpinnings of American governmental authority should be made required reading The book vividly depicts the political forces that have pushed this country toward an abyss threatening constitutional democracy at home and world peace abroad Its central message can be understood as an urgent wake up call to everyone concerned with the future of America Richard Falk author of The Great Terror War Peter Dale Scott is one of that tiny and select company of the most brilliantly creative and provocative political historical writers of the last half century The Road to 9 11 further secures his distinction as truth teller and prophet He shows us here with painful yet hopeful clarity the central issue of our time America's coming to terms with its behavior in the modern world As in his past work Scott's gift is not only recognition and wisdom but also redemption and rescue we simply cannot do without Roger Morris former NSC staffer The Road to 9 11 is vintage Peter Dale Scott Scott does not undertake conventional political analysis instead he engages in a kind of poetics crafting the dark poetry of the deep state of parapolitics and of shadow government As with his earlier work Deep Politics and the Death of JFK Scott has no theory of responsibility and does not name the guilty Rather he maps out an alien terrain surveying the topography of a political shadow land in which covert political deviancy emerges as the norm After reading Scott we can no longer continue with our consensus driven belief that our so called liberal order renders impossible the triumph of the politically irrational Eric Wilson Senior Lecturer of Public International Law Monash University and co editor of Government of the Shadows Peter Dale Scott exposes a shadow world of oil terrorism drug trade and arms deals of covert financing and parallel security structures from the Cold War to today He shows how such parallel forces of the United States have been able to dominate the agenda of the George W Bush Administration and that statements and actions made by Vice President Cheney and Defense Secretary Rumsfeld before during and after September 11 2001 present evidence for an American deep state and for the so called Continuity of Government in parallel to the regular public state ruled by law Scott's brilliant work not only reveals the overwhelming

importance of these parallel forces but also presents elements of a strategy for restraining their influence to win back the public state the American democracy Ola Tunander International Peace Research Institute Oslo A powerful study of the historic origins of the terrorist strikes of September 11 this book offers an indispensable guide to the gluttonous cast of characters who since Watergate and the fall of Nixon fashioned an ever more reckless American empire By exposing the corrupt U S deep state transfer of public authority to America s wealthy and to the nation s unaccountable secret intelligence agencies Peter Dale Scott s *The Road to 9 11* illuminates the path toward a more democratic and inclusive republic David MacGregor King s University College at the University of Western Ontario *The Road to 9 11* provides an illuminating and disturbing history of the American government since World War II Scott s account suggests that the 9 11 attacks were a culmination of long term trends that threaten the very existence of American democracy and also that there has been a massive cover up of 9 11 itself This book which combines extensive research perceptive analysis and a fascinating narrative will surely be considered Scott s magnum opus David Ray Griffin author of *Debunking 9 11 Debunking The America we knew and loved Can it be saved* That question opens this book and getting to the answer called for the honed intellect of a scholar and the sensitivity of a poet Peter Dale Scott has both in spades and here gives us much much more than a book about 9 11 In a time of fear he speaks for sanity and freedom Anthony Summers author of *The Arrogance of Power* [Exodus From Empire](#) Terrence E. Paupp,2006-11-20 This book lays out a comprehensive vision for a new world order based on cooperation between the developing world and leading Left countries in Latin America Arguing that the ravages of corporate capitalism are unsustainable Terrence E Paupp presents an energetic critique of the problems of empire and looks ahead to a global countermovement against the IMF and US hegemony **Vietnam, 1964-1973**,1990 **American Alliance Policy in the Middle East, 1945-1992** John P. Miglietta,2002-01-01 American Alliance Policy in the Middle East provides a stimulating new look at a U S Cold War foreign policy gripped by anticommunist paranoia Through case studies of America s relationships with Iran Israel and Saudi Arabia John P Miglietta reveals how an overriding fear of global communism led to the overcommitment of U S security resources to the region The perceived need to preserve Middle East stability rendered U S policy ineffectual and unresponsive to changing local conditions drastically altering the patron client paradigm to the detriment of American strategic interests This superb analysis of American foreign policymaking illustrates how Cold War anticommunist ideology prevented the evolution of traditional military alliances into broader based relationships and perpetuated authoritarian regimes that mired the Middle East in a cycle of poverty and despotism **To Reason Why** Jeffrey P. Kimball,2005-08-11 This book is about the past and continuing debate over the causes of United States involvement in the Vietnam War It brings together readings that best exemplify the widely varying answers that historians political scientists social scientists policymakers journalists and novelists have given to the essential question of American involvement why did the U S intervene diplomatically and militarily in Vietnam between 1945 and 1975 from the Preface To

Reason Why breaks new ground in covering and analyzing this issue Kimball has gathered together thirty eight readings including speeches interviews and articles that best exemplify the conflicting ideas and theories about the U S intervention in Vietnam Among these thirty eight readings are excerpts from David Halberstam Daniel Ellsberg Frances FitzGerald Henry Kissinger Lyndon Johnson and Richard Nixon 1968: The World Transformed Carole Fink,Philipp Gassert,Detlef Junker,1998-10-28 1968 The World Transformed presents a global perspective on the tumultuous events of the most crucial year in the era of the Cold War By interpreting 1968 as a transnational phenomenon authors from Europe and the United States explain why the crises of 1968 erupted almost simultaneously throughout the world Together the eighteen chapters provide an interdisciplinary and comparative approach to the rise and fall of protest movements worldwide The book represents an effort to integrate international relations the role of media and the cross cultural exchange of people and ideas into the history of that year 1968 emerges as a global phenomenon because of the linkages between domestic and international affairs the powerful influence of the media the networks of communication among activists and the shared opposition to the domestic and international status quo in the name of freedom and self determination The Johnson Years, Volume Two Robert A. Divine,1990-04-01 Stretching from November 1963 to January 1969 the administration of Lyndon Baines Johnson was marked both by division and tumult and by significant accomplishments In this volume Robert Divine has brought together seven senior scholars who in new essays explore aspects of domestic and foreign policy during the Johnson years This collection is a sequel to Divine s earlier volume originally published as Exploring the Johnson Years The seven essays that compose Volume Two together with Divine s incisive and perceptive historiographical overview offer new insights into Johnson s complex character and leadership style The LBJ that emerges from these pages is a very human figure who understands the corrosive pervasive impact of the Vietnam War on his administration and who struggles to try to preserve the domestic programs he fought so long and hard to achieve In exploring the antiwar movement tax and foreign economic policies environmental and health care questions and the space program these essays demonstrate how domestic issues were critically affected by the Vietnam War and provide a fuller understanding of Johnson s vital but flawed legacy to the nation **The Political Economy of Third World Intervention** David N. Gibbs,1991-11 Interventionism the manipulation of the internal politics of one country by another has long been a feature of international relations The practice shows no signs of abating despite the recent collapse of Communism and the decline of the Cold War In The Political Economy of Third World Intervention David Gibbs explores the factors that motivate intervention especially the influence of business interests He challenges conventional views of international relations eschewing both the popular realist view that the state is influenced by diverse national interests and the dependency approach that stresses conflicts between industrialized countries and the Third World Instead Gibbs proposes a new theoretical model of business conflict which stresses divisions between different business interests and shows how such divisions can influence foreign policy and

interventionism Moreover he focuses on the conflicts among the core countries highlighting friction among private interests within these countries Drawing on U S government documents including a wealth of newly declassified materials he applies his new model to a detailed case study of the Congo Crisis of the 1960s Gibbs demonstrates that the Crisis is more accurately characterized by competition among Western interests for access to the Congo s mineral wealth than by Cold War competition as has been previously argued Offering a fresh perspective for understanding the roots of any international conflict this remarkably accessible volume will be of special interest to students of international political economy comparative politics and business government relations This book is an extremely important contribution to the study of international relations theory Gibbs treatment of the Congo case is superb He effectively takes the statist to task and presents a compelling new way of analyzing external interventions in the Third World Michael G Schatzberg University of Wisconsin David Gibbs makes an original and important contribution to our understanding of the influence of business interests in the making of U S foreign policy His business conflict model provides a synthetic theoretical framework for the analysis of business government relations one which yields fresh insights overcomes inconsistencies in other approaches and opens new ground for important research Gibbs provides a sophisticated analysis of the conflicts within the U S business community and identifies the complex ways in which they interacted with agencies within the government to form U S foreign policy toward the Congo This is a well crafted analysis of a critical case of U S postwar intervention which should be of general interest to scholars and others concerned with the domestic bases of foreign policy Thomas J Biersteker Director School of International Relations University of Southern California Beyond Global Crisis Terrence Edward

Paupp,2017-09-29 In this volume Terrence Paupp critically describes the various dimensions of today s global crisis Among other things this volume analyzes nuclear weapons proliferation climate change and international lawlessness in the form of wars of aggression Paupp argues that much human conflict and environmental degradation is the direct consequence of poverty and inequality Until these issues are addressed many of the world s problems will remain Paupp asserts that around the world peoples and nations are becoming more open to a strategy and culture of peace that evolves through discovering a commonality of interests the value of mutual cooperation and the desirability of forging consensus By using various road maps and remedies supplied by noted Japanese peace activist Daisaku Ikeda and his contemporaries viable solutions will emerge In this new endeavor equipped with some of the proposed solutions and strategies that this book provides humanity will collectively become engaged in remaking the character of global governance in order to build a global culture of peace

An American Ordeal Charles DeBenedetti,1990-03-01 *An American Ordeal* is the first comprehensive interpretive history of the antiwar movement in the United States throughout the Vietnam era Beginning with the rise of a liberal peace movement against atmospheric nuclear testing from 1955 to 1963 the authors describe the emergence of radical pacifists and politically motivated groups who eventually created a diverse coalition against the Vietnam War They examine how

extremist elements came to dominate the movement in the late 1960s to be supplanted by a larger consensus of liberal and pacifist groups in the early 1970s

Vietnam George Donelson Moss, 2016-07-01 This book provides a comprehensive narrative history of U S involvement in Southeast Asia from 1942 to 1975 with a concluding section that traces U S Vietnam relations from the end of the war in 1975 to the present Unlike most general histories of U S involvement in Vietnam which are either conventional diplomatic or military histories this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth elucidating more of the complexities of the U S Vietnam entanglement It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina and why they failed Key topics The Fall of Saigon The End as Prelude Vietnam A Place and A People The Elephant and the Tiger An Experiment in Nation Building Raising the Stakes Going to War The Chain of Thunders The Year of the Monkey A War to End a War The End of the Tunnel Market For anyone curious to know about the long American involvement in Southeast Asia 1942 1975 Power And Profits Ronald Cox, 2021-05-11 The cold war between the United States and the Soviet Union provided the context for U S policies toward Central America from the 1950s to the 1980s Nonetheless attitudes developed during the Cold War cannot explain the specific content of U S foreign policies toward the region Ronald W Cox argues that U S business interests have worked with policymakers to develop trade aid and investment policies toward Central America He reveals how the relationship between business groups and the state has been shaped by business competition national security considerations institutional structures and instability in the Central American countries Many see the state as autonomous and not influenced by business but Cox argues that business groups have been able to take advantage of specific international circumstances to promote economic policies thus increasing foreign investment At the same time division among business groups has affected foreign economic policies This book is a provocative analysis of interest to scholars of international political economy American foreign policy comparative politics and business government relations

Liberation, Imagination and the Black Panther Party Kathleen Cleaver, George Katsiaficas, 2014-04-08 This fascinating book gathers reflections by scholars and activists who consider the impact of the Black Panther Party the BBP the most significant revolutionary organization in the later 20th century
