Ovid and the Fasti Geraldine Herbert-Brown,1994-02-03 The Fasti is a poetical calendar of the Roman year written by Ovid between AD 4 16 Dr Herbert Brown s new research illuminates the poem as a unique contemporary source for our understanding of the politics and culture of the Augustan period including the revival of religion Ovid himself who was banished in AD 8 is revealed as a fascinating and ambivalent commentator *Women in the World of the Earliest Christians* Lynn Cohick,2009-11-01 Lynn Cohick provides an accurate and fulsome picture of the earliest Christian women by examining a wide variety of first century Jewish and Greco Roman documents that illuminate their lives She organizes the book around three major spheres of life family religious community and society in general Cohick shows that although women during this period were active at all levels within their religious communities their influence was not always identified by leadership titles nor did their gender always determine their level of participation The book corrects our understanding of early Christian women by offering an authentic and descriptive historical picture of their lives Includes black and white illustrations from the ancient world **The Haskins Society Journal** William North,Laura L. Gender, Memory, and Identity in the Roman World Jussi Rantala, 2025-10-01 This volume approaches three key concepts in Roman history gender memory and identity and demonstrates the significance of their interaction in all social levels and during all periods of Imperial Rome When societies as well as individuals form their identities remembrance and references to the past play a significant role The aim of Gender Memory and Identity in the Roman World is to cast light on the constructing and the maintaining of both public and private identities in the Roman Empire through memory and to highlight in particular the role of gender in that process While approaching this subject the contributors to this volume scrutinise both the literature and material sources pointing out how widespread the close relationship between gender memory and identity was A major aim of Gender Memory and Identity in the Roman World as a whole is to point out the significance of the interaction between these three concepts in both the upper and lower levels of Roman society and how it remained an important question through the period from Augustus right into Late Antiquity

Sexual Morality in Ancient Rome Rebecca

Langlands, 2006-05-25 Traditionally scholars have approached Roman sexuality using categories of sexual ethics drawn from contemporary Western society In this 2006 book Dr Langlands seeks to move away from these towards a deeper understanding of the issues that mattered to the Romans themselves and the ways in which they negotiated them by focusing on the untranslatable concept of pudicitia broadly meaning sexual virtue She offers a series of nuanced close readings of texts from a wide spectrum of Latin literature including history oratory love poetry and Valerius Maximus work Memorable Deeds and Sayings Pudicitia emerges as a controversial and unsettled topic at the heart of Roman debates about the difference between men and women the relation between mind and body and the ethics of power and status differentiation within Roman culture The book develops strategies for approaching the study of an ancient culture through sensitive critical readings of its literary productions
