Confucian Propriety and Ritual Learning Geir Sigurðsson, 2015-01-08 Honorable Mention 2018 Outstanding Book Award presented by the Society of Professors of Education Geir Sigurðsson offers a reconsideration of li often translated as ritual or ritual propriety one of the most controversial concepts in Confucian philosophy Strong associations with the Zhou period during which Confucius lived have put this concept at odds with modernity's emphasis on progressive rationality and liberation from the yoke of tradition Sigurðsson notes how the Confucian perspective on learning provides a more balanced understanding of li He goes on to discuss the limitations of the critique of tradition and of rationality's claim to authority referencing several Western sources notably Hans Georg Gadamer John Dewey and Pierre Bourdieu An exposition of the ancient Chinese worldview of time and continuous change further points to the inevitability of li's adaptable and flexible nature Sigurðsson argues that Confucius and his immediate followers did not endorse a program of returning to the Zhou tradition but rather of reviving the spirit of Zhou culture involving active and personalized participation in tradition's sustention and evolution

The Oxford Handbook of Ritual and Worship in the Hebrew Bible Samuel E. Balentine, 2020 The conceit in the title of this volume is that ritual however expansively it may be defined is ineluctably tethered to religion and worship It has a primal connection to the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished The focus of this Handbook is on ritual and worship from the perspective of biblical studies particularly on the Hebrew Bible and its ancient Near Eastern antecedents Within this context attention will be given to the development of ideas in Jewish Christian and Muslim thinking but only insofar as they connect with or extend the trajectory of biblical precedents The volume reflects a wide range of analytical approaches to ancient texts inscriptions iconography and ritual artifacts It examines the social history and cultural knowledge encoded in rituals and explores the way rituals shape and are shaped by politics economics ethical imperatives and religion itself Toward this end the volume is organized into six major sections Historical Contexts Interpretive Approaches Ritual Elements participants places times objects practices Underlying Cultural and Theological Perspectives History of Interpretation Social Cultural Functions and Theology and Theological Heritage
