Creation Of Jazz:

The Creation of Jazz Burton William Peretti, 1994 As musicians listeners and scholars have sensed for many years the story of jazz is more than a history of the music Burton Peretti presents a fascinating account of how the racial and cultural dynamics of American cities created the music life and business that was jazz From its origins in the jook joints of sharecroppers and the streets and dance halls of 1890s New Orleans through its later metamorphoses in the cities of the North Peretti charts the life of jazz culture to the eve of bebop and World War II In the course of those fifty years jazz was the story of players who made the transition from childhood spasm bands to Carnegie Hall and worldwide touring and fame It became the music of the Twenties a decade of Prohibition of adolescent discontent of Harlem pride and of Americans hoping to preserve cultural traditions in an urban commercial age And jazz was where black and white musicians performed together as uneasy partners in the big bands of Artie Shaw and Benny Goodman Blacks fought back by using jazz states Peretti with its unique cultural and intellectual properties to prove assess and evade the dynamic of minstrelsy Drawing on newspaper reports of the times and on the firsthand testimony of more than seventy prominent musicians and singers among them Benny Carter Bud Freeman Kid Ory and Mary Lou Williams **The Creation of Jazz** is the first comprehensive analysis of the role of early jazz in American social history

The History of Jazz Ted Gioia, 2011-05-09 Ted Gioia's **History of Jazz** has been universally hailed as a classic acclaimed by jazz critics and fans around the world Now Gioia brings his magnificent work completely up to date drawing on the latest research and revisiting virtually every aspect of the music past and present Gioia tells the story of jazz as it had never been told before in a book that brilliantly portrays the legendary jazz players the breakthrough styles and the world in which it evolved Here are the giants of jazz and the great moments of jazz history Jelly Roll Morton Louis Armstrong Duke Ellington at the Cotton Club cool jazz greats such as Gerry Mulligan Stan Getz and Lester Young Charlie Parker and Dizzy Gillespie's advocacy of modern jazz in the 1940s Miles Davis's 1955 performance at the Newport Jazz Festival Ornette Coleman's experiments with atonality Pat Metheny's visionary extension of jazz rock fusion the contemporary sounds of Wynton Marsalis and the post modernists of the current day Gioia provides the reader with lively portraits of these and many other great musicians intertwined with vibrant commentary on the music they created He also evokes the many worlds of jazz taking the reader to the swamp lands of the Mississippi Delta the bawdy houses of New Orleans the rent parties of Harlem the speakeasies of Chicago during the Jazz Age the after hours spots of corrupt Kansas city the Cotton Club the Savoy and the other locales where the history of jazz was made And as he traces the spread of this protean form Gioia provides much insight into the social context in which the music was born

Early Jazz Gunther Schuller, 1986 This classic study of jazz by renowned composer conductor and musical scholar Gunther Schuller was widely acclaimed on its first publication in 1968 The first of two volumes on the history and musical contribution of jazz it takes us from the beginnings of jazz as a distinct musical style at the turn of the century to its first great flowering in the 1930s

Schuller explores the music of the great jazz soloists of the twenties Jelly Roll Morton Bix Beiderbecke Bessie Smith Louis Armstrong and others and the big bands and arrangers Fletcher Henderson Bennie Moten and especially Duke Ellington placing their music in the context of the other musical cultures and languages of the 20th century and offering original analyses of many great jazz recordings Now reissued in paper Early Jazz provides a musical tour of the early American jazz world for a new generation of scholars students and jazz fans Cuttin' Up Court Carney, 2009-11-19 The emergence of jazz out of New Orleans is part of the American story but the creation of this music was more than a regional phenomenon it also crossed geographical cultural and technological lines Court Carney takes a new look at the spread and acceptance of jazz in America going beyond the familiar accounts of music historians and documentarians to show how jazz paralleled and propelled the broader changes taking place in America's economy society politics and culture Cuttin' Up takes readers back to the 1920s and early 1930s to describe how jazz musicians navigated the rocky racial terrain of the music business and how new media like the phonograph radio and film accelerated its diffusion and contributed to variations in its styles The first history of jazz to emphasize the connections between these disseminating technologies and specific locales it describes the distinctive styles that developed in four cities and tells how the opportunities of each influenced both musicians' choices and the marketing of their music Carney begins his journey in New Orleans where pioneers like Jelly Roll Morton and Buddy Bolden set the tone for the new music then takes readers up the river to Chicago where Joe Oliver's Creole Jazz Band featuring a young Louis Armstrong first put jazz on record The genre received a major boost in New York through radio's live broadcasts from venues like the Cotton Club then came to a national audience when Los Angeles put it in the movies starting with the appearance of Duke Ellington's orchestra in *Check and Double Check* As Carney shows the journey of jazz had its racial component as well ranging from New Orleans melting pot to Chicago's segregated music culture from Harlem clubs catering to white clientele to Hollywood's reinforcement of stereotypes And by pinpointing specific cultural turns in the process of bringing jazz to a national audience he shows how jazz opens a window on the creation of a modernist spirit in America A 1930 tune called Cuttin' Up captured the freewheeling spirit of this new music an expression that also reflects the impact jazz and its diffusion had on the nation as it crossed geographic and social boundaries and integrated an array of styles into an exciting new hybrid Deftly blending music history urban history and race studies Cuttin' Up recaptures the essence of jazz in its earliest days *A History Of Jazz In America* Barry Ulanov, 1972-01-21 **Jazz; a History of the New York Scene** Samuel Charters, Leonard Kunstadt, 1962 **Taylor Made Piano** Billy Taylor, 1983 An informal though authoritative history of jazz Taylor heard through the piano combining his firsthand knowledge both as a musician and as an aural historian He begins by tracing jazz roots to the African tradition disputing Andre Hodeir's popular theory that early jazz rhythms were derived from military marches and polkas which black musicians might have heard in the 1800s He follows the chronology through the rags of Scott Joplin and Eubie Blake the New Orleans jazz of Jelly Roll Morton the stride piano of Fats

Waller and James P Johnson on up through Count Basie Thelonious Monk Cecil Taylor McCoy Tyner and Keith Jarrett
