Creating People Of Plenty The United States And Japans Economic Alternatives 1950 196:

Creating People of Plenty Sayuri Shimizu, 2001 There is no doubt that the Eisenhower administration accomplished one of its paramount Cold War strategic objectives to rebuild Japan's economy and reinstate the nation as a stabilizing pro capitalist member in the new world order that had come out of the morass of the Great Depression and the rubble of World War II from the Introduction This innovative study investigates how Japan grew from an economically limited country to the threshold of industrial power The author describes Japanese economic development in the 1950s as one of the major achievements of the Eisenhower administration In her admirably clear account of this chapter in U S Japanese relations Sayuri Shimizu incorporates Japanese as well as American sources In the process she explains how and why the United States became so intractably involved in Southeast Asia Not least she tells an ironic and instructive story of how the United States helped build an economy that later it so bitterly resented *Partisan Histories* P. Kenney, M. Friedman, 2016-09-23 *Partisan Histories* is an introduction to the multiple uses of history in contemporary political debate and conflict As communities reimagine themselves a contest over defining legitimacy identifying us and others and jockeying for political control intersects with fights over history and memory Here distinguished scholars examine how competing versions of national identity are legitimized through appeals to carefully constructed pasts both in democracies and in repressive regimes The essays focus on the cases of Armenia Chile France Germany India and Pakistan Israel and Palestine Japan Nigeria and the United States to draw broader conclusions about the worldwide effect of traumatic memory questions of punishment and restitution and the instrumentalization of the past for political purposes The Transformation of the International Order of Asia Shigeru Akita, Gerold Krozewski, Shoichi Watanabe, 2014-07-25 In Asia the 1950s were dominated by political decolonization and the emergence of the Cold War system and newly independent countries were able to utilize the transformed balance of power for their own economic development through economic and strategic aid programmes This book examines the interconnections between the transfer of power and state governance in Asia the emergence of the Cold War and the transfer of hegemony from the UK to the US by focusing specifically on the historical roles of international economic aid and the autonomous response from Asian nation states in the immediate post war context The Transformation of the International Order of Asia offers closely interwoven perspectives on international economic and political relations from the 1950s to the 1960s with specific focus on the Colombo Plan and related aid policies of the time It shows how the plan served different purposes Britain's aim to reduce India's wartime sterling balances in London the quest for India's economic independence under Jawaharlal Nehru Japan's regional economic assertion and its endeavour to improve its international status Britain's publicity policy during the reorganization of British aid policies at a time of economic crisis and more broadly the West's desire to counter Soviet influence in Asia In doing so the chapters explore how international economic aid relations became reorganized in relation to the independent development of states in Asia during the period and crucially the role this
