Cradle Of The Middle Class The Family In Oneida County New York 1790 1865:

Cradle of the Middle Class Mary P. Ryan, 1981 Winner of the 1981 Bancroft Prize Focusing primarily on the middle class this study delineates the social intellectual and psychological transformation of the American family from 1780 1865 Examines the emergence of the privatized middle class family with its sharp division of male and female roles Freedom in a Slave Society Johanna Nicol Shields, 2012-08-13 Before the Civil War most Southern white people were as strongly committed to freedom for their kind as to slavery for African Americans This study views that tragic reality through the lens of eight authors representatives of a South that seemed to them destined for greatness but was we know on the brink of destruction Exceptionally able and ambitious these men and women won reputes among the educated middle classes in the Southwest South and the nation even amid sectional tensions Although they sometimes described liberty in the abstract more often these authors discussed its practical significance what it meant for people to make life's important choices freely and to be responsible for the results They publicly insisted that freedom caused progress but hidden doubts clouded this optimistic vision Ultimately their association with the oppression of slavery dimmed their hopes for human improvement and fear distorted their responses to the sectional crisis

Christian Parenting David P. Setran, 2022-06-21 What can the past teach us about what it means to be a good Christian parent today Today's parenting guidance can sometimes feel timeless and inviolable especially when it comes to the spiritual formation of children in Christian households But even in the recent past parenting philosophies have differed widely among Christians in ways that reflect the contexts from which they emerged In this illuminating historical study David Setran catalogs the varying ways American Protestants envisioned the task of childrearing in the seventeenth eighteenth and nineteenth centuries Comparing two main historical time periods the colonial era and the Victorian era Setran uncovers common threads opposing viewpoints and the cultural and religious influences behind the dominant parenting postures of each era The implications of his findings matter for today's big questions about parenting Should children be viewed as basically good in need of protection from corruption or as fundamentally sinful in need of moral correction How should parents address misbehavior Should a parent's primary role be that of teacher disciplinarian or nurturer What importance should be attributed to devotions and prayer church involvement Sabbath keeping home decorating and fun family activities What consideration should be given to gender Should boys and girls be raised differently Do mothers and fathers have essentially different responsibilities As he surveys these historical perspectives Setran reflects on the legacy and future of Christian parenting concluding that the Protestant heritage encourages the importance of intentional devotional practices the development of close parent child bonds and the creation of godly household environments In the end he argues that all of these historical values are critical to the full expression of Christian parental love This is a love that teaches because it wants to help children understand true goodness that admonishes and restrains because it wants to protect children from whatever keeps them from true pleasure and joy that

fosters strong relationships so children might experience the lavishness of God's love that models Christlike sacrifice and guides children into the arms of their Creator

 South and nineteenth century America **Public Sentiments** Glenn Hendler,2003-04-03 In this book Glenn Hendler
 explores what he calls the logic of sympathy in novels by Walt Whitman Louisa May Alcott T S Arthur Martin Delany Horatio
 Alger Fanny Fern Nathaniel Parker Willis Henry James Mark Twain and William Dean Howells For these nineteenth century
 writers he argues sympathetic identification was not strictly an individual feminizing and private feeling but the
 quintessentially public sentiment a transformative emotion with the power to shape social institutions and political
 movements Uniting current scholarship on gender in nineteenth century American culture with historical and theoretical
 debates on the definition of the public sphere in the period Hendler shows how novels taught diverse readers to feel right to
 experience their identities as male or female black or white middle or working class through a sentimental emotionally based
 structure of feeling He links novels with such wide ranging cultural and political discourses as the temperance movement
 feminism and black nationalism Public Sentiments demonstrates that whether published for commercial reasons or for higher
 moral and aesthetic purposes the nineteenth century American novel was conceived of as a public instrument designed to
 play in a sentimental key *Siblings* C. Dallett Hemphill,2014 Based on a wealth of family papers period images and popular
 literature this is the first book devoted to the broad history of sibling relations in America Illuminating the evolution of the
 modern family system Siblings shows how brothers and sisters have helped each other in the face of the dramatic political
 economic and cultural changes of the eighteenth and nineteenth centuries As Hemphill demonstrates siblings function across
 all races as humanity s shock absorbers as well as valued kin and keepers of memory *The War Was You and Me* Joan E.
 Cashin,2020-09-01 Though civilians constituted the majority of the nation s population and were intimately involved with
 almost every aspect of the war we know little about the civilian experience of the Civil War That experience was inherently
 dramatic Southerners lived through the breakup of basic social and economic institutions including of course slavery
 Northerners witnessed the reorganization of society to fight the war And citizens of the border regions grappled with
 elemental questions of loyalty that reached into the family itself These original essays all commissioned from established
 scholars based on archival research and written for a wide readership recover the stories of civilians from Natchez to New
 England They address the experiences of men women and children of whites slaves and free blacks and of civilians from
 numerous classes Not least of these stories are the on the ground experiences of slaves seeking emancipation and the actions
 of white Northerners who resisted the draft Many of the authors present brand new material such as the war s effect on the
 sounds of daily life and on reading culture Others examine the war s premiere events including the battle of Gettysburg and

the Lincoln assassination from fresh perspectives Several consider the passionate debate that broke out over how to remember the war a debate that has persisted into our own time In addition to the editor the contributors are Peter W Bardaglio William Blair W Fitzhugh Brundage Margaret S Creighton J Matthew Gallman Joseph T Glatthaar Anthony E Kaye Robert Kenzer Elizabeth D Leonard Amy E Murrell George C Rable Nina Silber Mark M Smith Mary Saracino Zboray and Ronald J Zboray Together they describe the profound transformations in community relations gender roles race relations and culture wrought by the central event in American history

Marriage and Modernization Don S. Browning, 2003-03-20 The processes of modernization and globalization promise more wealth and health for many people But they are also a threat to the stability and quality of marriage and family life This new book at once sobering and constructive looks at the impact of these processes on marriage and asks what Christianity in cooperation with other religions can do to strengthen married life today Among the deleterious effects of modernization and globalization on marriage are a worldwide drift of men away from the responsibility of parenthood and the tendency of mothers too readily to take on the task of childrearing alone After looking at recent research on these and other problems Don Browning suggests that the cure for modern marital disruption entails reforming and reconstructing the institution of marriage while also nurturing relevant forms of social support Yet the effort to initiate a world marriage revival requires a complex cultural work and Browning explores the key contributions that the religions of the world must make for such an effort to be successful

Gender and Generation on the Far Western Frontier Cynthia Culver Prescott, 2016-06 As her family traveled the Oregon Trail in 1852 Mary Ellen Todd taught herself to crack the ox whip Though gender roles often blurred on the trail families quickly tried to re establish separate roles for men and women once they had staked their claims For Mary Ellen Todd who found a secret joy in having the power to set things moving this meant trading in the ox whip for the more feminine butter churn In Gender and Generation on the Far Western Frontier Cynthia Culver Prescott expertly explores the shifting gender roles and ideologies that countless Anglo American settlers struggled with in Oregon s Willamette Valley between 1845 and 1900 Drawing on traditional social history sources as well as divorce records married women s property records period photographs and material culture Prescott reveals that Oregon settlers pursued a moving target of middle class identity in the second half of the nineteenth century Prescott traces long term ideological changes arguing that favorable farming conditions enabled Oregon families to progress from accepting flexible frontier roles to participating in a national consumer culture in only one generation As settlers children came of age participation in this new culture of consumption and refined leisure became the marker of the middle class Middle class culture shifted from the first generation s emphasis on genteel behavior to a newer genteel consumption This absorbing volume reveals the shifting boundaries of traditional women s spheres the complicated relationships between fathers and sons and the second generation s struggle to balance their parents ideology with a changing national sense of class consciousness

American Families Stephanie Coontz, Maya Parson, Gabrielle Raley, 1999 This collection by leading scholars

discusses race gender and class stressing their effects on American families It emphasizes the many varied formations of the family and the ways in which government policy class race and gender both past and present affect these various family formations in different ways *Hallelujah Lads and Lasses* Lillian Taiz,2002-11-25 So strongly associated is the Salvation Army with its modern mission of service that its colorful history as a religious movement is often overlooked In telling the story of the organization in America Lillian Taiz traces its evolution from a working class evangelical religion to a movement that emphasized service as the path to salvation When the Salvation Army crossed the Atlantic from Britain in 1879 it immediately began to adapt its religious culture to its new American setting The group found its constituency among young working class men and women who were attracted to its intensely experiential religious culture which combined a frontier camp meeting style with working class forms of popular culture modeled on the saloon and theater In the hands of these new recruits the Salvation Army developed a remarkably democratic internal culture By the turn of the century though as the Army increasingly attempted to attract souls by addressing the physical needs of the masses the group began to turn away from boisterous religious expression toward a more refined religious culture and a more centrally controlled bureaucratic structure Placing her focus on the membership of the Salvation Army and its transformation as an organization within the broader context of literature on class labor and women s history Taiz sheds new light on the character of American working class culture and religion in the late nineteenth and early twentieth centuries Like Our Very Own Julie Berebitsky,2000 A fascinating chapter in American social and cultural history Like Our Very Own offers compelling evidence of the role that adoption has played in our evolving efforts to define the meaning and nature of both motherhood and family BOOK JACKET

Beauty and Business Philip Scranton,2014-03-05 Beauty seems simple we know it when we see it But of course our ideas about what is attractive are influenced by a broad range of social and economic factors and in *Beauty and Business* leading historians set out to provide this important cultural context How have retailers shaped popular consciousness about beauty And how in turn have cultural assumptions influenced the commodification of beauty The contributors here look to particular examples in order to address these questions turning their attention to topics ranging from the social role of the African American hair salon and the sexual dynamics of bathing suits and shirtcollars to the deeper meanings of corsets and what the Avon lady tells us about changing American values As a whole these essays force us to reckon with the ways that beauty has been made bought and sold in modern America Pragmatism and the Political Economy of Cultural Revolution, 1850-1940 James Livingston,2000-11-09 The rise of corporate capitalism was a cultural revolution as well as an economic event according to James Livingston That revolution resides he argues in the fundamental reconstruction of selfhood or subjectivity that attends the advent of an age of surplus under corporate auspices From this standpoint consumer culture represents a transition to a society in which identities as well as incomes are not necessarily derived from the possession of productive labor or property From the same standpoint pragmatism and literary naturalism become ways of accommodating

the new forms of solidarity and subjectivity enabled by the emergence of corporate capitalism So conceived they become ways of articulating alternatives to modern possessive individualism Livingston argues accordingly that the flight from pragmatism led by Lewis Mumford was an attempt to refurbish a romantic version of modern possessive individualism This attempt still shapes our reading of pragmatism Livingston claims and will continue to do so until we understand that William James was not merely a well meaning middleman between Charles Peirce and John Dewey and that James s pragmatism was both a working model of postmodern subjectivity and a novel critique of capitalism
