The Truth Laurel, 2005 The Truth is the award winning first book in The Oracle Institute foundational trilogy It presents a summary of the divine messages sent to us by God through the Prophets When studied successively these spiritual lessons form a Tower of Truth that should not be broken or interpreted along sectarian lines Instead these Truths should be assimilated into a contemporary spiritual and scientific database and shared by everyone regardless of religious affiliation The Truth explores the five primary religions that evolved after the Prophets died Hinduism Judaism Buddhism Christianity and Islam to determine whether these manmade religions have remained faithful to the Truth including the primordial Truth that God is half masculine and half

feminine energy The Truth reveals that mankind has built a Tower of Babel with God's messages Moreover these now ancient religions have polarized humanity and brought us to the brink of World War III The book also includes an objective template for measuring the adequacy of any religion and an Appendix that shows the nexus between politics and religion and politics thought human history *The Ultimate Dilemma* John A. Ford, Katherine M. Ford, 2003 Technology and science have done irreparable damage to the theory of evolution in the last few decades Yet it is still taught in our schools as a fact This book takes the argument of the ages to a new level Using facts not faith the authors prove that man's explanation for our inception just doesn't work And the more knowledge expands the more we shoot holes in all of those unproven longstanding theories of evolution Big Bang punctuated equilibrium and others As DNA and fossil evidence seem to betray man's best efforts to come up with proof the Biblical account comes into clearer focus Writing Plural Worlds in Contemporary U.S. Poetry J. Keller, 2009-08-03 This book reveals how poets within the U.S. multi ethnic avant garde give up the goal of narrating one comprehensive rooted view of cultural reality in favour of constructing coherent accounts of relational local selves and worlds **US Foreign Policy and the Persian Gulf** Robert J. Pauly, Jr, 2017-05-15 Robert J Pauly Jr examines the history of US foreign policy toward the Greater Middle East in general and focuses specifically on the fundamental economic military and political causes of the 1990 1991 Persian Gulf crisis He investigates to what extent these causes were internal and external in origin looks at the principal actors in the crisis and determines whether and how these actors have continued to drive unfolding events in the Persian Gulf ever since The volume explores in detail the role of American leaders since 1989 including how far the US should collaborate with Europe to pursue both American and collective Western economic military and political interests in the Gulf It also considers the prospects for the future of American led nation building operations in Iraq and the outlook for the eventual liberal democratization of the Greater Middle East *A Middle East Primer for Students* Joseph D. Wilcox, 2004 The Middle East is a region in search of itself and the outcome of this struggle will profoundly impact America and the world But what are Middle Easterners searching for and why has that search been mired in conflict and strife in recent times Most Americans know the Middle East only as a crucible where images of war flash across televisions and cover the front pages of newspapers Yet it is much more than the conflict beamed into our homes via satellite television The Middle East nurtured civilization from its infancy hosts a rich dichotomy of peoples traditions and religions and once led the world in technological scientific and artistic innovation This book will give students a basic understanding of the Middle East its history geography monotheistic religions economics and the challenges it faces In addition the author aims to show how the region's history continues to resonate and why America and other countries would want to fight two wars in the region in 1991 and again in 2003 This primer will also help students understand where the Middle East fits into the modern world and how important the region is to world stability and prosperity Includes a Middle East timeline Internet resources bibliography glossary For high school students ninth tenth grade and teachers with an
