Body Language from Head to Toe Per-Olof Hasselgren, 2015-06-03 Written by a physician, *Body Language from Head to Toe* is a dictionary of American idioms and other expressions that contain the name of a body part. The use of body part related expressions is both interesting and fun. This book contains about 2,000 such idioms, words and expressions such as *with the back against the wall*, *brainstorming*, *sweet tooth* and *tongue in cheek*. Says author Per Olof Hasselgren: "As a surgeon, I understand the importance of anatomy and the knowledge of organs and tissues. This book reflects my longstanding interest in idioms and other expressions referring to body parts and it connects anatomy with the spoken and written language." This book was written for three main reasons. First, anatomy matters particularly in surgery. During the last several years, collecting such expressions became a hobby for the author. Second, as someone moving to this country from another part of the world, Dr. Hasselgren is interested in the peculiarities of the American language. Idioms, slang and other expressions are specific for any given language and quite often cannot be directly translated. Third, when one starts to be aware of them, written and spoken body language can become quite entertaining.

A. Heppenheimer, 2003-02-12 An aviation expert uncovers the brilliance behind the first successful flight of an engine powered plane. In the centennial year of the Wright Brothers' first successful flight, acclaimed aviation writer T. A. Heppenheimer reexamines what Wilbur and Orville Wright achieved. In *First Flight*, he debunks the popular assumption that the Wrights were simple mechanics who succeeded by trial and error, demonstrating instead that they were true engineering geniuses. Heppenheimer presents the background that made possible the work of the Wrights and examines the work of Samuel P. Langley, a serious rival. He places their work within a broad historical context, emphasizing their contributions after 1903 and their convergence with ongoing aeronautical work in France. T. A. Heppenheimer, Fountain Valley, CA, has written extensively on aerospace business and the history of technology. His many books include *Turbulent Skies*, *The History of Commercial Aviation*, 0 471 10961 4, *Countdown: A History of Space Flight*, 0 471 14439 8, and *A Brief*
