Crayon Miscellany:

Crayon Miscellany Washington Irving, 1870 **The Crayon Miscellany** Washington Irving, 2015-06-25 Excerpt from *The Crayon Miscellany* As I saw the last blue line of my native land fade away like a cloud in the horizon it seemed as if I had closed one volume of the world and its concerns and had time for meditation before I opened another That land too now vanishing from my view which contained all that was most dear to me in life what vicissitudes might occur in it what changes might take place in me before I should visit it again Who can tell when he sets forth to wander whither he may be driven by the uncertain currents of existence or when he may return or whether it may ever be his lot to revisit the scenes of his childhood Such were the dubious thoughts that passed like a shade across my mind many years since as I lost sight of my native land on my voyage to Europe Yet I had every reason for bright anticipations About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Crayon Miscellany** Washington Irving, 1879 *The Crayon miscellany* Washington Irving, 1896 **The Crayon miscellany** Washington Irving, 1865 *Crayon Miscellany* Washington Irving, 1991 **The Crayon Miscellany** Irving Washington, 2018-11-10 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Cattle Country** Kathryn Cornell Dolan, 2021-06 As beef and cattle production progressed in nineteenth century America the cow emerged as the nation's representative food animal and earned a culturally prominent role in the literature of the day In *Cattle Country* Kathryn Cornell Dolan examines the role cattle played in narratives throughout the century to show how the struggles within U S food culture mapped onto society's broader struggles with colonization environmentalism U S identity ethnicity and industrialization Dolan examines diverse texts from Native American African American Mexican American and white authors that showcase the zeitgeist of anxiety surrounding U S identity as cattle gradually became an industrialized food source altering the country's culture while exacting a high cost to humans animals and the land From

Henry David Thoreau's descriptions of indigenous cuisines as a challenge to the rising monoculture to Washington Irving's travel narratives that foreshadow cattle replacing American bison in the West to Mar a Amparo Ruiz de Burton's use of cattle to connect race and imperialism in her work authors' preoccupations with cattle underscored their concern for resource depletion habitat destruction and the wasteful overproduction of a single breed of livestock Cattle Country offers a window into the ways authors worked to negotiate the consequences of the development of this food culture and by excavating the history of U S settler colonialism through the figure of cattle sheds new ecocritical light on nineteenth century literature

Making America / Making American Literature ,2021-11-01 If 1776 heralds America's Birth of the Nation so too it witnesses the rise of a matching and overlapping American Literature For between the 1770s and the 1820s American writing moves on from the ancestral Puritanism of New England and Virginia though not as yet into the American Renaissance so strikingly called for by Ralph Waldo Emerson Even so the concourse of voices which arise in this period that is between and including Benjamin Franklin and James Fenimore Cooper mark both a key transitional literary generation and yet one all too easily passed over in its own imaginative right This collection of fifteen specially commissioned essays seeks to establish new bearings a revision of one of the key political and literary eras in American culture Not only are Franklin and Cooper themselves carefully re-evaluated in the making of America's new literary republic but figures like Charles Brockden Brown Washington Irving Philip Freneau William Cullen Bryant the other Alexander Hamilton and the playwrights Royall Tyler and William Dunlop Other essays take a more inclusive perspective whether American epistolary fiction a first generation of American women authored fiction the public discourse of The Federalist Papers the rise of the American periodical or the founding African American generation of Phillis Wheatley What unites all the essays is the common assumption that the making of America was as much a matter of creating its national literature as the making of American literature was a matter of shaping a national identity [The National Union Catalog, Pre-1956 Imprints](#) Library of Congress, American Library Association. Brennan, Marcelo Rougier, 2009-01-01 In mid twentieth century Latin America there was a strong consensus between Left and Right Communists working under the directives of the Third International nationalists within the military interested in fostering industrialization and populists about the need to break away from the colonial legacies of the past and to escape from the constraints of the international capitalist system Even though they disagreed about the desired end state Argentines of all political stripes could agree on the need for economic independence and national sovereignty which would be brought about through the efforts of a national bourgeoisie James Brennan and Marcelo Rougier aim to provide a political history of this

national bourgeoisie in this book Deploying an eclectic methodology combining aspects of the new institutionalism the new economic history Marxist political economy and deep research in numerous rarely consulted archives into what they dub the new business history the authors offer the first thorough empirically based history of the national bourgeoisie s peak association the Confederaci n General Econ mica CGE and of the Argentine bourgeoisie s relationship with the state They also investigate the relationship of the bourgeoisie to Per n and the Peronist movement by studying the history of one industrial sector the metalworking industry and two regional economies one primarily industrial C rdoba and another mostly agrarian Chaco with some attention to a third Tucum n a cane cultivating and sugar refining region sharing some features of both While spanning three decades the book concentrates most on the years of Peronist government 1946 55 and 1973 76
