Mark D. Meyerson, Daniel Thiery, Oren Falk, 2015-03-27 A great effusion of blood was a phrase used frequently throughout medieval Europe as shorthand to describe the effects of immoderate interpersonal violence Yet the ambiguity of this phrase poses numerous problems for modern readers and scholars in interpreting violence in medieval society and culture and its effect on medieval people Understanding medieval violence is made even more complex by the multiplicity of views that need to be reconciled those of modern scholars regarding the psychology and comportment of medieval people those of the medieval persons themselves as perpetrators or victims of violence those of medieval writers describing the acts and those of medieval readers the audience for these accounts Using historical records artistic representation and theoretical articulation the contributors to this volume attempt to bring together these views and fashion a comprehensive understanding of medieval conceptions of violence Exploring the issue from both historical and literary perspectives the contributors examine violence in a broad variety of genres places and times such as the Late Antique lives of the martyrs Islamic historiography Anglo Saxon poetry and Norse sagas canon law and chronicles English and Scottish ballads the criminal records of fifteenth century Spain and more Taken together the essays offer fresh ways of analysing medieval violence and its representations and bring us closer to an understanding of how it was experienced by the people who lived it *The Blood Axe* Eileene Harrison Beer, 2001
