Minteer, Harry Greene, 2023-09-12 Zoos have always had a troubled relationship to what is considered the real wild Even the most immersive and naturalistic zoos critics maintain are inherently contrived and inauthentic environments Zoo animals diet care and reproduction are under pervasive human control with natural phenomena like disease and death kept mostly hidden from public view Furthermore despite their growing commitment to conservation and education zoos are entertainment providers that respond to visitors expectations and preferences What would a wilder zoo one that shows the public a wider range of ecological processes look like Is it achievable or even desirable What roles can or should zoos play in encouraging humanity to find meaningful connections with wild animals and places *A Wilder Kingdom* is a provocative and reflective examination of the relationship between zoos and the wild It gathers a premier set of multidisciplinary voices from animal studies and psychology to evolutionary biology and environmental journalism to consider the possibilities and challenges of making zoos wilder In so doing the contributors offer new insights into the future of the wild beyond zoos and our relationship to wild species and places across the landscape in an increasingly human dominated era *International Symposium on History of Machines and Mechanisms* Marco Ceccarelli, 2007-11-23 The HMM2004 International Symposium on History of Machines and Mechanisms is the second event of a series that has been started in 2000 as main activity of the IFToMM Permanent Commission for History of MMS Mechanism and Machine Science The aim of the HMM Symposium is to be a forum to exchange views opinions and experiences on History of MMS from technical viewpoints in order to track the past but also to look at future developments in MMS The HMM Symposium Series is devoted to the technical aspects of historical developments and therefore it has been addressed mainly to the IFToMM Community In fact most the authors of the contributed papers are experts in MMS and related topics This year HMM Symposium came back to Cassino after the challenging first event in 2000 The HMM2004 International Symposium on History of Machines and Mechanisms was held at the University of Cassino Italy from 12 to 15 May 2004 These Proceedings contain 29 papers by authors from all around the world These papers cover the wide field of the History of Mechanical Engineering and particularly the History of MMS The contributions address mainly technical aspects of historical
