The Oxford Handbook of the Science of Science Communication Kathleen Hall Jamieson, Dan M. Kahan, Dietram Scheufele, 2017 On topics from genetic engineering and mad cow disease to vaccination and climate change this Handbook draws on the insights of 57 leading science of science communication scholars who explore what social scientists know about how citizens come to understand and act on what is known by science Shattered, Cracked, Or Firmly Intact? Farida Jalalzai, 2013-03-28 How do men's and women's paths to political office differ Once in office are women's powers more constrained than those of men The number of women in executive leadership positions has grown substantially over the past five decades and women now govern in vastly different contexts around the world But their climbs to such positions don't necessarily correspond with social status and the existence of gender equity In *Shattered Cracked or Firmly Intact* Farida

Jalalzai outlines important patterns related to women executive s paths powers and potential impacts In doing so she combines qualitative and quantitative analysis and explores both contexts in which women successfully gained executive power and those in which they did not The glass ceiling has truly shattered in Finland where to date three different women have come to executive power only cracked in the United Kingdom with Margaret Thatcher as the only example of a female prime minister and remains firmly intact in the United States While women appear to have made substantial gains they still face many obstacles in their pursuit of national executive office Women compared to their male counterparts more often ascend to relatively weak posts and gain offices through appointment as opposed to popular election When dominant women presidents do rise through popular vote they still almost always hail from political families and from within unstable systems Jalalzai asserts the importance of institutional features in contributing positive representational effects for women national leaders Her analysis offers both a broad understanding of global dynamics of executive power as well as particulars about individual women leaders from every region of the globe over the past fifty years Viewing gender as embedded within institutions and processes this book provides an unprecedented and comprehensive view of the complex contradictory and multifaceted dimensions of women s national leadership
