States. Supreme Court, 2014      Who are We? Samuel P. Huntington, 2004 Blockade is the story of a long running trade battle at sea between Britain and Germany during the First World War Each country fought for survival but this book focuses on the story of the Northern Patrol and the 10th Cruiser Squadron The Royal Navy's role during World War I denying Germany access to the sea trade and vital resources was crucial to helping Britain win the war on the Western Front The Northern Blockade located across the inhospitable waters between Iceland and Scotland was to bring the German economy to its knees and destroy her home front morale Likewise the Royal Navy's success in negating Germany's attacks on British commerce prevented much suffering in Britain Steve Dunn vividly describes the final destruction of German surface vessel commerce warfare He examines the American reaction to the British naval blockade and to Germany's war on trade as well as Germany's treatment of American sailors taken prisoner Dunn also considers changes in strategy employed by both sides Blockade brings to life the experiences of those who manned the blockade and creates a vivid picture of the dangers of duty in this highly significant but overlooked aspect of World War I      *The Source of the River* Douglas S. Massey, Camille Z. Charles, Garvey Lundy, Mary J. Fischer, 2011-06-27 African Americans and Latinos earn lower grades and drop out of college more often than whites or Asians Yet thirty years after deliberate minority recruitment efforts began we still don't know why In *The Shape of the River* William Bowen and Derek Bok documented the benefits of affirmative action for minority students their communities and the nation at large But they also found that too many failed to achieve academic success In *The Source of the River* Douglas Massey and his colleagues investigate the roots of minority underperformance in selective colleges and universities They explain how such factors as neighborhood family peer group and early schooling influence the academic performance of students from differing racial and ethnic origins and differing social classes Drawing on a major new source of data the National Longitudinal Survey of Freshmen the authors undertake a comprehensive analysis of the diverse pathways by which whites African Americans Latinos and Asians enter American higher education Theirs is the first study to document the different characteristics that students bring to campus and to trace out the influence of these differences on later academic performance They show that black and Latino students do not enter college disadvantaged by a lack of self esteem In fact overconfidence is more common than low self confidence among some minority students Despite this minority students are adversely affected by racist stereotypes of intellectual inferiority Although academic preparation is the strongest predictor of college performance shortfalls in academic preparation are themselves largely a matter of socioeconomic disadvantage and racial segregation Presenting important new findings *The Source of the River* documents the ongoing power of race to shape the life chances of America's young people even among the most talented and able
