What Would Gossage Do?** Massimo Moruzzi, 2015-03-21 Why don't people in advertising like their jobs anymore What is all this nonsense about branding campaigns interactive advertising or the suddenly so important conversations between a brand of butter and consumers Do branding campaigns make any sense If not why are they so popular What happened to the Creative Revolution What has display advertising aka banner ads on the web become if not the reign of large scale low quality direct response What about our current obsession with social media Do consumers really want to have conversations with brands What is the real value of a Facebook fan What are social networks if not private enclosures of the web and advertising platforms Lastly who was Howard Luck Gossage and why should we study his work and his words What did Gossage understand and put in practice in the 60s that could be valuable to us today Were he around today What Would Gossage Do **How to do better creative work ebook** Steve Harrison, 2010-01-27 This is a complete guide to creating effective and award winning creative work Harrison reveals the dynamic that lies at the heart of all great work and provides a step by step process to ensure you too produce award winning creative work that sells **How to do Better Creative Work** Steve Harrison, 2010-04-08 Effective creative work is not a nice to have it's a necessity it's the only way you'll stand out in a fiercely competitive marketplace Whether you're in digital direct or advertising the CEO of an agency or just starting out How to do better creative work has been written for you In fact you'll see that everyone plays a crucial role in producing creative work that works What it means to be creative How to build a creative culture How virtually all great work is underpinned by a simple problem solution dynamic How to use that dynamic to create your big marketing ideas How to brief a creative team How to use relevant disruption to produce big creative ideas How to simultaneously build a brand and get response How to sell your work How to run a creative department All this is illustrated by some of the best advertising direct and digital work ever produced plus 12 case studies featuring ideas that have not only sold millions of pounds worth of products but also won dozens of the world's most coveted awards Steve writes like he talks with great intelligence wisdom and common sense He's one of the few people capable of looking at a notoriously self obsessed industry and saying The Emperor has no clothes And he's one of an even smaller number who can look at its problems and say here's how you fix it Creative Work is as challenging as it is engaging When I reached the end I felt like I wanted to continue the conversation which is probably the highest compliment you can offer a book Jon Steel author of Truth Lies Advertising and Perfect Pitch This is genuinely essential reading for anyone who wants to demystify the advertising creative process and vastly more entertaining than your average business book Harrison's simple commonsense approach makes you wonder why so many ad campaigns fail so spectacularly Buy it read it and learn from it Larissa Vince Campaign magazine This is a smart straightforward and very special book It affirmed so much I knew

already but my eyes were opened afresh to what is genuinely important about the work that we do I came away with ten or twelve things I wanted to share with the rest of the team at glue and it also fortunately gave me some confidence that we're getting a lot of this right already Mark Cridge CEO glue London Steve is one of the dying breed of creative directors that clients crave He tells it like it is and delivers How to do better creative work is a refreshingly honest must read for any client suit or creative who want to cut through the bullshit and produce great creative work that does the job Harrison has the right to say what he likes about the ad industry and he does Charlie Smith Head of Brand Marketing Vodafone UK This book isn't just about how clients can help get the best work from their agency I loved the insight into the thinking that goes on before the creative idea is had and realise it applies to every business that takes a creative approach to problem solving Paul Ferraiolo President Rolls Royce Motor Cars North America If one day my son tells me that he wants to be part of this business I will make sure that he reads Steve's book and if possible find a way for him to spend a couple of hours with Steve himself Pablo Alzugary President Shackleton Madrid **The Conquest of Cool** Thomas Frank,1997-12-08 Most people remember the youth counterculture of the 1960s but Thomas Frank shows that another revolution shook American business during those boom years He shows how the youthful revolutionaries were joined and even anticipated by such unlikely allies as the advertising industry and the men's clothing business Halftones tables Copyright Libri GmbH All rights reserved

Just Doing It: A History of Advertising Pia Elliott, 2014-10-09 The purpose of the book is to provide an overall view of advertising in the twentieth century while filling in the gap of information that exists in Italy where just a few names are known The book also provides a leading thread about those professionals who in the second half of the 20th century were the protagonists of the creative revolution and whose influence has been seminal on both American and English advertising The book has no historical intentions nor aims at classifying people into schools or categories as such an approach would be pretentious and inadequate in a profession so deeply entangled with economics and consumer attitudes The content in brief The book is made up of short biographies of famous and well known advertising people mainly art directors and copywriters interspersed with a few explanatory chapters that are simply summaries on certain subjects For instance The Big Agencies outlines the origins of historical agencies such as J W Thompson BBDO and Young Rubicam The State of Things explains what happened after the so called Creative Revolution The Spot Makers presents people like Howard Zieff Joe Pytko Rick Levine and Bob Giraldi Old School Ties and Colonels is about British advertising before Collett Dickinson and Pearce La Grande Parade depicts the peculiarities of French advertising and Carosello and its Victims explains the unusual features of the Italian Carosello an early TV format that hosted commercials etc Biographies are structured differently along the lines of individual stories and generally tend to highlight the meaningful events in one's career rather than their early life and experiences This way of telling a story is of course somewhat influenced by the author's experiences and point of view and represents the original aspect of the book Among the influentials Americans and Britons outnumber French and Italians A final section with Contributions by various authors and famous copywriters Gossage Della Femina Abbott Sgu la Marcantonio Pirella etc completes the book

Photography and the Non-Place Jim Brogden, 2019-01-31 This book presents a critical and aesthetic defence of non place as an act of cultural reclamation Through the restorative properties of photography it re conceptualises the cultural significance of non place The non place is often referred to as wasteland and is usually avoided The sites investigated in this book are located where access and ownership are often ambiguous or in dispute they are places of cultural forgetting Drawing on the author's own photographic research led practice as well as material from photographers such as Ed Ruscha Joel Sternfeld and Richard Misrach this study employs a deliberately allusive intertextuality to offer a unique insight into the contested notions surrounding landscape representation Ultimately it argues that the non place has the potential to reveal a version of England that raises questions about identity loss memory landscape valorisation and perhaps most importantly how we are to arrive at a more meaningful place
