number of people identifying as spiritual but not religious tend to focus on the past century. But the SBNR phenomenon and the values that underlie it may be older than Christianity itself. Michael Horton reveals that the hallmarks of modern spirituality—autonomy, individualism, utopianism, and more—have their foundations in Greek philosophical religion. Horton makes the case that the development of the shaman figure in the Axial Age, particularly its iteration among Orphists, represented a divine self. One must realize the divinity within the self to break free from physicality and become one with a panentheistic unity. Time and time again, this tradition of divinity hiding in nature has arisen as an alternative to monotheistic submission to a god who intervenes in creation. This first volume traces the development of a utopian view of the human individual, a divine soul longing to break free from all limits of body, history, and the social and natural world. When the second and third volumes are complete, students and scholars will consult *The Divine Self* as the authoritative guide to the spiritual but not religious tendency as a recurring theme in Western culture from antiquity to the present. **Catalog of Copyright**

Entries. Third Series Library of Congress. Copyright Office, 1954. Includes Part 1. Number 2. Books and Pamphlets Including Serials and Contributions to Periodicals. *Making Americans* Gary D. Schmidt, 2013-12. *Making Americans* is a study of a time when the authors and illustrators of children's books consciously set their eyes on national and international sights with the hope of bringing the next generation into a full sense of citizenship. Schmidt examines the literature for young people published during a momentous period in our nation's past and documents in detail its role as an instrument of nation building and social reform. A thought-provoking contribution to our understanding of children's books as cultural transmitters and transformers. *Fortitudine*, 1983. *Alhambra* Michael Anthony Orozco, With Images from the Alhambra Historical Society, 2012. Known as the Gateway to the San Gabriel Valley, the land that would eventually become Alhambra was bought by pioneer Benjamin D. Wilson after he decided to abandon a trip to China in 1841. In 1873 the Southern Pacific Railroad built a line directly through the area and brought with it many settlers, ushering in the Boom of the 1880s. The community struggled through the 1890s as the boom went bust, but the residents looked ahead to the 20th century with great optimism. Their enthusiasm paid off on July 11, 1903, when Alhambra was incorporated as a city. In 1915 the city became one of the first chartered cities in Southern California. Throughout the 20th century the city of Alhambra grew by leaps and bounds, and such expansion continues to this day. *Catalog of Copyright Entries. Part 1. [B] Group 2. Pamphlets, Etc.
