THE GARDEN AS A  
HEALING SPACE

MAURILYN BARRETT, Ph.D.

# Creating Eden The Garden As A Healing Space

**Marilyn Barrett**

## **Creating Eden The Garden As A Healing Space:**

**Creating Eden** Marilyn Barrett, 1992 An evocative meditation on gardening as a tool for self exploration and healing sensitively written beautifully illustrated and resonant with insights on regenerating the spirit Barrett s profound insights come from her personal triumph over multiple sclerosis 10 line drawings

**Public Garden Management: a Global Perspective** BIJAN DEHGAN, 2014-04-15 Public Gardens Management A Global Perspective provides essential information about public gardens and what is involved in designing managing and maintaining one Although suitable as a textbook its audience will include anyone with direct or peripheral responsibility for administration or supervision of a complex organization that requires scientific knowledge as well as public relations and business acumen It may also prove useful for homeowners for there is no fundamental difference between growing plants in a public garden or a home garden a fact reflected in the extensive reference citations The topic is multidisciplinary and as old as the beginning of human civilization when the concept of mental and physical restoration was realized by early man while he she was in a natural but well ordered garden environment Thus began the art of garden making Many volumes have been written on every applicable subject discussed in this and similar publications Indeed the voluminous literature on history design horticulture and numerous related subjects is nothing short of overwhelming Accordingly anyone involved in management of public gardens whether as a director or area supervisor and irrespective of the type and size of such facility would have to have familiarity with various aspects of garden organization and administration However despite the enormous number and diversity of such publications there are very few books that deal with the multiplicity of the topics in such a manner as to be practical in approach and cover most relevant and unified issues in a single book These volumes provide the essential background information on plants animals management maintenance fundraising and finances as well as history art design education and conservation They also cover a host of interrelated subjects and responsible organization of such activities as creating a childrens garden horticultural therapy conservatories zoological gardens and parks hence administration of multidimensional public gardens Nearly 500 full color plates representing illustrations from gardens in more than 30 countries are provided to assist and guide students and other interested individuals with history and the fundamental issues of public garden management The 15 chapters begin with the need for public gardens types of public gardens historical backgrounds as well as design diversity Numerous quotations are included from many garden lovers landscape architects philosophers and others The authors primary aim in writing this book was based on the confidence that a relevant reference between the encyclopedic nature of some and the specific subject matter of others could be used to provide fundamental information for management of public as well as private gardens The boundary between botanical and zoological gardens and parks is no longer as distinct as it once was In part it is because a garden is not a garden without plants and in part it has become apparent that for all practical intents and purposes all animals need plants for their survival Visitors of zoological gardens

expect to see more than just animals zoos are landscaped grounds Moreover most communities find it financially difficult to simultaneously operate a botanical garden or an arboretum as well as a zoological garden and city parks A number of public gardens are currently referred to as botanical and zoological garden Population density and the public's desires and expectations as well as financial requirements are among the reasons for some major city parks such as Golden Gate in San Francisco Central Park in New York City and Lincoln Park in Chicago which integrate botanical or zoological divisions as well as museums and recreational facilities While this book attempts to provide basic principles involved in public garden management it does not claim to be a substitute for broader familiarity

**Creating Eden** Marilyn Barrett, 1997 A psychotherapist and award winning gardener turns the simple act of nurturing plants into a meditative tool for self exploration and healing Marilyn Barrett invites readers into the healing space she created in her own backyard and shows how in a time of illness and stress she used gardening to renew her health and balance 18 b w woodcuts **Nonfiction**

**Book Proposals Anybody can Write (Revised and Updated)** Elizabeth Lyon, 2002-12-03 Sign the contract then write the book The good news is that almost every nonfiction book published is sold by a proposal In this comprehensive yet accessible guide you will learn exactly what a proposal is what it must contain and how to pull yours together into an informative persuasive selling package Already a favorite for thousands of aspiring writers this book has been revised and updated by Elizabeth Lyon to feature nearly two dozen actual proposals plus Choosing a topic based on current trends and competing titles Drafting the perfect concept statement daring agents and editors to reject you Defining and targeting your readership then connecting with them Preparing a table of contents and chapter summaries Submitting exciting and well written sample chapters Writing query letters Devising a marketing plan that will excite agents and publishers *Autumn Gospel* Kathleen Fischer, Kathleen R. Fischer, 1995 With her characteristic honesty gentleness and insight Kathleen Fischer explores the spiritual dimensions of women's middle and later years as she weaves together stories experiences and research from a variety of traditions and cultures She begins with a discussion of how societal images of older women constrict their sense of worth and their possibilities The author then suggests ways in which older women can embrace new visions of themselves She proceeds to explore the place of transitions the inner life contemplation the body mourning remembering caregiving and intergenerational connections as each relates to women's spirituality in later life At each chapter's end Dr Fischer offers rituals prayers and meditations that mark the passages of the second half of life *Changing Urban Landscapes Through Public Higher Education* Burtin, Anika Spratley, Fleming, Jeffery S., Hampton-Garland, Pamela, 2018-04-06 Outreach and engagement initiatives are crucial in promoting community development This can be achieved through a number of methods including institutions of higher education *Changing Urban Landscapes Through Public Higher Education* is a critical scholarly resource that examines the unique ways in which the faculty and students of the public institution of higher learning in and for the nation's capital connect to the community Featuring coverage on a broad range of topics such as civic

engagement service learning and teacher preparation this book is geared towards educators administration academicians researchers and students seeking current research on collaborative efforts between communities and institutions of higher education
