the higher side of life Everyone has a story to tell about the way their lives turned out Memories are mostly events and entualities that took place in a period of time Each person has a past that belongs to them as individuals Everyone would have liked to express parts of their lives before passing over This book is going to do just that you could hear voices whispering words to their loved ones if we could for a moment listen or hear what they have to say or what they want to do before being released from their earthly lives But this appears to be beyond the human mind unless you are sensitive to receive information You still may wonder Is it me or my imagination playing tricks on me The only proof at the moment is when a person consults a medium or clairvoyant who then becomes the mediator between the two spheres physical and spiritual domains So you can imagine the information there is roaming around in the ether and the thoughts waiting to be heard I hope this book may enlighten the reader to search for the true meaning of life beyond the physical boundaries and come to some conclusion that we are immortal beings and that there is no death **The People's Hospital Book** Ronald E.
