Creation A Scientists Choice:

Creation: A Scientist's Choice Zola Levitt, 1976-01-01 Read Journalist Zola Levitt's fascinating interview with Dr Moore professor of natural science at Michigan State University and see how it can help you Dr Moore is a professor who dares to expose his students to both the creation and evolution models then lets them draw their own conclusions about origins Though he once used only evolution to explain the origin of the universe after years of study he now asks some pointed questions 1 Is it really scientific to call the evolution model a theory or a hypothesis 2 How does it affect school children when evolution is taught as fact 3 Does the way we believe about how man got here on earth make any difference in how we treat other people 4 Is it really fair to say that the creation model is a purely religious or philosophical belief Isn't belief in evolution also a system of faith A truly thought provoking interview with a noted scientist *Covenants, Creation and Choice, Second Edition* Geoff Hawley, Dr. Michael Fitch, 2013-11-11 Have you ever wondered how we got here and why we are here Do you believe that the universe and life on Earth came about through creation by a master designer or do you still believe in the process of evolution Do you know that God works through covenants God has a covenant relationship with His creation It is essential to know about covenants in order to understand God's desire that we become more intimate with Him Taken together this study of covenants and creation provides compelling spiritual and scientific evidence that the universe was created exactly as described in the Bible Many of the questions and arguments about creation and evolution are also covered in this book We hope that it will enable you to make a more informed choice about what to believe because what you believe has eternal consequences **Scientific Creationism** Institute for Creation Research, 1985 This book deals with all the important aspects of the creation evolution question from a strictly scientific point of view attempting to evaluate the physical evidence from the relevant scientific fields without reference to the Bible or other religious literature It demonstrates that the real evidences dealing with origins and ancient history support creationism rather than evolutionism This General Edition rather than the Public School Edition includes a chapter Creation According to Scripture which places the scientific evidence in its proper Biblical and theological context Creation's testimony to its God; or, The accordance of science, philosophy and revelation Thomas Ragg, 1857 *Creation's Testimony to Its God, the Accordance of Science, Philosophy, and Revelation. A Manual of the Evidences of Natural and Revealed Religion with Especial Reference to the Progress of Science and Advance of Knowledge* Thomas Ragg, 1877 *An Orthodox Understanding of the Bible with Physical Science* Geoffrey Ernest Stedman, 2012-08-27 For centuries the Christian world and the scientific world have supposedly been at odds Those who strictly believe that God created the universe have had difficulty accepting such scientific concepts as the speed of light the immense distances of astronomy and the long ages of radioactivity and earth science This book bridges the gap between scientific and Christian beliefs by asking the reader What if both sides are parallel revelations by God An Orthodox Understanding of the Bible With Physical Science is a mixture of Biblical exposition and explanation of

modern physical science including relativity and quantum theory The book also includes a chapter of scientific parables for children

Creating Scientific Controversies David Harker, 2015-10 This is the first book length introductory study of the concept of a created scientific controversy providing a comprehensive and wide ranging analysis for students of philosophy of science environmental and health sciences and social and natural sciences

And with All Your Mind Steven H. Propp, 2010-12-21 Its 1971 and Silas Baker is a high school senior in California whose main interests are basketball and weekend parties But his life takes a dramatic turn when he encounters a group of committed Christians who soberly inform him that Jesus is coming soon They enroll at Riverstent Bible College Its an exciting time as leading Bible teachers have predicted that Jesus will return to Rapture his Church within one generation of the 1948 formation of the State of Israel Popular movies further inflame this passion as the eager students study Apologetics and Biblical Archaeology aberrant theologies such as the Death of God movement and even conflicting interpretations of the End Times An activist spirit develops within evangelicalism culminating in the so called Christian Right as the evangelical world is rocked in the aftermath of the televangelist scandals Confronted by world views such as Calvinism and Christian Reconstruction the characters passionately debate controversies such as Biblical Inerrancy and the age of the cosmos in addition to challenging evangelicals who deny traditional doctrines such as that of endless punishment in Hell or who promote an Open yet limited concept of God himself As society evolves so does evangelicalism seeker sensitive megachurches appear while Postmodernism and the Emergent Church become realities Theologians wrestle with the question of divorce and remarriage and the role of women in the church as well as the divisive issue of homosexuality As they struggle with lifes realities they ultimately must also respond to nonchristians who are alienated indifferent or engaged in active opposition to Christianity while searching for the meaning of Christian faith in the modern world

Abusing Science Philip Kitcher, 1983-06-23 Abusing Science is a manual for intellectual self defense the most complete available for presenting the case against Creationist pseudo science It is also a lucid exposition of the nature and methods of genuine science The book begins with a concise introduction to evolutionary theory for non scientists and closes with a rebuttal of the charge that this theory undermines religious and moral values It will astonish many readers that

this case must still be made in the 1980s but since it must Philip Kitcher makes it irresistibly and forcefully Not long ago a federal court struck down an Arkansas law requiring that scientific Creationism be taught in high school science classes Contemporary Creationists may have lost one legal battle but their cause continues to thrive Their efforts are directed not only at state legislatures but at local school boards and textbook publishers As Kitcher argues in this rigorous but highly readable book the integrity of science is under attack The methods of inquiry used in evolutionary biology are those which are used throughout the sciences Moreover modern biology is intertwined with other fields of science physics chemistry astronomy and geology Creationists hope to persuade the public that education in science should be torn apart to make room for a literal reading of Genesis Abusing Science refutes the popular complaint that the scientific establishment is dogmatic and intolerant denying academic freedom to the unorthodox It examines Creationist claims seriously and systematically one by one showing clearly just why they are at best misguided at worst ludicrous

I Was Blind But Now I See Evolution - Creation Marilyn Oakley, 2007-09-01 A book that takes a look at the theory of evolution and a look at creation Some of the questions that are covered in her new book are What are the real facts behind evolution Were we designed by Intelligence Did dinosaurs and man really coexist What the earth's crust tells us How the Great Flood fits the fossil record What were the Father of Evolution Charles Darwin's real thoughts on his own theory of evolution What some evolutionists say on this theory Louis Pasteur did multiple experiments on Darwin's theory What were his findings All evidence and proof point to The evolution creation controversy is not just a scientific issue In her book she is going to show you the reasons why she thinks the evolution theory is wrong and how creation gives a better account She believes students and people in general should feel free to choose for themselves among these ideas and to be able to exercise their freedoms of thought and of opinion How long have your eyes been closed

The Collapse of Evolution Scott M. Huse, 1997-11-01 One of the most successful books on the flaws in evolutionary theory The third edition includes two new chapters on astronomy and archaeology

God Speaks Science John Van Sloten, 2023-07-04 A joy filled expedition into experiencing God's majestic everywhere presence DNA the Danube River and deep sea life Knees and trees The Swiss Alps songbirds and supernovas God speaks through His creation And you don't have to be naturally gifted at biology chemistry or physics to be awakened to His wisdom and majesty Pastor teacher and non scientist John Van Sloten invites us to know God more deeply as we marvel at the complexities of His amazing creation Knowing God through His written Word enables us to know Him more clearly through His creational Words How does God speak through His creation and what is He saying Each chapter includes interviews with leading scientists and connects creation to its Creator With the primary foundation that Jesus is the mediator of both salvation and creation Van Sloten fields questions such as Why are things beautiful and how can beautiful things be engaged How does the doctrine of the Trinity teach us about the nature of tree branches and wound healing What do the doctrines of creation incarnation and the resurrection tell us about phenomenon of supernovas How do we engage God's providence through knees and fossils
