Crazy Ivana True Story Of Submarine Espionage:

Crazy Ivan W. Craig Reed,2000 **Stalking the Red Bear** Peter Sasgen,2009-03-17 Thrilling submarine espionage and an inside look at the U S Navy s silent service Stalking the Red Bear for the first time ever describes the action principally from the perspective of a commanding officer of a nuclear submarine during the Cold War the one man aboard a sub who makes the critical decisions taking readers closer to the Soviet target than any work on submarine espionage has ever done before This is the untold story of a covert submarine espionage operation against the Soviet Union during the Cold War as experienced by the Commanding Officer of an active submarine Few individuals outside the intelligence and submarine communities knew anything about these top secret missions Cloaking itself in virtual invisibility to avoid detection the USS Blackfin went sub vs sub deep within Soviet controlled waters north of the Arctic Circle where the risks were extraordinarily high and anything could happen Readers will know what it was like to carry out a covert mission aboard a nuke and experience the sights sounds and dangers unique to submarining *Blind Man's Bluff* Sherry Sontag,Christopher Drew,2000-10-03 For decades American submarines have roamed the depths in a dangerous battle for information and advantage in missions known only to a select few Now after six years of research those missions are told in *Blind Man's Bluff* a magnificent achievement in investigative reporting It reads like a spy thriller except everything in it is true This is an epic of adventure ingenuity courage and disaster beneath the sea a story filled with unforgettable characters who engineered daring missions to tap the enemy s underwater communications cables and to shadow Soviet submarines It is a story of heroes and spies of bravery and tragedy **GOD and SPIES** Garry Matheny,2018-02-03 **GOD SPIES** Based on a True Story Author GM Matheny was a US Navy saturation diver on the nuclear submarine USS Halibut Involved in Operation Ivy Bells America s most important and most dangerous of the Cold War clandestine operations If you like good old fashioned American bravado espionage and American history you will enjoy this book **GOD SPIES** is a firsthand account of America s greatest intelligence coup Operation Ivy Bells was not a onetime intercept of foreign intelligence but an ongoing operation of multiple Soviet military channels Another reason for the high interest in our operation was the audacious nature in which it was done with not one person risking his neck but the crews of two US Navy nuclear submarines which rendezvoused in Soviet territorial waters How did I end up as a navy diver four hundred feet down in a frigid Russian sea After making my dad totally disgusted with me I set out to make him happy Honor thy father I struggled with a decision to serve God Lord I will give my life to you and serve you if you let me make this dive But I had the impression He only wanted to know one thing What if I do not let you Will you serve me anyway **BOOK EXCERPT** The tenders in the dive chamber who are bringing in Red Diver s umbilical cable unexpectedly have his cable ripped out of their hands One of the tenders says What s going on Matheny s fins have landed back onto the first leg of the DSRV which keeps him from sliding back any farther He then pulls toward him about 30 feet of his umbilical cord and makes a dash for the next leg coming down from the DSRV He makes it

but the red light shining in Matheny's face is reminding him he is running out of time. From his position he can see the light shining down in the water from the entry point back into the dive chamber. He positions himself to push off the last leg of the DSRV so he can enter the dive chamber. Then unexplainably he is again jerked backward with another sharp pull. This time his face mask slams into the leg of the DSRV. Matheny hurriedly makes a grab for this leg, clinging to it. **Blind Man's Bluff** Sherry Sontag, Christopher Drew, Annette Lawrence Drew, 2000. Two investigative reporters and a researcher tell the epic story of American espionage from the early Cold War Years to the Clinton Administration showing how the Navy and CIA have used submarines to gather intelligence and launch covert operations. 8 page photo insert. *Torpedoed* Edmond D. Pope, Tom Shachtman, 2001-11-01. He was a man of mystery. Edmond D. Pope, former Naval Intelligence officer then private businessman in Russia looking for some answers. It was a top secret operation. The CIA and the Canadian secret service out to steal one of Russia's crown jewels, the plans to a submarine torpedo that travels an astonishing 300 miles per hour. He was the new man in charge. Vladimir Putin, former head of the KGB, now boss of all Russia, and a man who wanted to set an example at almost any cost. Now for the first time ever, Ed Pope tells the real story of what led to his becoming the first American since Gary Powers to be convicted of espionage in Russia. Combining a gripping account of his arrest, trial, and 253 day imprisonment with a deeply disturbing look at today's Russia, Pope's harrowing story reads like a Le Carre novel come to life. And with a large dollop of espionage insider information and secret submarine warfare technology, Ed Pope's harrowing memoir will remind readers of the best of Tom Clancy. **Spy Sub** Roger C. Dunham, 1996. This is the true story of an American nuclear submarine's desperate search for a nuclear armed Soviet submarine lost in the depths of the north Pacific. Told by a sailor on board the U.S. spy sub, it reads like a techno thriller, but the events recorded here actually happened. To this day, some twenty eight years later, the U.S. Navy has never publicly admitted the operation took place. The mission remains so sensitive that it is still classified, compartmentalized, top secret. With slight technical modifications and name changes, however, Roger Dunham's story was cleared for publication by the Department of Defense. It offers the first eyewitness account of what the Pentagon calls one of the most successful military operations of the Cold War. Dunham brings readers into his submarine as the crew struggles to accomplish their mission in spite of flooding, emergency shutdowns of the nuclear reactor, depletion of uranium fuel, the loss overboard of a chief petty officer, and the mental breakdown of a crewman vital to the engine room. The ultimate success of this dangerous operation earned the crew the Presidential Unit Citation presented in a top secret ceremony. God & Spies Garry Matheny, 2018-02-03. GOD SPIES: Based on a True Story. Author GM Matheny was a US Navy saturation diver on the nuclear submarine USS Halibut, involved in Operation Ivy Bells, America's most important and most dangerous of the Cold War clandestine operations. If you like good old-fashioned American bravado, espionage, and American history, you will enjoy this book. GOD SPIES is a firsthand account of America's greatest intelligence coup: Operation Ivy Bells was not a one-time intercept of foreign intelligence but an ongoing operation of multiple Soviet military channels. Another reason for the high interest in our operation was the audacious nature in which it was done with not one person risking his neck but the crews of two US Navy nuclear submarines which rendezvoused in Soviet territorial waters. How did I end up as a navy diver four hundred feet down in a frigid Russian sea? After making my dad totally disgusted with me, I set out to make him happy. Honor thy father. I struggled with a decision to serve God. Lord, I will give my life to you and serve you if you let me make this dive. But I had the impression He only wanted to know one thing: What if I do not let you? Will you serve me anyway?

BOOK EXCERPT: The tenders in the dive chamber who are bringing in Red Diver's umbilical cable unexpectedly have his cable ripped out of their hands. One of the tenders says, "What's going on?" Matheny's fins have landed back onto the first leg of the DSRV, which keeps him from sliding back any farther. He then pulls toward him about 30 feet of his umbilical cord and makes a dash for the next leg coming down from the DSRV. He makes it, but the red light shining in Matheny's face is reminding him he is running out of time. From his position, he can see the light shining down in the water from the entry point back into the dive chamber. He positions himself to push off the last leg of the DSRV so he can enter the dive chamber. Then

unexplainably he is again jerked backward with another sharp pull This time his face mask slams into the leg of the DSRV Matheny hurriedly makes a grab for this leg clinging to it Spies of the Deep W.
