Book Becomes:

When your book becomes your world. Life is a Story - story.one Nomi Tso,2024-09-04 The story follows a young writer who begins to craft a novel about Sereta a city steeped in ancient architecture and cyberpunk allure What starts as a creative escape quickly becomes something more when she finds herself in the very world she s been writing about The once fictional city becomes her reality and the characters she created become her companions allies and even potential enemies This book questions the very nature of reality asking whether the worlds we create in our minds are as real as the ones we inhabit and whether we have the courage to change the narratives that define us when the only certainty is that nothing is ever truly as it seems

The Romance of Flamenca E. D. Blodgett,1995 Variouslly described as a comedy of manners a psychological romance and a type of fabliau the 13th century narrative Flamenca is the best medieval romance written in Occitan Its uniqueness springs from qualities that anticipate the preoccupations of modern day narrative Not content with being a love story fraught with risk and intrigue the poem is layered with responses to the troubadour tradition of love and poetry as well as the Bible and the classics Though among the most bookish of romances its tone is invariably ironic comic and satirical This playfulness may be measured by the variety and vehemence of critical response to the poem Is it a vindication of the troubadour ideal a mockery of the Church a satire on jealous husbands or an undermining of the ideals that romance is said to inscribe Or is it all of these elements held in suspense The introduction confronts these questions provided by publisher **Publications** ,1897

Victims of the Book François Proulx,2019-11-08 Victims of the Book uncovers a long neglected but once widespread subgenre the fin de si cle novel of formation in France Novels about and geared toward adolescent male readers were imbued with a deep worry over young Frenchmen s masculinity as evidenced by titles like Crise de jeunesse Youth in Crisis 1897 La Crise virile Crisis of Virility 1898 La Vie st rile A Sterile Life 1892 and La Mortelle Impuissance Deadly Impotence 1903 In this book Fran ois Proulx examines a wide panorama of these novels many of which have rarely been studied as well as polemical essays pedagogical articles and medical treatises on the perceived threats posed by young Frenchmen s reading habits Against this cultural backdrop he illuminates all that was at stake in representations of the male reader by prominent novelists of the period including Jules Vall s Paul Bourget Maurice Barr s Andr Gide and Marcel Proust

In the final decades of the nineteenth century social commentators insistently characterized excessive reading as an emasculating illness that afflicted French youth. Fin de siècle writers responded to this pathologization of reading with a profusion of novels addressed to young male readers paradoxically proposing their own novels as potential cures. In the early twentieth century this corpus was critically revisited by a new generation of writers. *Victims of the Book* shows how Gide and Proust in particular reworked the fin de siècle paradox to subvert cultural norms about literature and masculinity proposing instead a queer pact between writer and reader.

Queer Roots for the Diaspora Jarrod Hayes, 2016-08-11 Employing rootedness as a way of understanding identity has increasingly been subjected to acerbic political and theoretical critiques. Politically roots narratives have been criticized for attempting to police identity through a politics of purity excluding anyone who doesn't share the same narrative. Theoretically a critique of essentialism has led to a suspicion against essence and origins regardless of their political implications. The central argument of *Queer Roots for the Diaspora* is that in spite of these debates ultimately the desire for roots contains the roots of its own deconstruction. The book considers alternative root narratives that acknowledge the impossibility of returning to origins with any certainty welcome sexual diversity acknowledge their own fictionality reveal that even a single collective identity can be rooted in multiple ways and create family trees haunted by the queer others. Patrilineal genealogy seems to marginalize. The roots narratives explored in this book simultaneously assert and question rooted identities within a number of diasporas: African, Jewish, and Armenian. By looking at these together one can discern between the local specificities of any single diaspora and the commonalities inherent in diaspora as a global phenomenon. This comparatist interdisciplinary study will interest scholars in a diversity of fields including diaspora studies, postcolonial studies, LGBTQ studies, French and Francophone studies, American studies, comparative literature, and literary theory.

Absorbing Perfections Moshe Idel, 2008-10-01 In this wide ranging discussion of Kabbalah from the mystical trends of medieval Judaism to modern Hasidism one of the world's foremost scholars considers different visions of the nature of the sacred text and of the methods to interpret it. Moshe Idel takes as a starting point the fact that the postbiblical Jewish world lost its geographical center with the destruction of the temple and so was left with a textual center, the Holy Book. Idel argues that a text oriented religion produced language centered forms of mysticism. Against this background the author demonstrates how various Jewish mystics amplified the content of the Scriptures so as to include everything the world or God for example. Thus the text becomes a major realm for contemplation and the interpretation of the text frequently becomes an encounter with the deepest realms of reality. Idel delineates the particular hermeneutics belonging to Jewish mysticism, investigates the progressive filling of the text with secrets and hidden levels of meaning, and considers in detail the various interpretive strategies needed to decodify the arcane dimensions of the text.
