 Thayer took his own first century or one hundred mile bicycle ride The Two Wheeled World of George B Thayer brings to life
 the experience of late nineteenth century cycling through the heartfelt story of this important cycling pioneer In 1886 just
 two years after his first century Thayer rode his high wheeler across the United States traveling from his home in
 Connecticut to California and back Thayer took an indirect route without any intent to set speed records but his trip was full
 of adventure nonetheless Thayer loved going downhill his legs over the handlebars risking life and limb atop the large wheel
 on often rough and muddy roads With aplomb and humor he dealt with the countless other hazards he encountered including
 dogs mule teams and wild hogs Even bad weather and poor sleeping conditions could not keep Thayer down After his epic

tour across the United States Thayer had the urge to cycle abroad and eventually toured England Germany Belgium and Canada on his bike His later travels were in part aided by his hometown of Hartford Connecticut which was the epicenter of American bicycle manufacturing in the late 1890s In addition to telling Thayer s cycling story Kevin J Hayes brings to life the culture of cycling and its rise at the end of the nineteenth century when bikes became more affordable and the nation s riding craze took off
