

CREATING SOCIAL TRUST IN POST-SOCIALIST TRANSITION

EDITED BY JÁNOS KORNAI, BO ROTHSTEIN,
AND SUSAN ROSE-ACKERMAN

Creating Social Trust In Postsocialist Transition

Bogdan Urziceanu

Creating Social Trust In Postsocialist Transition:

Creating Social Trust in Post-Socialist Transition J. Kornai, B. Rothstein, S. Rose-Ackerman, 2004-06-25 Beneficial social and economic exchange relies on a certain level of trust But trust is a delicate matter not least in the former socialist countries where illegitimate behaviour by governments made distrust a habit The chapters in this volume analyze the causes and the effects of the lack of social trust in post socialist countries The contributions originated in the Collegium Budapest project on Honesty and Trust Theory and Experience in the Light of the Post Socialist Transition A second volume entitled Building a Trustworthy State in Post Socialist Transition is being published simultaneously **Trust and Entrepreneurship** Hans-Hermann Höhmann, Friederike Welter, 2005-01-01 In this innovative book international scholars investigate trust and its role in relation to the entrepreneurial behaviour of small firms across a variety of institutional and cultural settings Building a Trustworthy State in Post-Socialist Transition J. Kornai, 2015-12-25 Building a Trustworthy State in Post Socialist Transition considers the problems and prospects for creating trustworthy and reliable public institutions in the aftermath of the transition from socialism in Central and Eastern Europe The volume draws on the experience of those who have lived through and studied the transition and contrasts their insights with those of generalist scholars who study government accountability and democracy The contributions originated in the Collegium Budapest project on Honesty and Trust Theory and Experience in the Light of the Post Socialist Transition organized by J nos Kornai and Susan Rose Ackerman A second volume entitled Creating Social Trust in Post Socialist Transition is being published simultaneously **Trust and Transitions** Joseph D. Lewandowski, Milan Znoj, 2009-01-23 Employing a range of empirical and theoretical approaches contributors to this volume examine the nature and function of trust from within the framework of social capital theory The empirically oriented chapters focus on post Communist countries including Serbia and Montenegro Romania and especially the Czech Republic Indeed the collection contains an entire section devoted to analyzing trust and transition in the wake of the velvet revolution The theoretical chapters engage the work of Tocqueville Putnam and Uslaner among others as they seek to clarify and rethink what in fact trust is where trust originates the causal relevance of trust for successful marketization and democratization and the extent to which existing conceptions of social capital can be adequately deployed in diverse contexts With contributions from noted American and Central European political scientists sociologists and philosophers this book presents an illuminating set of contemporary perspectives on the complex role of trust in times of transition **Building Trust and Democracy** Cynthia Michalski Horne, 2017 This volume examines the conditions under which lustration and related transitional justice measures have affected political and social trust building and democratization across twelve countries in Central and Eastern Europe and parts of the Former Soviet Union between 1989 and 2012 Anthropology of Transformation Juraj Buzalka, Agnieszka Pasięka, 2022-10-31 This collection of essays is the result of the joint efforts of colleagues and students of the leading social anthropology and post socialism theorist

Professor Chris Hann With the thirtieth anniversary of the collapse of the Berlin Wall in 1989 as their catalyst the authors reflect upon Chris Hann's lifelong fieldwork in the discipline spanning regions as diverse as East Central Europe Turkey and the Chinese north west The collapse of the Berlin Wall naturally triggered a plethora of analysis and scholarly research Sociocultural anthropology with its focus on ethnographic study and on the gradual evolution of social relations sharply contrasted with the emphasis on dramatic rupture brought about by the 1989 transition Continuing in this tradition this volume through micro level analysis of societal transformation from the post war years to the present day provides an alternative perspective to the neoliberalist views often encountered in the scholarship on political and economic modernisation The more nuanced analysis of social transformations proposed here is a particularly useful tool in the investigation of contemporary issues such as the COVID 19 pandemic the refugee crisis and the rise of right wing populism in Eastern Europe and elsewhere Anthropology of Transformation will be of interest to researchers in the fields of socio cultural anthropology religion and economics Moreover the book's discussion of issues widely discussed beyond the field of academia such as neoliberalism and the welfare state and populist and exclusionary politics will appeal to non specialist readers

Building a Trustworthy State in Post-Socialist Transition, 2004-08-23 Democratization and Market Reform in Developing and Transitional Countries James G. McGann, 2010-01-04 This book explores the pivotal role of think tanks in the democratization and economic reform movements by evaluating their overall effect on the transformation process in developing and transitional countries around the world James G McGann assesses twenty three think tanks located in nine countries and four regions of the world Chile Peru Poland Slovakia South Africa Botswana the Philippines Thailand and Vietnam that have most impacted political and economic transitions in their respective countries The author examines the role they played in the process of democratization and market reform during the late 80s and 90s and identifies the importance of think tanks in these processes by evaluating their overall effect on the policymaking process He argues in the early stages of a transition from an authoritarian regime to an open and democratic society the activities of think tanks are especially critical and they have provided a civil society safety net to support these fragile democracies This book will be of interest to students and scholars of political science democratization development economic development and civil society

Theories of Social Capital Ben Fine, 2010-01-11 Tracing the evolution of social capital since his highly acclaimed contribution of 2001 *Social Capital Versus Social Theory* Ben Fine consolidates his position as the world's leading critic of the concept Fine forcibly demonstrates how social capital has expanded across the social sciences only by degrading the different disciplines and topics that it touches a McDonaldisation of social theory The rise and fall of social capital at the World Bank is critically explained as is social capital's growing presence in disciplines such as management studies and its relative absence in others such as social history Writing with a sharp critical edge Fine not only deconstructs the roller coaster presence of social capital across the social sciences but also draws out lessons on how and how not to do research

Encyclopedia of Human Behavior ,2012-01-31 The Encyclopedia of Human Behavior Second Edition Three Volume Set is an award winning three volume reference on human action and reaction and the thoughts feelings and physiological functions behind those actions Presented alphabetically by title 300 articles probe both enduring and exciting new topics in physiological psychology perception personality abnormal and clinical psychology cognition and learning social psychology developmental psychology language and applied contexts Written by leading scientists in these disciplines every article has been peer reviewed to establish clarity accuracy and comprehensiveness The most comprehensive reference source to provide both depth and breadth to the study of human behavior the encyclopedia will again be a much used reference source This set appeals to public corporate university and college libraries libraries in two year colleges and some secondary schools Carefully crafted well written and thoroughly indexed the encyclopedia helps users whether they are students just beginning formal study of the broad field or specialists in a branch of psychology understand the field and how and why humans behave as we do Named a 2013 Outstanding Academic Title by the American Library Association s Choice publication Concise entries ten pages on average provide foundational knowledge of the field Each article features suggested further readings a list of related websites a 5 10 word glossary and a definition paragraph and cross references to related articles in the encyclopedi Newly expanded editorial board and a host of international contributors from the United States Australia Belgium Canada France Germany Ireland Israel Japan Sweden and the United Kingdom

By Force of Thought János Kornai,2008-09-26 The intellectual autobiography of an economist influential in both command economies and free market economies that discusses his life work and the social and political environment during the Second World War the 1956 Hungarian Revolution and its aftermath and the post socialist transition

From Elections to Democracy Susan Rose-Ackerman,2005 The countries of Central Europe in the first round for admission to the European Union have all established constitutional electoral democracies and market economies However much remains to be done to achieve fully consolidated democratic states This study documents the weaknesses of public oversight and participation in policymaking in Hungary and Poland two of the most advanced countries in the region It discusses five alternative routes to accountability including European Union oversight constitutional institutions such as presidents and courts devolution to lower level governments the use of neo corporatist bodies and open ended participation rights It urges more emphasis on the fifth option public participation Case studies of the environmental movement in Hungary and of student groups in Poland illustrate these general points The book reviews the United States experience of open ended public participation and draws some lessons for the transition countries from the strengths and weaknesses of the American system

Making the European Neighbourhood Policy Work in Moldova: The Local NGOs Contribution Bogdan Urziceanu,2011-12-08 [Building Big Business in Russia](#) Yuko Adachi,2013-09-05 This book examines the development of big business in Russia since the onset of market oriented reform in the early 1990s It explains how privatized post Soviet enterprises many of which made little

sense as business units were transformed into functional firms able to operate in the environment of a market economy It provides detailed case studies of three key companies Yukos Oil Company Siberian Russian Aluminium and Norilsk Nickel all of which played a key role in Russia's economic recovery after 1998 describing how these companies were created run and have developed It shows how Russian businesses during the 1990s routinely relied on practices not entirely compatible with formal rules in particular in the area of corporate governance The book fully explores the critical role played by informal corporate governance practices such as share dilution transfer pricing asset stripping limiting shareholders access to votes and bankruptcy to order as Russian big business developed during the 1990s Unlike other studies on Russian corporate governance this book highlights the ambiguous impact of informal corporate governance practices on the companies involved as commercial entities and suggests that although their use proved costly to Russia's business reputation they helped core groups of owners managers at the time to establish coherent business firms Overall the book shows that we cannot understand the nature of current economic changes in Russia without recognising the crucial role played by informal corporate governance practices in the creation and development of big business in post Soviet Russia

The Construction of Democracy Jorge I. Domínguez, Anthony Jones, 2007-07-06 How should democracies balance the hopes and constraints of their societies with the architecture of their constitutions and institutions to secure freedom promote citizenship and foster prosperity In *The Construction of Democracy* leading scholars from seven different countries and key decision makers from eight come together to analyze the dimensions of democratic design and draw not only practical but feasible recommendations Here citizens politicians and government officials offer valuable insight into the craft of politics with real examples of success and failures from some of the leading policy makers of our time including the president of Portugal former presidents of Brazil and Colombia and a former prime minister of India Drawing on the work of the Club of Madrid's Conference on Democratic Transition and Consolidation the contributors discuss building and sustaining a contemporary democratic state strengthening pluralism and public participation designing effective constitutions confronting economic challenges for new democracies and controlling corruption In a rare instance where the expertise of practical minded scholars is melded with the experience of thoughtful policy makers this volume offers much needed insight to others seeking sensible and effective solutions Contributors Carlos Blanco minister for the reform of the state Venezuela Fernando Henrique Cardoso former president of Brazil Anibal Cavaco Silva president of Portugal António Guterres President of the Council of Ministers of the European Union José Sarney former president of Brazil Antonio Octavio Cintra the Research Service of the Brazilian Chamber of Deputies Rut Diamint Universidad Torcuato Di Tella Buenos Aires Jorge I Domínguez Harvard University Grzegorz Ekiert Harvard University César Gaviria former president of Colombia Anna Grzymala Busse University of Michigan Inder Kumar Gujral former prime minister of India Anthony Jones the Gorbachev Foundation of North America Marcelo Barroso Lacombe the Research Service of the Brazilian Chamber of Deputies Jos Luis Méndez El Colegio de México Andrew Richards Instituto Juan March of the Centro de Estudios Avanzados de Ciencias Sociales Madrid Susan Rose

Ackerman Yale University Richard Simeon University of Toronto Luc Turgeon University of Toronto **How Russia Really Works** Alena V. Ledeneva, 2014-01-15 During the Soviet era blat the use of personal networks for obtaining goods and services in short supply and for circumventing formal procedures was necessary to compensate for the inefficiencies of socialism The collapse of the Soviet Union produced a new generation of informal practices In *How Russia Really Works* Alena V Ledeneva explores practices in politics business media and the legal sphere in Russia in the 1990s from the hiring of firms to create negative publicity about one's competitors to inventing novel schemes of tax evasion and engaging in alternative techniques of contract and law enforcement Ledeneva discovers ingenuity wit and vigor in these activities and argues that they simultaneously support and subvert formal institutions They enable corporations the media politicians and businessmen to operate in the post Soviet labyrinth of legal and practical constraints but consistently undermine the spirit if not the letter of the law The know how Ledeneva describes in this book continues to operate today and is crucial to understanding contemporary Russia **Constitutionalism in Asia in the Early Twenty-First Century** Hongyi Chen, 2014-04-17 A systematic and up to date account of constitutional developments in sixteen Asian countries including analysis from a comparative perspective **Rotten States?** Leslie Holmes, 2006-06-08 Official corruption has become increasingly prevalent around the world since the early 1990s The situation appears to be particularly acute in the post communist states Corruption be it real or perceived is a major problem with concrete implications including a lowered likelihood of foreign investment In *Rotten States* Leslie Holmes analyzes corruption in post communist countries paying particular attention to Bulgaria Hungary Poland and Russia as well as China which Holmes argues has produced through its recent economic liberalization a system similar to post communism As he points out these countries offer useful comparisons they vary in terms of size religious orientation ethnic homogeneity and their approaches to and economic success with the transition from communism Drawing on data including surveys commissioned especially for this study Holmes examines the causes and consequences of official corruption as well as ways of combating it He focuses particular attention on the timing of the recent increase in reports of corruption the relationship between post communism and corruption and the interplay between corruption and the delegitimation and weakening of the state Holmes argues that the global turn toward neoliberalism with its focus on ends over means flexibility and a reduced role for the state has generated much of the corruption in post communist states At the same time he points out that neoliberalism is perhaps the single most powerful tool for overcoming the communist legacy which is an even more significant cause of corruption Among the conclusions that Holmes draws is that a strong democratic state is needed in the early stages of the transition from communism in order to prevent corruption from taking hold **The Economic Rise of China** Zhihua Wang, Eleftherios Giovanis, Nikolaos Karagiannis, 2022-08-08 This book seeks to reinvigorate debates on the growing forces influencing China's social and economic evolution It draws attention to several neglected areas in the discussion of China's rapid economic expansion such

as unbalanced growth mass internal migration international labour flows and disparities in access to education public health and housing China's rapid economic development has attracted the interest of many scholars following its emergence as the world's second largest economy and stimulated research into the underlying factors that have made this development unique In advancing research the chapters included in this edited book help with refining our understanding of the forces that have been driving China's social economic political institutional and technological developments addressing the related issues thus advancing the social economic literature within the China context This book serves the interests of scholars who seek to understand more fully the development of China as well as of other emerging economies One of the chapters in this volume was originally published in the Review of Evolutionary Political Economy Other chapters were originally published in the Forum for Social Economics

International Encyclopedia of Economic Sociology Jens Beckert, Milan Zafirovski, 2006

Dealing with the multiple and complex relations between economy and society this encyclopedia focuses on the impact of social political and cultural factors on economic behaviour It is useful for students and researchers in sociology economics political science and also business organization and management studies
