[The European Higher Education Area](#) Adrian Curaj, Liviu Matei, Remus Pricopie, Jamil Salmi, Peter Scott, 2015-10-12 Bridging the gap between higher education research and policy making was always a challenge but the recent calls for more evidence based policies have opened a window of unprecedented opportunity for researchers to bring more contributions to shaping the future of the European Higher Education Area EHEA Encouraged by the success of the 2011 first edition Romania and Armenia have organised a 2nd edition of the Future of Higher Education Bologna Process Researchers Conference FOHE

BPRC in November 2014 with the support of the Italian Presidency of the European Union and as part of the official EHEA agenda Reuniting over 170 researchers from more than 30 countries the event was a forum to debate the trends and challenges faced by higher education today and look at the future of European cooperation in higher education The research volumes offer unique insights regarding the state of affairs of European higher education and research as well as forward looking policy proposals More than 50 articles focus on essential themes in higher education Internationalization of higher education Financing and governance Excellence and the diversification of missions Teaching learning and student engagement Equity and the social dimension of higher education Education research and innovation Quality assurance The impacts of the Bologna Process on the EHEA and beyond and Evidence based policies in higher education The Bologna process was launched at a time of great optimism about the future of the European project to which of course the reform of higher education across the continent has made a major contribution Today for the present that optimism has faded as economic troubles have accumulated in the Euro zone political tensions have been increased on issues such as immigration and armed conflict has broken out in Ukraine There is clearly a risk that against this troubled background the Bologna process itself may falter There are already signs that it has been downgraded in some countries with evidence of political withdrawal All the more reason for the voice of higher education researchers to be heard Since the first conference they have established themselves as powerful stakeholders in the development of the EHEA who are helping to maintain the momentum of the Bologna process Their pivotal role has been strengthened by the second Bucharest conference Peter Scott Institute of Education London Rapporteur of the FOHE BPRC first edition

*Internationalizing Higher Education with National Characteristics: Similar Global Trends but Different Responses* Min Hong, 2022-08-25 In an era of globalization internationalization of higher education IHE has been constructed as an almost inevitable trend and has become a common pursuit of many nations in their higher education HE policies This book focuses on two nations China and Australia in terms of this trend The broadest aim of this book was to find out the interactive relationships between global and national pressures in policy development by comparing the international HE policies in China and Australia The three categories overarching meta policies at the macrolevel nation institution focused policies at the mesolevel universities and people focused policies at the microlevel individuals are documented and analyzed Similarities and differences are identified Similarities include promoting and deepening IHE as one important agenda in national policies at the macrolevel in the two nations promoting transnational cooperation in the provision of HE at the mesolevel as well as increasing international student numbers and encouraging an outflow of student learning and exchanges at the microlevel Differences include China s soft power initiatives and Australia s appeal for the sustainability of international HE as a national priority in the area of IHE at the macrolevel the focus on World Class Universities construction in China and strengthening the overall HE system in Australia and different issues in relation to people mobility and brain circulation specifically encouraging more outflow of students and attracting more inflow of talents and international students in China and over reliance on international students financially in Australia It is suggested that different responses to the global trends reflect the specificities of each nation and the ways path dependent factors mediate global pressures This

comparison will facilitate a better understanding of how globalization has affected and been responded to in IHE policies and enable a better understanding of their path dependent mediation through a focus on two specific sets of national policies
