*Creating Faulkner's Reputation* Lawrence H. Schwartz, 1988 A systematic approach to using currently available techniques of artificial intelligence to develop computer programs for commercial use From basic concepts of knowledge engineering through managing a complete system Schwartz English Montclair State College NJ asks How was it possible for a writer out of print and generally ignored in the early 1940s to be proclaimed a literary genius in 1950 His research illuminates the process by which Faulkner was chosen to be revived as an important American nationalist writer during the heating up of the Cold War Annotation copyrighted by Book News Inc Portland OR

**Feminism and the Politics of Literary Reputation** Charlotte Templin, 1995 Soon after its publication in 1973 *Fear of Flying* brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong's novel embraced the politics of the women's liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong's books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary life of *Fear of Flying* the invocation of a high culture low culture dichotomy to discredit *How to Save Your Own Life* the anatomy of literary success with Fanny Jong's reception in a postfeminist age and the trivialization of Jong's works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer *Feminism and the Politics of Literary Reputation* provides an excellent case study for the literary reception of women writers within a broad cultural context Templin's analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores

[Faulkner's Marginal Couple](#) John N. Duvall, 2014-07-03 Is William Faulkner's fiction built on a fundamental dichotomy of outcast individual versus the healthy agrarian community The New Critics of the 1930s advanced this view and it has shaped much Faulkner criticism However in *Faulkner's Marginal Couple* John Duvall posits the existence of another possibility alternative communities formed by deviant couples These couples who violate normal gender roles and behaviors challenge the either/or view of Faulkner's world The study treats in detail the novels *Light in August* *The Wild Palms* *Sanctuary* *Pylon* and *Absalom Absalom* as well as several of Faulkner's short stories In discussing each work Duvall challenges the traditional view that

Faulkner created active men who follow a code of honor and passive women who are close to nature. Instead he charts the many instances of men who are nurturing and passive and women who are strong and sexually active. These alternative couples undermine a common view of Faulkner as an upholder of Southern patriarchal values, thus countering the argument that Faulkner's fiction is essentially misogynist. This new approach, drawing on semiotics, feminism, and Marxism, makes Faulkner more accessible to readers interested in ideological analysis. It also stresses the intertextual connections between Faulkner's Yoknapatawpha and non-Yoknapatawpha fiction. Perhaps most importantly, it uncovers what the New Criticism concealed, namely that Faulkner's fiction traces the full androgynous spectrum of the human condition.

[A Book Worth Reading](#), *Modernism and the Culture of Celebrity* Aaron Jaffe, 2005-03-17. In this 2005 book, Jaffe examines the interactions of modernist literary fame and celebrity culture in the early twentieth century.

[The Cambridge Companion to the Modernist Novel](#) Morag Shiach, 2007-04-19. The novel is modernism's most vital and experimental genre. With a chronology and guide to further reading, this 2007 Companion is an accessible and informative overview of the genre.

[Telling America's Story to the World](#) Harilaos Stecopoulos, Harry Stecopoulos, 2023. Telling America's Story to the World is the first study to demonstrate the important role that US cultural diplomacy played in the making of postwar US literature. It does so by discussing how the work of Ralph Ellison, Robert Frost, William Faulkner, Langston Hughes, and Maxine Hong Kingston was used to demonstrate American cultural identity.

**Land of Tomorrow** Benjamin Mangrum, 2019. Land of Tomorrow sheds new light on changes within American liberalism after the Second World War. The postwar period's fiction, criticism, philosophy, and popular culture circulated and authorized political sensibilities that opposed social democratic reform in the United States.

**Superfluous Southerners** John J. Langdale, III, 2012-11-01. In *Superfluous Southerners*, John J. Langdale III tells the story of traditionalist conservatism and its boundaries in twentieth-century America. Because this time period encompasses both the rise of the modern conservative movement and the demise of southern regional distinctiveness, it affords an ideal setting both for observing the potentiality of American conservatism and for understanding the fate of the traditionalist man of letters. Langdale uses the intellectual and literary histories of John Crowe Ransom, Donald Davidson, and Allen Tate, the three principal contributors to the Agrarian manifesto *I'll Take My Stand*, and of their three most remarkable intellectual descendants, Cleanth Brooks, Richard Weaver, and Melvin Bradford, to explore these issues. Langdale begins his study with some observations on the nature of American exceptionalism and the intrinsic barriers which it presents to the traditionalist conservative imagination. While works like Louis Menand's *The Metaphysical Club* have traced the origins of modern pragmatic liberalism during the late nineteenth century, the nature of conservative thought in postbellum America remains less completely understood. Accordingly, Langdale considers the origins of the New Humanism movement at the turn of the twentieth century, then turning to the manner in which midwesterners Irving Babbitt and Paul Elmer Moore stirred the imagination of the southern Agrarians during the 1920s. After the publication of *I'll Take My Stand* in 1930, Agrarianism

splintered into three distinct modes of traditionalist conservatism John Crowe Ransom sought refuge in literary criticism Donald Davidson in sectionalism and Allen Tate in an image of the religious wayfarer as a custodian of language Langdale traces the expansion of these modes of traditionalism by succeeding generations of southerners Following World War II Cleanth Brooks further refined the tradition of literary criticism while Richard Weaver elaborated the tradition of sectionalism However both Brooks and Weaver distinctively furthered Tate's notion that the integrity of language remained the fundamental concern of traditionalist conservatism Langdale concludes his study with a consideration of neoconservative opposition to M E Bradford's proposed 1980 nomination as head of the National Endowment for the Humanities and its significance for the southern man of letters in what was becoming postmodern and postsouthern America Though the post World War II ascendance of neoconservatism drastically altered American intellectual history the descendants of traditionalism remained largely superfluous to this purportedly conservative revival which had far more in common with pragmatic liberalism than with normative conservatism

*Contemporary Reconfigurations of American Literary Classics* Betina Entzminger, 2013-03-05 The number and popularity of novels that have overtly reconfigured aspects of classic American texts suggests a curious trend for both readers and writers an impulse to retell and reread books that have come to define American culture This book argues that by revising canonical American literature

contemporary American writers are re writing an American myth of origins creating one that corresponds to the contemporary writer s understanding of self and society Informed by cognitive psychology evolutionary literary criticism and poststructuralism Entzinger reads texts by canonical authors Poe Hawthorne Melville Alcott Twain Chopin and Faulkner and by the contemporary writers that respond to them In highlighting the construction and cognitive function of narrative in their own and in their antecedent texts contemporary writers highlight the fact that such use of narrative is universal and essential to human beings This book suggests that by revising the classic texts that compose our cultural narrative contemporary writers mirror the way human individuals consistently revisit and refigure the past through language via self narration in order to manage and understand experience

Gender, Race, and Mourning in American Modernism Greg Forster,2011-04-14 American modernist writers engagement with changing ideas of gender and race often took the form of a struggle against increasingly inflexible categories Greg Forster interprets modernism as an effort to mourn a form of white manhood that fused the masculine with the feminine He argues that modernists were engaged in a poignant yet deeply conflicted effort to hold on to socially feminine and racially marked aspects of identity qualities that the new social order encouraged them to disparage Examining works by F Scott Fitzgerald Ernest Hemingway William Faulkner and Willa Cather

Forster shows how these writers shared an ambivalence toward the feminine and an unease over existing racial categories that made it difficult for them to work through the loss of the masculinity they mourned *Gender Race and Mourning in American Modernism* offers a bold reading of canonical modernism in the United States [What America Read](#) Gordon Hutner, 2009-11-05 Despite the vigorous study of modern American fiction today's readers are only familiar with a partial shelf of a vast library Gordon Hutner describes the distorted canonized history of the twentieth century American novel as a record of modern classics insufficiently appreciated in their day but recuperated by scholars in order to shape the grand tradition of Hemingway Fitzgerald and Faulkner In presenting literary history this way Hutner argues scholars have forgotten a rich treasury of realist novels that recount the story of the American middle class's confrontation with modernity Reading these novels now offers an extraordinary opportunity to witness debates about what kind of nation America would become and what place its newly dominant middle class would have and Hutner suggests should also lead us to wonder how our own contemporary novels will be remembered [Global Faulkner](#) Annette Trefzer, Ann J. Abadie, 2010-11-12 Today debates about globalization raise both hopes and fears But what about during William Faulkner's time Was he aware of worldwide cultural historical and economic developments Just how interested was Faulkner in the global scheme of things The contributors to *Global Faulkner* suggest that a global context is helpful for recognizing the broader international meanings of Faulkner's celebrated regional landscape Several scholars address how the flow of capital from the time of slavery through the Cold War period in his fiction links Faulkner's South with the larger world Other authors explore the literary similarities that connect Faulkner's South to Latin America Africa Spain Japan and the Caribbean In essays by scholars from around the world Faulkner emerges in trans Atlantic and trans Pacific contexts in a pan Caribbean world and in the space of the Middle Passage and the African Atlantic The Nobel laureate's fiction is linked to that of such writers as Gabriel Garc a M rquez Wole Soyinka Miguel de Cervantes and Kenji Nakagami *Paris Hollywood* Peter Wollen, 2002-11-17 Peter Wollen's book is based on the premise that there are no fixed ways of writing about film
