Joining Creation's Praise Brian Brock, 2025-08-19 In the beginning God created Thus begins the Bible's story of a long conversation between God and creatures one in which humans are often the least edifying contributors They need to learn what it means to confess themselves creatures if they are to begin to understand what it means to be human and how to live Joining Creation's Praise a major statement by a leading Christian ethicist shows how confessing that we are creatures deeply reshapes every aspect of Christian thinking and living Human beings are made to embody Christ's image in the world not as dominators but as conduits of divine life In this comprehensive yet clear volume of theological ethics Brian Brock follows the first few chapters of Genesis in order to discover the things that the sages of Israel took to be crucial for the ethical life of human beings among other creatures in God's world Informed by theological rigor and careful exegesis the many ethical reflections in this volume allow an ancient wisdom to shed fresh light on very postmodern ethical questions about conversion life with God knowledge and wisdom dominion Sabbath vocation economics human dignity our relationship with the rest of creation sexuality marriage family sin death and politics

Voicing Creation's Praise Jeremy Begbie, 1991-01-01 An introduction to the theology of art and the art of theology

Nature Praising God Dermot Lane, 2023-03-16 During the lockdown caused by the Covid 19 crisis streets were emptied churches closed and a relationship with nature developed in which questions to be asked again in light of the crisis arose Is God present in nature Is communion with God in nature possible Is there a relationship between the God of creation the God of history and the God we worship in Sunday liturgies In Nature Praising God Dermot Lane explores these questions by returning to the Bible The Christian tradition shows that nature is understood as a living community is graced by God and has a sacramental character He suggests that readers change their perception of how nature is traditionally regarded as a resource for human needs and embrace a new way of praising God through an appreciation of and care for the myriad life forms on earth The result of these explorations is the outline of a new theology of nature praising God with lessons for the way we worship God in our churches today

Worship and the New Cosmology Catherine Vincie, 2014-08-14 What is the Christian response to developments in the hard sciences What do discoveries at the macro and micro levels have to say about Christian theology about a theology of God Christology pneumatology and creation How do the developments in systematic theology that do take the advances in cosmology and the New Sciences seriously come to bear on our worship life These are the questions that are addressed in this text It is an initial effort to bring cosmology and the New Sciences into dialogue with

developments in systematic and sacramental theology This book also suggests some ways in which these developments might appear in our worship Overall the author is concerned to reduce the cognitive dissonance between our scientifically informed everyday lives and our life of faith *Dusty Earthlings* John Mustol,2018-01-01 The Lord God formed a man from the dust of the ground Genesis 2 7 Made of dust we humans are thoroughly physical beings We are dusty earthlings As such we are also ecological beings or rather eco physical beings firmly embedded in and dependent upon God s earthly ecosystems which support and provide for us and constitute our earthly home Today we are living in ways that are damaging our home As Christian dusty earthlings we are called to oversee God s earthly creation and to follow Jesus Christ God incarnated as a dusty earthling How do we do this in the face of the array of ecological problems we face today How can we obey the ecological principles and limits that govern all of life on God s good earth Mustol argues that the virtues of humility voluntary self limitation and the principles of kenosis and justice will help as we seek to follow Jesus as dusty earthlings in today s world

The Bible and the Environment David G. Horrell,2015-08-12 The biblical and Christian traditions have long been seen to have legitimated and encouraged humanity s aggressive domination of nature Biblical visions of the future with destruction for the earth and rescue for the elect have also discouraged any concern for the earth s future or the welfare of future generations But we now live in a time when environmental issues are at the centre of political and ethical debate What is needed is a new reading of the biblical tradition that can meet the challenges of the ecological issues that face humanity at the beginning of the third millennium The Bible and the Environment examines a range of biblical texts from Genesis to Revelation evaluating competing interpretations The Bible provides a thoroughly ambivalent legacy Certainly it cannot provide straightforward teaching on care for the environment but nor can it simply be seen as an anti ecological book Developing an ecological hermeneutic as a way of mediating between contemporary concerns and the biblical text The Bible and the Environment presents a way of productively reading the Bible in the context of contemporary ecology

Eco-Reformation Lisa E. Dahill,Jim B. Martin-Schramm,2016-10-31 In 2017 Christians around the world will mark the five hundredth anniversary of the Reformation In the midst of many appeals for reformation today a growing number of theologians scholars and activists around the world believe Reformation celebrations in 2017 and beyond need to focus now on the urgent need for an Eco Reformation The rise of industrial fossil fuel driven capitalism and the explosive growth in human population endanger the fundamental planetary life support systems on which life as we know it has evolved The collective impact of human production consumption and reproduction is undermining the ecological systems that support human life on Earth If human beings do not reform their relationship with God s creation unspeakable suffering will befall many especially the weakest and most vulnerable among all species The conviction at the heart of this collection of essays is that a gospel call for ecological justice belongs at the heart of the five hundredth anniversary observance of the Reformation in 2017 and as a if not the central dimension of Christian conversion faith and practice into the foreseeable future Like

Luther's Ninety Five Theses this volume brings together critical biblical pastoral theological historical and ethical perspectives that constructively advance the vision of a socially and ecologically flourishing Earth

Systematic Theology and Climate Change Michael S. Northcott, Peter M. Scott, 2014-06-05 This book offers the first comprehensive systematic theological reflection on arguably the most serious issue facing humanity and other creatures today Responding to climate change is often left to scientists policy makers and activists but what understanding does theology have to offer In this collection the authors demonstrate that there is vital cultural and intellectual work for theologians to perform in responding to climate science and in commending a habitable way forward Written from a range of denominations and traditions yet with ecumenical intent the authors explore key Christian doctrines and engage with some of the profound issues raised by climate change Key questions considered include What may be said about the goodness of creation in the face of anthropogenic climate change And how does theology handle a projected future without the human The volume provides students and scholars with fascinating theological insight into the complexity of climate change

The Universe in the Image of Imago Dei Alexei V. Nesteruk, 2022-03-24 Cosmology anthropology and Christology are deeply interrelated This implies that one cannot talk about the structure of the world without human presence in it as well as it is impossible to produce any reasonable understanding of humanity without positioning it in the universe In the same fashion in order to comprehend where the human capacity of predicating the universe comes from one needs to appeal to humanity's Divine Image that is to its archetype in the incarnate Christ Whereas Christians traditionally believe that the human phenomenon is unique as created in the Divine Image such scientific disciplines as evolutionary biology palaeoanthropology the sciences of artificial

intelligence psychology and others challenge the vision of humanity as a unique formation thus challenging the doctrine of Imago Dei All these disciplines place humans in a mediocre position in the world accompanied by the feeling of anxiety insecurity and non attunement to the universe Theology needs to respond to these challenges by incorporating into its scope the data from the sciences in order to neutralize such anxieties The resulting dialogue of theology with science provides a hermeneutics of the human condition with no objective to change the latter Then the sense of the universe is disclosed from within the Divine Image reflecting the predicaments of the human created condition *Dumitru Staniloae: An Ecumenical Ecclesiology* Radu Bordeianu,2011-09-29 **Made in the Image of God** Michael Fuller,David Jasper,2021-05-15 What does it mean to be human and made in the image of God This collection of essays explores the question from a wide range of theological and philosophical perspectives Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986 ,1996 *Perspectives on the World Christian Movement (4th Edition)* Ralph D. Winter,Steven C. Hawthorne,2009-06-01 Perspectives on the World Christian Movement presents a multi faceted collection of readings exploring the biblical historical cultural and strategic dimensions of world evangelization Writings from more than 150 mission scholars and practitioners over 60 of them new to this edition portray the history and anticipate the potential of the global Christian movement Every one of the 170 articles and side bars offers practical wisdom enabling Christians to labor together in bold biblical hope to finish the task of seeing that Christ is named and followed among all the peoples of the earth The Fourth Edition contains over 60 articles and sidebars that are new to this edition Many articles have been updated and revised **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** ,1996
