Creating Diversity Capital Transnational Migrants In Montreal Washington And Kyiv:

Creating Diversity Capital Blair A. Ruble, 2005-10-31 How do urban communities accommodate this century's massive transnational migrations? This volume seeks clues about how a city's capacity for urban social sustainability, termed diversity capital, may expand under such conditions. The author Blair A. Ruble examines three cities now receiving large numbers of new immigrants that have long histories of division into just two communities of language and race: Montreal, Washington, and Kyiv. The growing presence of individuals who do not fit into long-standing group boundaries fundamentally alters the social, cultural, and political contours of traditionally bifurcated metropolitan regions, writes Ruble. How does that presence change perceptions and institutions? *Creating Diversity Capital* approaches this topic in terms of how the new immigrants live, work, and go to school, and describes how the politics in each of these cities has changed or failed to change in the face of the new demographics. A special feature is the use of important new information on Kyiv from a set of surveys conducted by the Kennan Institute in 2001.

2 *Establishing a New Right to the Ukrainian City*, 2008 **Migration, Homeland, and Belonging in Eurasia** Cynthia J. Buckley, Blair A. Ruble, Erin Trough Hofmann, 2008-09-09 Migration, a force throughout the world, has special meanings in the former Soviet lands. Soviet successor countries, each with strong ethnic associations, have pushed some racial groups out and pulled others back home. Forcible relocations of the Stalin era were reversed, and areas previously closed for security reasons were opened to newcomers. These countries represent a fascinating mix of the motivations and achievements of migration in Russia and Central Asia. *Migration, Homeland, and Belonging in Eurasia* examines patterns of migration and sheds new light on government interests, migrant motivations, historical precedents, and community identities. The contributors come from a variety of disciplines: political science, sociology, history, and geography. Initial chapters offer overall assessments of contemporary migration debates in the region. Subsequent chapters feature individual case studies that highlight continuity and change in migration debates in imperial and Soviet periods. Several

chapters treat specific topics in Central Eurasia and the Far East such as the movement of ethnic Kazakhs from Mongolia to Kazakhstan and the continuing attractiveness to migrants of supposedly uneconomical cities in Siberia Human Migration in the Arctic Satu Uusiantti, Nafisa Yeasmin, 2019-03-06 This book discusses the past present and future of migration in the Arctic It addresses many of the critical dynamics of immigration and migration and emerging challenges that now confront the region What can be learned from the past What are the challenges and solutions of tomorrow Migration in the Arctic is a fascinating and topical but less studied phenomenon that influences various societal levels such as education The book introduces research on economic social and educational perspectives of migration in the region It provides analysis of minorities immigrating to the North without neglecting the viewpoint of indigenous people of the Arctic Contributors comprise researchers from various Arctic countries Multidisciplinary research provides a unique viewpoint to the theme The book is suitable for researchers and teachers of higher education as well as anyone interested in Arctic studies and immigration Worker-Mothers on the Margins of Europe Leyla J. redevelopment initiatives As a result many of these neighborhoods are losing their special character as safe havens for sexual and gender minorities Urban planners and municipal officials have sometimes ignored the transformation of these neighborhoods and at other times been complicit in these changes Planning and LGBTQ Communities brings together experienced planners administrators and researchers in the fields of planning and geography to reflect on the evolution of urban neighborhoods in which LGBTQ populations live work and play The authors examine a variety of LGBTQ residential and commercial areas to highlight policy and planning links to the development of these neighborhoods Each chapter explores a particular urban context and asks how the field of planning has enabled facilitated and or neglected the specialized and diverse needs of the LGBTQ population A central theme of this book is that urban planners need to think beyond queer space because LGBTQ populations are more diverse and dispersed than the white gay male populations that created many of the most visible gayborhoods The authors provide practical guidance for cities and citizens seeking to strengthen neighborhoods that have an explicit LGBTQ focus as well as other areas that are LGBTQ friendly They also encourage broader awareness of the needs of this marginalized population and the need to establish more formal linkages between municipal government and a range of LGBTQ groups Planning and LGBTQ Communities also adds useful material for graduate level courses in planning theory urban and regional theory planning for multicultural cities urban geography and geographies of gender and sexuality
