Book Three of the False Wisdom of Philosophers Lactantius, 2004-06-01 Does wisdom therefore nowhere exist Yes indeed it was amongst them but no one saw it Some thought that all things could be known these were manifestly not wise Others thought that nothing could be known nor indeed were these wise the former because they attributed too much to man the latter because they attributed too little A limit was wanting to each on either side Where then is wisdom It consists in thinking neither that you know all things which is the property of God nor that you are ignorant of all things which is the part of a beast **The Divine Institutes, Books I-VII (The Fathers of the Church, Volume 49)** Lactantius, 2010-04 No

description available [Flattening the Medieval Earth](#) Pablo de Felipe, 2025-08-08 Flattening the Medieval Earth explores the origin of the flat error i e the false accusation that ancient and medieval Christians believed in a flat Earth and what this implies in terms of a conflict between science and Christianity Engaging with scientific and religious debates this book includes a reception study of two key figures of the 4th century AD Lactantius and Augustine This study demonstrates that the mistaken dark image of medieval scholars as flat earthers started very early c 1600 as an internal Christian debate in the context of new geographical and astronomical views The author draws on extensive research including many primary and secondary sources from different countries and languages not previously put into conversation Combining history of science church history science and religion history of navigation and historiography this book gives the most updated explanation of the origin of the flat error finding paradoxes and unexpected answers along the way to understand the past and to reflect on some current approaches in science and religion [A Structural Commentary on the So-Called Antilegomena](#) Kalina Wojciechowska, Mariusz Rosik, 2024-06-17 The structural approach facilitates exposure of the elements of eschatological teaching characteristic of 2 Peter s author with its correct or incorrect interpretation Narratives drawn from Jewish tradition aim to show two attitudes towards the announcement of destruction a positive attitude signifying salvation and a negative attitude signifying annihilation This pattern is transferred to the attitude towards prophetic and apostolic eschatological teaching Part 1 of the commentary 2 Pet 1 2 focuses on the misinterpretation of this teaching by false teachers and their followers Their eschatological scepticism is ridiculed and their grim fate described As the starting point for this description and Peter s whole line of argumentation 2 Pet 2 3b is taken the thesis is that God s inaction is only apparent while judgment and punishment are inevitable although only God knows when they will be executed Part 2 of the commentary 2 Pet 3 focuses on the proper interpretation of this teaching and on laying out the principles of the letter author s hermeneutics This hermeneutic construes texts from Jewish tradition as foreshadowing and typologies of eschatological events In explaining the principles of his hermeneutic the letter s author drew on the creation story which Jewish apocalypticism read inversely to mark that the eschatological hermeneutics is rooted in tradition The starting point of Peter s line of argumentation was taken to be 2 Pet 3 5 7 with its thesis of God s creative and destructive word and God s sovereign will regarding the preservation of

creation and the appointment of the time of judgement This thesis explains the apparent lack of divine action which was also a major concern in Part 1 of the commentary 2 Pet 1 2 **The Ante-Nicene Fathers** Reverend Alexander Roberts,2007-05-01 One of the first great events in Christian history was the Council of Nicaea in 325 AD convened to organize Christian sects and beliefs into a unified doctrine The great Christian clergymen who wrote before this famous event are referred to as the Ante Nicenes and the Apostolic Fathers and their writings are collected here in a ten volume set The Ante Nicenes lived so close to the time of Christ that their interpretations of the New Testament are considered more authentic than modern voices But they are also real and flawed men who are more like their fellow Christians than they are like the Apostles making their words echo in the ears of spiritual seekers In Volume VII of the 10 volume collected works of the Ante Nicenes first published between 1885 and 1896 readers will find the writings of Lactantius Venantius Asterius Urbanus Victorinus and Dionysius This volume also contains writing unattributed to any author but nonetheless considered of great value These writings include The Teaching of the Twelve Apostles Constitutions of the Holy Apostles The Second Epistle of Clement The Nicene Creed and Early Liturgies *Montaigne's Annotated Copy of Lucretius* Michael Andrew Screech,1998 Montaignes samtida 1564 marginalanteckningar i hans exemplar av De rerum natura ed D Lambinus Paris 1563 The Vices of Learning Sari Kivisto,2014-05-09 In The Vices of Learning Morality and Knowledge at Early Modern Universities Sari Kivist examines scholarly vices in the late Baroque and early Enlightenment periods Moral criticism of the learned was a favourite theme of Latin dissertations treatises and satires written in Germany ca 1670 1730 Works on scholarly pride logomachy curiosity and other vices kept the presses running at German Protestant universities as well as farther north Kivist shows how scholars constructed fame and how the process involved various means of producing celebrity The book industry plagiarism and impressive titles were all labelled dishonest means of advancing a career In The Vices of Learning Kivist argues that scholarly ethics was an essential part of the early modern intellectual framework *Suicide and Euthanasia* B.A. Brody,2013-04-17 **Ante-Nicene Fathers: Translations of the Writings of the Fathers Down to A.D. 325, Volume 7** Alexander Roberts,James Donaldson,A. The Cambridge Companion to Medieval Jewish Philosophy Daniel H. Frank, Oliver Leaman, 2003-09-11 From the ninth to the fifteenth centuries Jewish thinkers living in Islamic and Christian lands philosophized about Judaism Influenced first by Islamic theological speculation and the great philosophers of classical antiquity and then in the late medieval period by Christian Scholasticism Jewish philosophers and scientists reflected on the nature of language about God the scope and limits of human understanding the eternity or createdness of the world prophecy and divine providence the possibility of human freedom and the relationship between divine and human law Though many viewed philosophy as a dangerous threat others incorporated it into their understanding of what it is to be a Jew This Companion presents all the major Jewish thinkers of the period the philosophical and non philosophical contexts of their thought and the interactions between Jewish and non Jewish philosophers It is a comprehensive introduction to a vital period of Jewish intellectual history
