Ryan,2012-03-27 Astrology in the Middle Ages was considered a branch of the magical arts one informed by Jewish and Muslim scientific knowledge in Muslim Spain As such it was deeply troubling to some Church authorities Using the stars and planets to divine the future ran counter to the orthodox Christian notion that human beings have free will and some clerical authorities argued that it almost certainly entailed the summoning of spiritual forces considered diabolical We know that occult beliefs and practices became widespread in the later Middle Ages but there is much about the phenomenon that we do not understand For instance how deeply did occult beliefs penetrate courtly culture and what exactly did those in positions of power hope to gain by interacting with the occult In A Kingdom of Stargazers Michael A Ryan examines the interest in astrology in the Iberian kingdom of Aragon where ideas about magic and the occult were deeply intertwined with notions of power authority and providence Ryan focuses on the reigns of Pere III 1336 1387 and his sons Joan I 1387 1395 and Mart I 1395 1410 Pere and Joan spent lavish amounts of money on astrological writings and astrologers held great sway within their courts When Mart I took the throne however he was determined to purge Joan s courtiers and return to religious orthodoxy As Ryan shows the appeal of astrology to those in power was clear predicting the future through divination was a valuable tool for addressing the extraordinary problems political religious demographic plaguing Europe in the fourteenth century Meanwhile the kings contemporaries within the noble ecclesiastical and mercantile elite had their own reasons for wanting to know what the future held but their engagement with the occult was directly related to the amount of power and authority the monarch
