Babb,2006-03-01 Earth is Ours is a fresh and uniquely original story line that bridges many genres It is a story of a symbiotic

relationship between a self aware female computer and an American Indian man dying of old age This is a forced relationship dictated by mutual needs for survival in a world stripped of technology by aliens The main characters begin the fight of their lives but before they can fight the fierce aliens Levi and Amy must fight for control of who they will be jointly What begins as conflict of minds develops into tolerance then cooperation and finally love This love of total oneness creates a unity of incredible power and strength that provides the means to fight the aliens Female brains and male brawn unite to battle against incredible odds for the survival of the human race The conflict of minds action adventure and suspense are all interlaced into a compelling and fast paced adventure The characters are three dimensional with real emotions not always perfect but always interacting The story is presented from differing viewpoints with the two main characters expressing some of the same events from both a male and female perspective As they interface the events are often seen from conflicting emotions and motivations sometimes cynical and often humorous It is the ultimate struggle of male versus female while combating monstrous aliens As expected this action story has a strong appeal to men while the romance aspect compliments the story expanding the appeal to women Additionally one of the main characters is Amy a particularly brilliant and forceful female who demands attention from both sexes Her male counterpart is very physical and masculine representing everything Amy is not Both characters and sexes are presented in a positive although conflicting way at times These characters and the story are strong and their saga continues in its sequel Target Earth *The Awakening Word* Robert W Mitchell,2011-11-23
