Dark Tourism in the American West Jennifer Dawes, 2019-08-12 This edited collection expands scholarly and popular conversations about dark tourism in the American West. The phenomenon of dark tourism, traveling to sites of death, suffering, and disaster for entertainment or educational purposes, has been described and, on occasion, criticized for transforming misfortune and catastrophe into commodity. The impulse, however, continues, particularly in the American West, a liminal and contested space that resonates with stories of tragedy, violent conflict, and disaster. Contributions here specifically examine the mediation and shaping of these spaces into touristic destinations. The essays examine Western sites of massacre and battle, such as Sand Creek Massacre National Historic Site and the Waco Siege sites of imprisonment, such as Japanese American internment camps and Alcatraz Island, areas devastated by ecological disaster, such as Martin's Cove and the Salton Sea, and unmediated sites, those left to the touristic imagination with no interpretation of what occurred there, such as the Bennet Arcane camp.

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1965 **The Wilderness Debate Rages on** Michael P. Nelson, J. Baird Callicott, 2008 Ten years ago The Great New Wilderness Debate began a cross-disciplinary conversation about the varied constructions of wilderness and the controversies that surround them. The Wilderness Debate Rages On will reinvigorate that conversation and usher in a second decade of debate. Like its predecessor, the book gathers both critiques and defenses of the idea of wilderness from a wide variety of perspectives and voices. The

Wilderness Debate Rages On includes the best explorations of the concept of wilderness from the past decade underappreciated essays from the early twentieth century that offer an alternative vision of the concept and importance of wilderness and writings meant to clarify or help us rethink the concept of wilderness Narrative writers such as Wendell Berry Scott Russell Sanders Marilynne Robinson Kathleen Dean Moore and Lynn Maria Laitala are also given a voice in order to show how the wilderness debate is expanding outside the academy The writers represented in the anthology include ecologists environmental philosophers conservation biologists cultural geographers and environmental activists The book begins with little known papers by early twentieth century ecologists advocating the preservation of natural areas for scientific study not as did Thoreau Muir and the early Leopold for purposes of outdoor recreation The editors argue that had these writers influenced the eventual development of federal wilderness policy our national wilderness system would better serve contemporary conservation priorities for representative ecosystems and biodiversity
